(1) DESCRIPTION OF THE PLAN:

The Network Services Company Profit Sharing 401(K) Plan (the Plan) is a defined contribution Plan established on January 1, 1984, and maintained for the benefit of eligible employees of Network Associates, Inc. and Subsidiaries (Network Services Company, National Paper and Plastics Company, and Cleanwise LLC) (the Company).

The Plan was amended in 2011 to allow for changes in the investment options offered to Plan participants. The latest amendment, dated December 1, 2011, reflects statutory changes pursuant to the Small Business Jobs Act of 2010. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. General provisions of the Plan include the following:

Trustee –

Fidelity Management Trust Company (Fidelity) serves as Trustee of the Plan.

Eligibility –

Employees of the Company become eligible to participate in the Plan the first day of the month following employment. Employees must be twenty-one years of age as of the enrollment date in order to be eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions –

Each year, participants may contribute up to 60 percent of their compensation, as defined in the Plan, on a pretax or on an after tax basis if choosing a Roth 401(K). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participant contributions may not exceed certain amounts defined by statute.

The Plan provides for a non-discretionary employer matching contribution on behalf of each participant in an amount equal to 50 percent of the participant's contribution. Non-discretionary matching contributions are subject to a maximum of the lesser of six percent of the participant's eligible compensation contributed to the Plan or $3,000.

At the end of each Plan year, the Company may, out of its current or accumulated profits, contribute to the Plan a discretionary profit sharing contribution in an amount authorized by the Board of Directors. Company discretionary contributions to the Plan were $709,402 and $641,472 in 2012 and 2011, respectively.

Participant Accounts –

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, Company contributions, allocation of investment earnings or losses, and forfeitures of terminated participants' non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options –

Participants may allocate their contributions (in multiples of one percent) and those of the Company among multiple mutual funds and a common/collective trust fund (the Fidelity Managed Income Portfolio). Employees may change their contribution allocation between investment options for future contributions and transfer prior contributions and associated earnings between investment options subject to certain restrictions set forth in the Plan. The Plan currently offers 30 mutual funds and one common/collective trust as investment options for participants.

Vesting –

Participants are always 100 percent vested in their employee pretax account, rollover account, Roth 401(K) after tax deferral account, and any earnings thereon. Vesting in employer matching contributions is on a graduated scale and participants will not be fully vested until the completion of six years of service.

Vesting in the employer discretionary profit sharing contributions is on a graduated scale and participants will not be fully vested until the completion of six years of service for contributions beginning on or after January 1, 2007, and seven years of service for contributions prior to January 1, 2007.

Forfeitures –

Forfeitures of employer contributions will be used to reduce future employer contributions. Forfeitures of employer contributions of $59,756 and $63,163 were held by the Plan as of December 31, 2012 and 2011, respectively.

Administrative Expenses –

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

Notes Receivable from Participants –

Participants may borrow, but not less than $1,000, from their self-directed investment accounts. The maximum aggregate of each participant's outstanding loans cannot exceed the lesser of $50,000 or 50 percent of the participant's vested account balance. No participant may have more than one loan outstanding at any time. Participant loans are secured by the balance in the participant's self-directed investment account and bear a fixed interest rate determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Interest rates range from 3.75 percent to 8.75 percent on participant loans outstanding at December 31, 2012. Principal and interest is paid ratably through biweekly payroll deductions in terms generally ranging from five to ten years.

Payment of Benefits –

Upon termination, retirement, death or disability, a participant's benefit is equal to the value of the participant's vested account and is payable at the election of the participant. Hardship withdrawals are also allowed as permitted under the Internal Revenue Code subject to certain restrictions as defined in the Plan agreement.

Rollover Contributions –

With the Company's consent, an eligible employee may make one or more rollover contributions to the Plan if the employee demonstrates to the Company's satisfaction that the contribution qualifies as a rollover contribution in accordance with the Internal Revenue Code.

(2) SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting –

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Use of Estimates –

The preparation of financial statements, in accordance with accounting principles generally accepted in the United States of America, requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Income Recognition and Investment Valuation –

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investments, other than the Fidelity Managed Income Portfolio, are stated at fair value based upon quoted market prices on the last day of the year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. During 2012 and 2011, the Plan invested in fully benefit-responsive investment contracts through a common/collective trust, Fidelity Managed Income Portfolio (MIP). The Fidelity MIP invests in guaranteed investment contracts (GICs) and synthetic GICs. The GICs and synthetic GICs are fully benefit-responsive investment contracts issued by banks, insurance companies and other issuers. As required by accounting principles generally accepted in the United States of America, an adjustment is made to reflect this investment at contract value, which represents cost plus accrued income less redemptions.

Notes Receivable From Participants –

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses –

Substantially all administrative expenses of the Plan are paid by the Company. Certain loan fees are paid by the participants.

Subsequent Events –

The Company has evaluated subsequent events through July 19, 2013, the date which the financial statements were available to be issued.

(3) PARTY-IN-INTEREST TRANSACTIONS:

Certain portions of the Plan's investments are shares of collective and mutual funds managed by the Trustee. Therefore, these transactions qualify as exempt party-in-interest transactions.

(4) INVESTMENTS:

Investments that represent five percent or more of the Plan's net assets are as follows at December 31:

	2012	2011
Money market funds:		
Fidelity Retirement Money Market Portfolio	1,727,358	1,816,908
Large cap stock funds:

* The fair value of this fully benefit-responsive investment totaled $1,695,213 and $1,546,089 at December 31, 2012 and 2011, respectively.

*** Represents less than five percent of the Plan's net assets at December 31.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows at December 31:

	2012	2011
Money market accounts	$ 160	$ 108
Mutual funds	1,574,093	(230,485)
Common/collective trust fund	20,618	21,795
Total	$ 1,594,871	$ (208,582)

Risks and Uncertainties –

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and participant account balances.

(5) SUMMARY OF INFORMATION CERTIFIED BY THE TRUSTEE:

The December 31, 2012 and 2011 Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The table below summarizes the information that has been prepared and certified to as complete and accurate by the Trustee as of December 31:

	2012	2011
Investments, at fair value -		
Money market accounts	$ 1,727,358	$ 1,816,908
Mutual funds	12,800,446	10,852,787
Common/collective trust fund	1,695,213	1,546,089
Adjustment from fair value to contract value	(48,513)	(38,134)
Notes receivable from participants	325,144	276,305
Total assets certified by the Trustee	$ 16,499,648	$ 14,453,955
Investment income -		
Net appreciation (depreciation) in value of investments	$ 1,202,832	$ (539,930)
Interest and dividends	392,039	331,348
Interest on notes receivable from participants	10,835	10,971
Total investment income (loss) certified by the Trustee	$ 1,605,706	$ (197,611)

(6) PLAN TERMINATION:

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

(7) TAX STATUS:

The Plan has adopted a prototype plan sponsored by Fidelity Management and Research Co. Fidelity Management and Research Co. requested that the Internal Revenue Service provide an opinion related to the acceptability of the prototype plan under Section 401 of the Internal Revenue Code and received a favorable opinion dated March 31, 2008. The Plan Administrator has not requested a determination letter from the Internal Revenue Service for the qualification of the Plan. The Plan has been amended since the receipt of the favorable opinion letter; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt for the years ended December 31, 2012 and 2011.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2012 and 2011:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust Fund: This fund consists of the Fidelity MIP. The fair value of fully benefit-responsive investment contracts included in the Fidelity MIP is calculated using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2012

(9) INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has a fully benefit-responsive investment contract with Fidelity. Fidelity maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code, (2) the establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification of the Portfolio or the administration of the Portfolio that is not consented to by the wrap issuer, (4) any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the Portfolio's cash flow, (5) any communication given to unitholders by the Plan Sponsor, any other Plan Fiduciary or Trustee that is designed to induce or influence unitholders not to invest in the Portfolio or to transfer assets out of the Portfolio, and (6) any transfer of assets from the Portfolio directly to a competing investment option.

The Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. Fidelity may not terminate the contract at any amount less than contract value.

Fidelity is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero percent. Such interest rates are reviewed on a monthly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2012	2011
Average yields:		
Based on earnings (1)	1.86%	1.35%
Based on interest rate credited to participants (2)	1.22%	2.05%

(1) Computed by dividing the annualized one-day income of the underlying investments at period end by the fair value of investments and wrap contracts at period end.

(2) Computed by dividing the annualized one-day income from wrap contracts credited to participants at period end, net of expenses, by the fair value of investments and wrap contracts at period end.

The Fidelity MIP, which invests in these investment contracts, reports on a September 30 year end. Therefore, the above yields are as of September 30, the investment's financial statement date.

(10) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of the net assets available for benefits and the change in net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2012	2011
Net assets available for benefits per the financial statements	$ 17,209,050	$ 15,095,427
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	48,513	38,134
Net assets available for benefits per Form 5500	$ 17,257,563	$ 15,133,561
Change in net assets available for benefits per the financial statements	$ 2,113,623	$ 231,510
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	10,379	23,909
Net gain per Form 5500	$ 2,124,002	$ 255,419

As described in Note 2, the fully benefit-responsive investment contracts are required to be valued at the contract value on the Statements of Net Assets Available for Benefits, whereas the Form 5500 requires all investments to be valued at fair value.
