1. DESCRIPTION OF THE PLAN

The following description of Techtronic Industries North America, Inc. (the "Company") Deferred Savings Plan (the "Plan) (formerly Ryobi Technologies, Inc. Deferred Savings Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan covering substantially all hourly and salaried employees of the Company. Employees are eligible to participate on the first day of the calendar month following completion of one month of service. Prior service with Ryobi Motor Products Corp., Ryobi America Corporation and Ryobi North America, Inc. (collectively the "Predecessor Employers") qualifies toward the service requirement for employees employed by one of the Predecessor Employers on July 31, 2000. The Plan was amended in 2005 to add Milwaukee Electric Tool Corporation and Royal Appliance Manufacturing Co. to the list of Predecessor Employers. The Plan was amended in 2007 to admit Stiletto Tools, Inc. as a participating employer. The Plan now states that service with all predecessor organizations will be counted when determining whether a participant meets the service requirement. The Administrative Committee of the Company manages the operation and administration of the Plan. The Plan's trustee is State Street Bank & Trust Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 50% of their pretax annual compensation, as defined in the Plan, not to exceed $17,000 and $16,500 in 2012 and 2011, respectively. Participants over aged 50 may contribute an additional $5,500 of their pretax compensation. Contributions are subject to certain Internal Revenue Code ("IRC") limitations. The Plan provides for an automatic employee deferral election (5% for 2012 and 2011) for any existing or new plan participant who does not have a deferral election in place, unless such participant makes a different deferral election directly with Diversified Investment Advisors. The Company may match 50% of the first 8% of base compensation that a participant contributes to the Plan. For the period from January 1, 2009 to April 6, 2009 the Company made safe-harbor matching contributions. This policy was eliminated effective April 6, 2009. The employer non-safe harbor match was suspended effective May 4, 2009. Additional non-elective amounts may be contributed at the discretion of the Company's Board of Directors. No such contributions were made during 2012 or 2011. The employer match was reinstated in July 2011. Participants may also contribute rollover amounts representing distributions from other qualified defined benefits or defined contribution plans. Excess contributions to be returned to participants are included in the accompanying statements of net assets available for benefits.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, the Company's matching contribution, and allocations of Company non-elective contributions and plan earnings, and charged with benefit payments and allocations of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of participant and employer contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and common trust funds as investment options for participants.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant vests ratably and is 100% vested after five years of credited service. In addition, a participant becomes fully vested upon his or her death, disability or retirement. Forfeited balances of terminated nonvested participants are used to reduce future Company contributions.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balances, whichever is less. Each loan is secured by the balance in the participant's account and bears interest at a rate commensurate with local prevailing rates as determined by the plan administrator. A participant may only have one loan outstanding at any time. The loan term may not exceed five years unless the loan is for the purchase, or construction of a primary residence.

Payment of Benefits

On termination of service a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or partial withdrawals.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $157,865 and $70,528, respectively. During the years ended December 31, 2012 and 2011, employer contributions were reduced by $-0- and $-0-, respectively, from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Investments in common trust funds ("funds") are stated at estimated fair values, which have been determined based on the unit values of the funds. Unit values are determined by the organization sponsoring such funds by dividing the funds' net assets at fair value by the units outstanding at each valuation date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and the common trust fund are deducted from income earned on a daily basis and are not separately reflected.

Loans to Participants

Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with corresponding reduction to contributions.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the plan document. Expenses paid by the Company are excluded from these financial statements. Expenses paid by the Plan amounted to $5,200 and $3,642 for the years ended December 31, 2012 and 2011. Fees related to the administration of loans to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. INVESTMENTS

The Plan's investments that represent 5% or more of the Plan's net assets available for benefits as of December 31 are as follows:

	2012	2011
Mutual funds		
American Capital World Growth & Income Fund	$2,933,537	$2,540,771
American Century Equity Income Fund	2,505,869	2,033,221
JP Morgan Large Capital Growth R5	4,702,234	3,600,001
PIMCO Total Return Fund	5,342,324	4,030,784
Common trust fund		
Diversified Stable Pooled Fund	11,811,586	11,413,746

During the years ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $3,983,839 and ($215,451), respectively. This is comprised of an appreciation (depreciation) in mutual fund investments of $3,828,331 and ($403,578), respectively and an appreciation in common trust fund investments of $155,508 and $188,127, respectively.

The Plan contains a nonparticipant-directed investment consisting of the State Street Bank and Trust Company Cash Reserve Account. The balance in this account was $157,865 and $70,528 at December 31, 2012 and 2011, respectively. The net change in the account is due to the ordinary daily cash transactions of the plan.

4. RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds and units of participation in common trust funds managed by the trustee. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in the net appreciation of fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The plan sponsor pays directly any other fees related to the Plan's operations.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their employer contributions.

6. FEDERAL INCOME TAX STATUS

Effective December 15, 2002, the Plan adopted a prototype plan document sponsored by its former trustee. The trustee received an opinion letter from the Internal Revenue Services ("IRS"), dated October 1, 2005, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2012 and 2011, and for the years then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by the trustees of the Plan as of December 31, 2012 and 2011 and for the years then ended, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustees that such information is complete and accurate in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

	2012	2011
Investments		
Cash account	$ 157,865	$ 70,528
Mutual funds (registered investment companies)	34,787,050	27,744,880
Common trust funds	11,811,586	11,413,746
Participant loans	1,070,953	930,200
	$47,827,454	$40,159,354
Investment income		
Interest	$ 42,449	$ 44,145
Income from common trusts	155,508	188,127
Income from registered investment companies	3,828,331	(403,578)

In addition, all investment information included in Note 3 and the supplemental schedule was furnished and certified by the trustee.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest level to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and maximize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Cash Account: This is an ordinary cash bank account and is a Level 1 input.

Mutual Funds (Registered Investment Companies): Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. These are Level 2 investments.

Common Trust Fund: Valued at the NAV of units of a bank common trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the common trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The common trust fund held by the plan has no unfunded commitments, a daily redemption frequency, and a redemption notice period of 30 days.

The fair values of these investments are disclosed in Note 7 above.

10. SUBSEQUENT EVENTS

Management has evaluated the effect of subsequent events on the financial statements up to August 27, 2013, the date the financial statements were available to be issued.
