PACER INTERNATIONAL 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Pacer International 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Pacer International, Inc. (the Company and Employer) except for the following: employees who are covered under a collective bargaining agreement, nonresident aliens, leased employees or independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee salary deferrals up to a certain percentage of annual compensation as determined by the Company. Participants who have attained age 50 prior to the close of a Plan year are also eligible to make a catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Currently, the Plan offers a number of investment options in mutual funds and common trust funds. The Company's matching contributions to the Plan are at its discretion. The matching Company contribution is invested in the investments as directed by the participants for their pre-tax deferrals. Additional amounts may be contributed at the option of the Company's board of directors.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Company contributions and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. Participants vest ratably over a five year period at 20% per year.

Payment of Benefits

If a participant's employment ceases as a result of normal retirement, death or disability, the participant or the participant's beneficiaries are entitled to receive the entire value of the participant's account. If a participant terminates for any other reason, the participant is entitled to receive only the value of the vested interest in their account. Participants will receive benefits in a single lump sum.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their vested account balance, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are collateralized by the balance in the participants' accounts. Loan terms are for a period not exceeding five years. A term up to thirty years may be approved by the Plan if proceeds are to be used for the purchase of a primary residence. Loans bear interest at the prime lending rate plus 1%. Interest rates on notes receivable ranged from 4.25% to 9.25% as of December 31, 2012 and 2011. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled \$16,471 and \$237,158, respectively. These amounts will be used to offset administrative expenses incurred by the Plan as well as to reduce employer contributions. During 2012, \$316,931 of forfeitures were used to reduce Company contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Loans are considered delinquent at the end of the quarter in which a payment is missed.

Investments

The Plan's participant-directed investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments (Continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company has elected to pay certain costs associated with Plan administration from its operating assets and from the forfeited, non-vested accounts within the Plan.

Subsequent Events

The Plan has evaluated subsequent events through July 10, 2013, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED BY TRUSTEE

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2012 and 2011 and for the year ended December 31, 2012 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these Plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 9 and the supplemental schedule related to the Plan's assets.

T. Rowe Price Trust Company also certified to the completeness and accuracy of \$4,314,142 of net appreciation in fair value of investments, \$1,233,672 of dividends related to investments, \$27,085 of other investment income, and \$59,797 of interest income from notes receivable from participants for the year ended December 31, 2012.

NOTE 4 – INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	<i>2012</i>	<i>2011</i>
PIMCO Total Return Fund	\$ 3,228,168	\$ 2,860,048
American Funds The Growth Fund of America	*	2,631,580
T. Rowe Price Equity Index Trust	2,346,082	2,150,337
T. Rowe Price Retirement 2020 Fund	*	2,433,400
T. Rowe Price Retirement 2025 Fund	3,543,877	3,323,109
T. Rowe Price Retirement 2030 Fund	2,771,610	2,173,243
T. Rowe Price Stable Value Fund	6,279,730	6,754,353

T. Rowe Price Blue Chip Growth Fund	2,995,853	*
Wells Fargo Advantage Small Cap Value Fund	2,951,808	2,889,202

* Fair value did not exceed 5% or more of the Plan's net assets

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$ 3,982,444
Common/collective trusts	331,698
Total	<u>\$ 4,314,142</u>

NOTE 5 – RELATED-PARTY TRANSACTIONS

Various administrative expenses are paid out of the Plan. Total fees incurred by the Plan in 2012 for trustee, recordkeeping, and other professional services rendered by parties-in-interest amount to \$22,195.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 7 – INCOME TAX STATUS

The Plan was amended and restated effective January 1, 2009 and is relying on an opinion letter issued on March 31, 2008 in which the Internal Revenue Service stated that the Prototype Non-Standardized Profit Sharing Plan with CODA, as then designed was in compliance with applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2009.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 9 – FAIR VALUE MEASUREMENTS

The Plan has determined the fair value of certain assets and liabilities through application of accounting guidance that establishes a framework for measuring fair values.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Standards require the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, standards establish a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The fair value hierarchy is as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Mutual Funds: Mutual funds are valued based on net asset values reported in the active market and shares held by the Plan at year-end.

NOTE 9 – FAIR VALUE MEASUREMENTS (CONTINUED)

Common/Collective Trusts: Valued at the net asset value (NAV) of shares held by the Plan at year end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund, and provides the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis

The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2012 and 2011, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

NOTE 11 – RECENT ACCOUNTING PRONOUNCEMENT

Fair Value Measurements and Disclosures

During 2012, the Plan adopted new accounting guidance related to fair value measurements and disclosures that result in common fair value measurements and disclosures between U.S. GAAP and International Financial Reporting Standards. This guidance limits the highest-and-best use measure to non-financial assets, permits certain financial assets and liabilities with offsetting positions in market or counter-party credit risks to be measured on a net basis, and provides guidance on the applicability of premiums and discounts. Additionally, the guidance expands the disclosure requirements for hierarchy classification to items not presented at fair value and disclosure of level three inputs by requiring quantitative disclosure of unobservable inputs and assumptions, as well as a description of the valuation processes and the sensitivity of the fair value to changes in unobservable inputs. The adoption of this guidance did not have a material impact on the Plan's financial statements.
