Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Chicago Dryer Company Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by TD Ameritrade Trust Company, the trustee of the plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

CHICAGO DRYER COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012

1. Description of Plan:

The following description of the Chicago Dryer Company Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Chicago Dryer Company (Plan Sponsor) who complete 250 hours of service within three (3) consecutive months of service and have attained the age eighteen (18) are eligible to participate as of the date such employee has satisfied these requirements. An eligible employee shall become a participant effective as of the earlier of the first day of the Plan year or the first day of the seventh month of such Plan year coinciding with or next following the date such employee met the eligibility requirements provided the employee was still employed as of such date. The plan is subject to the provisions of ERISA.

Contributions

Each year, participants may elect to defer a portion of compensation which would have been received in the Plan year up to the maximum amount which will not cause the Plan to violate current tax laws. Effective January 1, 2010, a participant may elect to have all or a portion of their deferral to be Roth elective deferrals when contributed to the Plan. The Roth elective deferrals are included in the participant's gross income at the time deferred and must be irrevocably designed as Roth elective deferrals by the participant in the Deferral Election Agreement. Participant's who have attained age 50, before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amount representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan Sponsor makes a safe harbor contribution of 3.5% of participant compensation to the Plan. Additional profit sharing amounts may be contributed at the option of the Plan Sponsor's board of directors.

Participant accounts

Each participant's account is credited with the participant's contribution and an allocation of the (a) the Plan Sponsor's contribution, (b) Plan earnings (losses), and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in the participant and employer cumulative contribution balances.

Loans receivable from participants

The Plan Sponsor may make plan loans to participants or beneficiaries under the following circumstances: (1) loans shall be made available to participants and beneficiaries on a reasonably equivalent basis; (2) loans shall not be made available to highly compensated employees in an amount greater that the amount that is made available to other participants and beneficiaries; (3) loans shall bear a reasonable

rate of interest; (4) loans shall be adequately secured; and (5) loans shall provide for periodic repayment up to five to ten years depending on the loan type. Furthermore no Plan loan shall exceed fifty percent of account balance of a participant's vested interest in the Plan

Payment of benefits
On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in certain monthly, quarterly, semi-annual or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Hardship withdrawals from a participant's deferral contribution accounts are permitted when applicable criteria are met.

Forfeited accounts
At December 31, 2012 and 2011, there are no forfeited participant accounts.

2. Summary of significant accounting policies:

Management's review
Subsequent events were evaluated through the date of the accompanying independent auditor's report, which is the date the financial statements were available to be issued. No material subsequent events were required to be recorded or disclosed.

Basis of accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

Investments contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Accounting policy: Fair Value Measurement
In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, fair value is defined as a market-based measurement, not an entity-specific measurement. The objective of a fair value measurement is to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants of the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the assets or owes the liability). A fair value measurement assumes that the transaction to sell the asset or transfer the liability either occurs in the principal market (or in its absence, the most advantageous market) for the asset or liability.

2. Summary of significant accounting policies: (continued)

Accounting policy: Fair Value Measurement: (continued)
For some assets and liabilities, observable market transactions or market information may be available. For other assets and liabilities, observable market transactions and market information might not be available. When a price for an identical asset or liability is not observable, a reporting entity measures fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. Because fair value is a market-based measurement, it is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk. As a result, a reporting entity's intention to hold an asset or settle or otherwise fulfill a liability is not relevant when measuring fair value.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition
The Plan's collective investment fund is stated at fair value and the Plan's mutual funds are value at the net asset value of shares held by the Plan at year end. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation included the plan's gains and losses on investments bought and sold as well as held during the year.

Loans receivable from participants
Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits
Benefits are recorded when paid.

Administrative expenses
Certain expenses incurred for the administration of the Plan are paid directly by the Plan Sponsor.

3. Investments:

The following table presents investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets.

	2012	2011
Investments at fair value as determined by quoted market price:		
American Fund EuroPacific Growth R	$ 290,826	$ 291,223
American Growth Fund of America R	-	412,552

4. Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820 Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value focuses on the price that would be received to sell the asset or paid to transfer the liability regardless of whether an observable liquid market price existed (an exit price). An exit price valuation will include margins for risk even if they are not observable. As the Plan is released from risk, the margins for risk will also be released through net realized capital gains (losses) in net income. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

4. Fair Value Measurements: (continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the inputs must be observable for substantially to the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 assets and liabilities measured at fair value are based on one or more of three valuation techniques:

- Market approach - prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- Cost approach - Amount that would be required to replace the service capacity of an asset (i.e., replacement cost);
- Income approach: Techniques that convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing models, and lattice models).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Investment contracts: Investment contracts can be structured as nonparticipating, participating or a combination thereof. Conventional Guaranteed Investment Contracts (GICs) issued by insurance companies are primarily nonparticipating, wherein the contract holder does not participate in any gains and losses incurred due to performance of the underlying portfolio relative to the book value at times of withdrawals. Conversely, synthetic investment contracts, or wrap contracts, issued by insurance companies or banks, are primarily participating, wherein the contract holder participates in gains and losses incurred due to the performance of the underlying portfolio relative to book value at times of withdrawals. Gains and losses are amortized through future crediting rate resets. Certain synthetic investment contracts have underlying investment which are sub-advised by managers affiliated with the synthetic issuers.

4. Fair Value Measurements: (continued)

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possibly that changes in the values of investment securities will occur in the near term and such changes could materially affect the Plan's investments and the amounts reported in the statement of financial position.

The credit and liquidity crisis in the United States and throughout the global financial systems has resulted in substantial volatility in financial markets and the banking system. These and other economic events could cause significant volatility to the Plan's investment portfolio subsequent to year-end.

Management reviews for other than temporary decline in accordance with the requirements of fair value measurements. The Plan's investments in mutual funds consist primarily of investments in exchange-traded debt and equity securities.

Within the fund balance certain individual investments may have fair values measured below cost. The severity of any impairment and the duration of any impairment correlate with current market conditions. Based upon the near-term prospects of the issuer of any of those securities in relation to the severity and duration of the impairment, and based upon the Plan's ability and intent to hold those investments for a reasonable period of time sufficient for a forecasted recovery of fair value, the Plan does not consider those investment to be other-than-temporary impaired at December 31, 2012.

The following mutual funds are carried at fair value in the Plan's financial statements. These fair value disclosures include information regarding the valuation of the Plan's investments.

Total	$4,535,552	$ 889,001	$ -

5. Investment contracts:

The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year end. These are reflected in Level 2.

Individual assets of the synthetic investment contracts include domestic and foreign securities and investments in investment companies or collective investment trusts. When available, the fair value of securities is based on quoted prices of identical assets in active markets. When quoted prices are not available, the first priority is to obtain prices form third party pricing methodologies and to confirm they are utilizing observable market information. Their methodologies vary by asset class and include inputs such as estimated cash flows, benchmark yields, reported trades, broker quotes, credit quality, industry events and economic events. These are generally reflected in Level 2. The net asset value of investment companies and collective investment trusts represents the price at which the fund believes it would be able to initiate a transaction. These investments are not exchange traded and are reflected in Level 2.

6. Plan termination:

Although it has not expressed any intent to do so, the Plan Sponsor shall have the right at any time to terminate the Plan by delivering to the Trustee and Administrator written notice of such termination. Upon any full or partial termination, all amounts credited to the affected Participants' accounts shall become 100% vested in their accounts and shall not thereafter be subject to forfeiture.

7. Tax status:

The Internal Revenue Service has determined and informed the Company by letter dated July, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

7. Tax status: (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2009.

During the years 2012 and 2011, the Plan has not recognized penalties and interest on tax deficiencies. Management believes that any penalties or interest assessed would be absorbed by reserves. If income tax deficiencies were incurred they would be recorded under generally accepted accounting principles (GAAP) for uncertainties in income taxes and recognized as interest expense in the first period the relevant tax law requires interest accrual. Similarly for expected deficiencies recorded under (GAAP) for uncertainties in income taxes that are subject to penalties would be recognized as an expense of the statutory penalty in the period in which the entity claims or expects the position in the return.

8. Risks and uncertainties:

The Plan invests in various investments (Note 3). These investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

9. Reconciliation of financial statements to Schedule H of Form 5500:

The financial statements and Schedule H of Form 5500 are prepared using the current values as of December 31, 2012. There are no reconciling differences between either net assets available for benefits or benefits paid to participants, as reported herein, to Schedule H of Form 5500 for the year 2012.

10. Non-employee participant balances:

As of December 31, 2012, the Plan has 30 participants with accounts amounting to $41,245, who are no longer employed by Chicago Dryer Company and not contributing to the Plan.

11. Plan amendments:

There were no amendments made to the Plan for the year ended December 31, 2012. Effective January 1, 2010 provisions were made to adopt a non-elective formula for the safe harbor contributions. Also effective December 1, 2010, the Plan was amended to permit participants to rollover part or all of a Non-Roth account to a Roth account in the Plan. This is an In-plan Roth contribution.

12. Recent accounting pronouncements:

In May, 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. The provisions on ASU 2011-04 are generally applicable in calendar year 2012 and will impact private investment funds most significantly in the following areas:

- Increased disclosure requirements related to fair value measurements
- Application of premiums and discounts in fair value measurements
