Ironworks Consulting 401(k) Plan

Notes to Financial Statements

1. Summary of Significant Accounting Policies

Description of the Plan General

The following description of Ironworks Consulting 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. It is subject to the provisions of the Employees' Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan covering substantially all full time employees of Ironworks Consulting, (the Company), who have completed 90 days of service and are age twenty-one or older.

Plan Termination

Ironworks Consulting, the Plan sponsor, was acquired and became a wholly owned subsidiary of ICF International, Inc. on December 31, 2011. Plan participants became fully vested in their accounts as of December 31, 2011 as a result of the acquisition.

The Ironworks Consulting 401(k) plan terminated as of December 31, 2012. All plan assets were transferred to Vanguard prior to termination.

Eligibility

All full-time and part-time employees of the Company who are 21 years old and who have completed 90 days of service are eligible to participate on the first day of the month following the 90 day service requirement. Employees are eligible for employer matching contributions upon entry into the Plan. Participation in the Plan is at the election of the employee.

Contributions

Each year, participants may contribute up to 100 percent of pre-tax annual compensation, as defined in the Plan, not to exceed dollar limits set by law. The Company will match a portion of the pre-tax contributions. The Company will contribute an amount equal to 50% of pre-tax contributions up to \$2,000 of the participant's contribution. Participants may also contribute after-tax Roth contributions.

Participants may also rollover amounts representing distributions from other qualified plans.

Participant Accounts

Each participant's account is credited with the participant's contribution, employer match, allocations of plan earnings, and charged with an allocation of administrative expenses, where applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various mutual fund options offered by the Plan.

Ironworks Consulting 401(k) Plan

Notes to Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Description of the Plan General (continued)

Vesting

Participants are vested immediately in their accounts plus actual earnings thereon. Vesting in the Company's matching contribution is based on continuous service. A participant is 100% vested after 3 years of credited service based on 33% vesting each of the three years, however as a result of the purchase of Ironworks by ICF International, Inc. on December 31, 2011, all participants became fully vested in their accounts as of December 31, 2011.

Forfeitures

Forfeitures represent the non-vested portion of the participant's account plus earnings thereon that are not fully distributable to participants who terminate employment before they are 100% vested. Forfeitures may be used to pay administrative expenses of the Plan, or to reduce future employer matching contribution expense to the Plan, or to fund a qualified non-elective contribution.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The notes receivable are carried at amortized cost and are secured by the balance in the participant's account and bear interest at rates which are equal to the prime rate plus 1%. Principal and interest are paid ratably through payroll deductions over a period of not more than five years. However, loans used to purchase a principal residence may be repaid over a period not to exceed fifteen years.

Payment of Benefits

On termination of service a participant may receive an amount equal to the value of their vested account. The Plan also allows for in-service withdrawals and hardship withdrawals as defined by the Plan Document. Benefits are recorded when paid.

Administrative Expenses

Expenses incurred in the administration of the Plan that are not paid by the Company are charged to and paid from the Plan's assets.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Ironworks Consulting 401(k) Plan

Notes to Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as determined by quoted market price. Shares of registered investment companies ("mutual funds") are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date.

2. Fair Value Measurements Investment Valuation and Income Recognition

FASB Accounting Standards Codification ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities; |
| Level 2 | Quoted prices for identical or similar assets in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly; |
| Level 3 | Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable. |

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Mutual funds represent investments with various investment managers. The respective fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value which is a quoted price in an active market as of December 31, 2012 and 2011. Target funds are classified as level 2 as they could be considered to not be actively traded.

Ironworks Consulting 401(k) Plan

Notes to Financial Statements (continued)

2. Fair Value Measurements Investment Valuation and Income Recognition (continued)

The following tables set forth, by level within the fair value hierarchy, all Plan investments assets at fair value.

Investment Assets at Fair Value as of December 31, 2011				
	Level 1	Level 2	Level 3	Total
Assets				
Mutual Funds				
Target	\$ —	\$1,833,359	\$ —	\$1,833,359
Small-Mid Cap	691,421	—	—	691,421
Large Cap	5,766,426	—	—	5,766,426
Money Market	573,392	—	—	573,392
Total assets at fair value	\$7,031,239	\$1,833,359	\$ —	\$8,864,598

3. Recently Issued Accounting Standards

In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (Topic 820) – Fair Value Measurement* (ASU 2011-04), to provide a consistent definition of fair value and ensure that the fair value measurements and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 is effective for plans prospectively for the year ending December 31, 2012. While the provisions of ASU 2011-04 may increase the Plan's fair value disclosures, the Plan does not expect the adoption of ASU 2011-04 to have a material effect on the Plan financial statements.

4. Subsequent Events

Plan Management evaluates events that have occurred subsequent to the financial statement date for required potential recognition and disclosure if necessary. Subsequent events were considered through August 12, 2013, the date the financial statements were available for issue.

6. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee, Capital Bank and Trust Company, has certified that the following data included in the accompanying financial statements and the supplemental schedule of assets held at end of year is complete and accurate.

- Investments as shown in Note 2 and the statements of net assets available for plan benefits as of December 31, 2012 and 2011.
- Investment income as shown in the statement of changes in net assets available for plan benefits for the year ended December 31, 2012.

The Plan's auditor did not perform auditing procedures on the certified information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

7. Tax Status

The Plan is a non-standardized prototype and has received an opinion letter from the IRS dated January 1, 2006, stating that the Plan is qualified under Section 401(a) of the Code, and therefore, the related Trust is exempt from taxation. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Ironworks Consulting 401(k) Plan

Notes to Financial Statements (continued)

7. Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Risks and Uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

9. Party-in-Interest Transactions

Plan investments are funds managed by Capital Bank and Trust. Capital Bank and Trust is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Administrative and investment fees paid by the Plan to Capital Bank and Trust were \$150 for 2012. During 2012 and 2011, the Plan issued loans to participants, which qualify as party-in-interest transactions.
