Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Nationwide Financial Services, Inc., the trustee of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee, as of December 31, 2012 and 2011 and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements as a whole.

Other Matter - Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4(i), Schedule of Assets (Held at End of Year) as of December 31, 2012, which is the responsibility of plan management is required by the DOL Rules and Regulations for Reporting and Disclosure under the ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA.

NOTE 1 - Description of the Plan

The following description of the MedSpeed, LLC 401(k) Plan (the "plan") provides only general information. Participants should refer to the plan's summary plan description for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan established by MedSpeed, LLC (the "company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, covering all employees who have completed at least six months of service with the company, as defined by the plan. Upon enrollment in the plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation (salary reduction contributions), as defined in the plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The company matches 20% of employee contributions for contributions up to 5% of the participant's compensation. Additional company contributions may be contributed at the company's discretion. No discretionary contributions were made for the years ended December 31, 2012 and 2011. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions, and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options and Related Risks

The plan invests in pooled separate accounts (mutual funds) which are subject to various risks, including credit, interest, and overall market volatility risks. In addition to these general risks, there are additional risks that may be applicable to the specific investments held by the plan as noted below.

Large cap equity funds - The fund's strategy of investing in large cap stocks carries the risk that in certain markets large cap stocks will underperform small cap or mid cap stocks.

Mid cap equity funds - Investments in mid cap companies are subject to more erratic price movements than investments in larger, more established companies. In particular, mid-sized companies may pose greater risk due to narrow product lines, limited financial resources, less depth in management or a limited trading market for their securities.

NOTE 1 - Description of the Plan (cont.)

Small cap equity funds - The fund's investment in smaller companies are subject to more erratic price movements than investments in larger, more established companies. Small cap companies may be developing or marketing new products or services for which markets are not yet and may never become established. Although small, unseasoned companies may offer greater opportunities for capital growth than larger, more established companies, they also involve greater risks and should be considered speculative.

International equity funds - Foreign securities involve special risks, including potentially unfavorable currency exchange rates, limited government regulation (including less stringent investor protection and disclosure standards) and exposure to possible economic, political and social instability. To the extent the fund invests in emerging market countries, its foreign securities risk will be higher.

Balanced funds - The funds may be reduced by changes in the dividend policies of, and the capital resources available at, the companies in which the fund invests. Rising interest rates will generally cause the prices of bonds and other debt securities to fall. In addition, falling interest rates may cause an issuer to redeem, "call" or refinance a security before its stated maturity, which may result in the fund having to reinvest the proceeds in lower yielding securities. Longer maturity debt securities may be subject to greater price fluctuations than shorter maturity debt securities.

Fixed income funds - Fixed-income securities or bonds are subject to credit risk and interest rate risk. The credit rating of bonds in the fund could be downgraded or the issuer of a bond could default on its obligations. In general, lower-rated fixed-income securities involve more credit risk. When interest rates rise, bond prices generally fall.

Other equity funds - The investment seeks capital growth. The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. It may invest a portion of its assets in securities of issuers domiciled outside the US. The investment adviser uses a system of multiple portfolio counselors in managing the funds assets.

Vesting

Participants are immediately vested in their salary reduction and rollover contributions plus earnings thereon. Participants who leave the plan because of death, early or normal retirement, or disability retirement, as defined in the plan, are considered 100% vested. Company contributions and earnings thereon vest in accordance with provisions of the plan as follows:

Vesting Years of Service	Percentage Vested
1	20%
2	40%
3	60%
4	80%
5	100%

NOTE 1 - Description of the Plan (cont.)

Forfeited Accounts

As of December 31, 2012 and 2011, forfeited nonvested accounts totaled $0 and $114, respectively. These accounts will be used to reduce future company contributions. In 2012, company contributions were reduced by $394 from forfeited nonvested accounts.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, or termination of employment, as defined in the plan agreement. The plan provides for normal retirement at age 65 or the fifth anniversary of joining the plan, if later. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, installments, or an annuity. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the plan.

Termination of Plan

Although it has not expressed any intent to do so, the company has the right under the plan to terminate the plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at 3.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Administrative Expenses

The company pays a portion of the plan's administrative expenses.

Reclassification

For comparability, certain 2011 amounts have been reclassified to conform with classifications adopted in 2012.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 - Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, "Fair Value Measurement," which aligns disclosures related to fair value between US GAAP and International Financial Reporting Standards. The standards update includes changes to the wording used to describe many of the requirements in US GAAP for measuring fair value and changes to the disclosure of information about fair value measurements. More specifically, the changes clarify the intent of the FASB regarding the application of existing fair value measurements and disclosures as well as changing some particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. This update was effective for the plan in 2012.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - Information Prepared and Certified by Trustee - Unaudited

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Nationwide Financial Services, Inc., the trustee of the plan.

Notes receivable from participants	$ 28,248		$ 27,933	

Investments that represent 5% or more of the plan's net assets are separately identified with an "*".

During the year ended December 31, 2012, the plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Pooled separate accounts	$ 103,261
Interest and dividends	786
Net Investment Return Certified by Trustee	$ 104,047

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for the plan's assets measured at fair value. There have been no changes in the methodology used at December 31, 2012 and 2011.

Pooled Separate Accounts: Valued daily by Nationwide Financial based on that day's unit value which reflects the daily crediting of dividends. After the close of the stock market, Nationwide receives a daily price from each fund house. This figure includes the net asset value and any dividends and capital gains declared. This allows Nationwide to calculate a gross investment rate which is used to compute the unit value.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value:

	December 31, 2012			
	Total	Level 1	Level 2	Level 3
Pooled Separate Accounts				
Balanced	$ 668,369	$ -	$ 668,369	$ -

Small cap stocks	28,190	-	28,190	-
Total Assets	$ 682,265	$ -	$ 682,265	$ -

Certain investments held by the Plan calculate fair value by using the NAV of the fund house to calculate the unit value of the funds.

	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts (a)	$ 1,099,567	$ -	Daily	None

(a) This class includes investments in mutual funds, including large cap, mid cap, small cap, international, bonds, and balanced funds as noted in Note 1. These funds invest in domestic and international stocks and bonds. The fair values of the investments in this class have been estimated using the unit value per share. The investment strategies of the funds in this class vary for each of the funds disclosed in Note 3.

NOTE 5 - Amount Owed to Participants Withdrawing From the Plan

There were no amounts owed to participants who have withdrawn from the plan as of December 31, 2012 and 2011.

NOTE 6 - Parties In Interest

Certain plan investments are mutual funds held and managed by an insurance company, Nationwide Life Insurance Company, the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services are with the trustee and are party in interest transactions. These fees are netted against investment income for the year ended December 31, 2012.

NOTE 7 - Tax Status

The plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. The plan administrator believes that the plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date.

Participants in the plan are not subject to income taxes on salary reduction contributions or earnings thereon until they receive distributions from the plan.

US Generally Accepted Accounting Principles require plan management to evaluate tax positions taken by the plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The plan has recognized no interest or penalties related to uncertain tax positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - Reconciliation of Financial Statements to Schedule H Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 to the net assets reported on the 2012 Form 5500, Schedule H, Part I:

Net assets available for benefits per the financial statements	$ 1,148,856
Excess participant contributions payable	15,980
Net Assets Available for Benefits per the Form 5500	$ 1,164,836

The following is a reconciliation of net increase in net assets available for benefits reported per the financial statements at December 31, 2012 to the net income reported on the 2012 Form 5500, Schedule H, Part II:

Net increase per financial statements	$ 413,503
Excess participant contributions payable	15,980
Net Income as Reported on Form 5500	$ 429,483

NOTE 9 - Subsequent Events

The plan has evaluated subsequent events through August 9, 2013, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the plan's financial statements.
