Eligible employees enter the Plan on the first of the month coincident with or following the date of eligibility. The Plan excludes employees covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2011, the Ryt-way Illinois 401(k) Plan was merged into the Plan. Total assets merged into the Plan were \$7,300,964, including \$1,302,228 reflected as a transfer into the Plan as of December 31, 2010. The remainder of \$5,998,736 was deposited in the Plan on January 3, 2011. As part of the merger, Cloud Packaging Solution LLC, Toll Packaging Services LLC, Roberts Packaging, LLC and Quality Bakery Products LLC became eligible employers of the Plan effective January 1, 2011.

Effective May 28, 2013, Ryt-way Industries, LLC merged with Hearthside Food Solutions, LLC.

Contributions

Participants may elect to make contributions, on a pre-tax basis, up to 100% of their compensation. Participants age 50 or older are allowed to make catch-up contributions. The Plan allows for Company matching contributions on employee deferrals equal to 50% of the elective deferrals up to 6% of eligible compensation. In addition, the Company may elect to contribute a profit sharing contribution as a fixed percentage of eligible participants' compensation. The fixed percentage a participant receives is determined by the employer on a discretionary basis. In order to receive the profit sharing contribution, a participant must be employed by the Company on the last day of the Plan year. There were no profit sharing contributions for the years ended December 31, 2012 and 2011.

The Plan also allows participants to make rollover contributions from other qualified plans. Contributions are subject to certain limitations.

Participant Accounts

Each participant's individual account is credited with employee deferral contributions, Company matching and profit sharing contributions, plan earnings, and forfeitures of the terminated employee's non-vested accounts. Allocations are based on participant earnings or account balances as defined. Income is allocated daily based on the shares in the participant's account.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Under terms of the Plan, the participant may receive his or her optional form of benefit in the form of a lump sum or installment payments. The benefit is distributable upon termination of employment, death, disability, attainment of normal retirement age (age 65) and, to the extent of his or her deferral contribution account, age 59½. Participants may also take in-service distributions of their rollover account balance. Distributions on account of hardship are not permitted. If a participant terminates employment and the participant's vested account balance is less than \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent (automatic distribution). Automatic distributions between \$1,000 and \$5,000 without the participant's consent will be paid in a direct rollover to an Individual Retirement Account (IRA).

Vesting

Participants are immediately 100% vested in their own contributions, Company matching contributions, and rollovers. The Company's discretionary profit-sharing contributions plus actual earnings thereon are subject to a 3-year graded vesting schedule. Participants become 100% vested in all contributions plus actual earnings thereon upon retirement, death or disability.

Notes Receivable from Participants

Participants may borrow from their accounts the lesser of 50% of the vested account balance or \$50,000. Notes receivable transactions are treated as a transfer to (from) the investment fund (to) from a note receivable fund. The notes are secured by the balance in the participant's account and bear a reasonable rate of interest. The interest rate will be determined based on the prime rate in effect on the first business day of the month the note originated. Notes outstanding at December 31, 2012 bear interest rates from 3.25% to 9.25%. Principal and interest are paid ratably through payroll deductions, not to exceed 5 years, unless the note proceeds are to be used for a primary residence, in which case the note term may be extended. Participants may only have two notes outstanding at any time.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce future Company matching contributions. Forfeited non-vested accounts as of December 31, 2012 and 2011 totaled \$8,630 and \$7,466, respectively. Forfeitures used to reduce matching contributions for the years ended December 31, 2012 and 2011 totaled \$-0-.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For the investment contracts held by the Plan, fair value approximates contract value. Therefore, no adjustments to the statements of net assets available for benefits are necessary. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2012 and 2011.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

The Company pays a portion of Plan expenses.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments in the insurance company investment contract are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Contract value approximates fair value, thus no adjustments are necessary to bring net assets available for benefits from contract value to fair value. Investments in the mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts on the financial statements and accompanying notes. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through August 20, 2013, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the custodians of the Plan, have certified to the completeness and accuracy of notes receivable from participants and investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011 and the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2012.

NOTE 5 INSURANCE CONTRACT

The Plan entered into an investment contract with Great-West Life and Annuity Insurance Company (Great-West). Great-West maintained the contributions in a general account. For the contract held by the Plan, fair value approximates contract value. Investments in insurance company investment contracts (GICs) are stated at contract value which represents contributions made under the contract, plus interest at the contract rate, less withdrawals and less funds used to pay administration expenses. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit responsive.

RYT-WAY INDUSTRIES, LLC PROFIT SHARING 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 5 INSURANCE CONTRACT (CONTINUED)

The fair value of the GIC is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. The contract provides for withdrawals associated with certain events which are not in the ordinary course of plan operations, and that the insurance company determines will have a material adverse effect on its financial interest, will be paid with a fair value adjustment to the contract value amount of such withdrawal as defined in such contracts. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor event (e.g. divestitures or spin-offs of a subsidiary, etc) which cause a significant withdrawal from the Plan or; (iv) failure of the trust to qualify for exemption from a federal income taxes or any required prohibited transaction exemption under ERISA.

The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with the participants, is probable.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2012	2011
Based on Annualized Earnings	1.45%	2.03%
Based on Interest Rate Credit to Participants	1.45%	2.03%

NOTE 6 RISKS AND UNCERTAINTIES

The Plan provides for investment in a variety of investment securities. In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

NOTE 8 PLAN TAX STATUS

The Company adopted a Prototype Defined Contribution Plan which received a favorable determination letter from the Internal Revenue Service on March 31, 2008 which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The investments are managed by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the custodians of the Plan. Therefore, these transactions qualify as party-in-interest.

The Company has corrected the prohibited transaction in 2012 and 2013 by depositing the lost earnings, filing the required Form 5330 with the Internal Revenue Service and paying the appropriate excise tax.
