Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Famous Tate Electric Company 401(k) Savings and Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Hartford Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held for investment purposes, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FAMOUS TATE ELECTRIC COMPANY
401(K) SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

Note 1 – Description of Plan

The following description of the Famous Tate Electric Company (Company) 401(k) Savings and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees with three months of service who are at least 21 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year the Company may match a percentage of employee contributions up to 6% of the employee's wages. Additionally, the Company may contribute a percentage of employees' wages to eligible participants as a profit-sharing contribution. Participants may contribute up to 100% of their annual compensation, up to statutory limits. The Company makes contributions to the Plan throughout the year. Amounts withheld on behalf of participants are paid into the Plan as soon as practical, but no less often than once per month.

Participant Accounts – Each participant account is credited with the participant's contributions and withdrawals, and allocation of the Company's contributions and Plan earnings and expenses. Plan earnings and expenses are allocated pro rata within each investment on a daily basis based on the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 9.25% for loans outstanding at December 31, 2012 and 2011. Principal and interest are paid monthly through payroll deductions, and the loans become due through 2017. The loans are reported at their unpaid principal balances plus any accrued but unpaid interest.

Vesting and Forfeitures – Participants are immediately vested in their voluntary contributions and allocated earnings and expenses thereon. Vesting in employer contributions is based on years of credited service. A participant is 20% vested after one year of credited service, and an additional 20% vested for each additional year of service until fully vested after five years. Unvested forfeitures of withdrawn participants may be used to offset subsequent employer contributions.

Payment of Benefits – Distributions are available upon death, disability, retirement, termination of employment, or financial hardship, subject to certain restrictions and limitations. Distributions are payable in lump sum or installment payments. If a participant's vested benefit in the Plan does not exceed $5,000, then the benefit must be distributed in a single lump sum payment as soon as administratively feasible.

Note 2 – Date of Management's Review

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through August 16, 2013, the date the financial statements were available to be issued.

Note 3 – Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are presented on the accrual basis of accounting. Benefits are recorded as distributions to participants when paid.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Operating Expenses – Substantially all costs associated with maintaining the Plan are paid by the Company, including professional fees and insurance.

Note 4 – Fair Value Measurements

FASB *Accounting Standards Codification 820, Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.
Level 3	Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts: Investments in pooled separate accounts are represented by a "unit of account" and per unit values whose value is the result of the accumulated values of the underlying investments. These underlying investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the mutual fund investments. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The Pooled Separate Account fair values are classified within level 2 of the valuation hierarchy.

Note 4 – Fair Value Measurements – continued

Guaranteed Interest Contract (GIC): These investments are made by the Plan in an unallocated contract which is invested in the Hartford Fixed Account. The GIC fair value is measured based on the fair values of the underlying assets which primarily consist of investment grade fixed income securities. The GIC guarantees a fixed interest rate (see Note 7). The investment contract is classified within level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Level 1	Level 2	Level 3	Total

Note 4 – Fair Value Measurements – continued

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2012 and 2011:

	2012 GIC	2011 GIC
Balance at beginning of year	$2,445,277	$2,756,030

Sales	(209,057)	(775,854)
Balance at end of year	$2,740,234	$2,445,277

The Plan's investment in pooled separate accounts has no restrictions on the net asset value per share or its equivalent. There are no known or anticipated redemptions, no unfunded commitments, and no notice is required to sell the shares/units at any given time.

Note 5 – Data Certified by Trustee

For 2012 and 2011, substantially all of the Plan's investments were held by Hartford Life Insurance Company. The plan administrator has elected the method of compliance permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the plan administrator instructed the independent certified public accountants not to perform any auditing procedures with respect to information certified by the trustee, except for comparing certified information to information included in the financial statements. The following reconciles the certified information to the investment accounts:

	2012	2011
Investment accounts		
Certified by trustee	$5,292,678	$4,644,226
Adjustment from contract value to fair value for fully benefit-responsive investment contract	64,486	(5,676)

Hartford Fixed Account	2,450,953
Oppenheimer Gold and Spec Min A	271,282
Pimco Real Return A	361,592

Note 7 – Investment Contract with Insurance Company

For 2012 and 2011, the Plan entered into a benefit-responsive investment contract with Hartford Life Insurance Company (Hartford). Hartford maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan, subject to the limitations described below.

As described in Note 3, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Hartford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 7 – Investment Contract with Insurance Company – continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011, was $2,740,234 and $2,445,277, respectively. The crediting interest rate is discretionary to Hartford and the method used to determine the rate may be changed at any time. Such interest rates are reviewed on a quarterly basis for resetting. The guaranteed interest contract does not allow the crediting interest rate to be less than 3.00%.

Certain events limit the Plan's ability to transact at contract value with Hartford. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occuring.

The guaranteed interest contract does not permit the insurance company to terminate the agreement unless the Plan is not in compliance with the investment agreement.

Note 8 – Forfeited Accounts

The Plan’s forfeited nonvested accounts totaled $5,837 and $5,478 at December 31, 2012 and 2011, respectively. These accounts may be used to reduce future employer contributions. During 2012, none of the 2012 employer contributions were paid from the forfeited nonvested accounts. During 2011, $8,651 of the 2011 employer contributions were paid from the forfeited nonvested accounts.

Note 9 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 10 – Party-in-Interest Transactions

Plan investments are issued by Hartford Life Insurance Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Administrative fees related to these investments paid by the Plan totaled $575 and $950 for the years ended December 31, 2012 and 2011, respectively.

Note 11 – Income Tax Status

The Plan did not obtain a Plan specific determination letter as it is operating under a volume submitter plan document. The Internal Revenue Service has advised that the volume submitter plan is acceptable under Section 401(a) of the Internal Revenue Code. Therefore, the Plan is exempt from federal income tax under Section 501(a). The Plan has been amended since the advisory letter date. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements. Income tax returns for 2009-2012 remain subject to examination by the Internal Revenue Service.

Contributions received from participants for 2012 and 2011 are net of payments of $561 and $2,988, respectively, required to be made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The Plan's statements of net assets available for benefits includes excess contributions payable at December 31, 2012 and 2011.

Note 12 – Form 5500 Reconciliation

Form 5500, Schedule H, Financial Information, may be reconciled to these financial statements as follows:

	2012 Net Assets Available for Benefits	2012 Changes in Net Assets Available for Benefits	2011 Net Assets Available for Benefits	2011 Changes in Net Assets Available for Benefits
Per Form 5500, Schedule H	$5,554,373	$ 676,294	$4,878,079	$ (826,528)
Reconciling item				
Excess contributions payable	(1,104)	(1,104)	(5,630)	(5,630)

Per financial statements	$5,553,269	$ 680,820	$4,872,449	$ (822,744)

Note 13 – Risks and Uncertainties

The Plan provides for investments in various securities. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
