Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note B, which was certified by the Standard Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended March 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Assets (Held at End of Year), which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES

General

The following description of the INTERVENTION INC. 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

The Plan is a defined contribution plan covering employees of INTERVENTION INC. (the "Company"). Employees are eligible to become a participant of the Plan when the employee first meets the requirements of six months of service and attainment of 21 years of age. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Tax Status

The Plan obtained its latest determination letter on May 10, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan's open tax years subject to examination by taxing authorities include the years ended March 31, 2012, 2011, and 2010.

Participants' Accounts

Each participant's account is credited with the participant's contribution and an allocation of

- The Company's matching and discretionary contributions, and
- Plan earnings and losses.

Investments

The Plan's investments in mutual funds are stated at fair value. The funds are valued on a daily basis based upon the quoted market prices of the mutual funds. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis, which approximates the accrual basis. Dividends are recorded on the ex-dividend date. Notes receivable to participants are value at cost, which approximates fair value. Investments representing 5% or more of assets are separately identified on the statements of net assets available for plan benefits.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions

Participants may elect to make salary deferral contributions of up to 75% of their compensation, subject to certain Internal Revenue Service limitations. Participants may change their elective deferral percentages quarterly. The Company made matching contributions of 100% of the participant's elective deferral amounts up to 6% and 7.5% of compensation for the years ended March 31, 2013 and 2012, respectively. The Company may also make discretionary contributions. The Company did not make any discretionary contributions for the years ended March 31, 2013 and 2012.

Vesting

Participants are immediately vested in their salary reduction contributions plus actual earnings thereon. Company matching contributions are 100% vested upon entering the Plan.

Forfeiture Provisions

Forfeitures of employee contributions are used to reduce future employer contributions. There were no forfeiture balances of employee contributions at March 31, 2013 and 2012.

Payment of Benefits

At termination of service, as defined by the Plan, the participant receives 100 percent of his or her deferral account and earnings plus the vested portion of their account. A participant may receive the value of his or her account as a lump sum payment, as installment payments over a specified period of time (annually, quarterly or monthly), not exceeding the participants' life expectancy or joint life expectancy with their designated beneficiary, or as part lump sum and part installment payments. The vested account balances of terminated participants amounted to $238,100 and $190,767 as of March 31, 2013 and 2012.

Plan Termination

Although it does not intend to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Notes Receivable, Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Participants may borrow from their fund any amount up to a maximum equal to the lesser of $50,000 less the highest outstanding loan amount during the prior 12 months or 50% of the non-forfeitable account balance. Loan terms range from 1 to 5 years. Principal and interest is paid ratably through payroll deductions at least quarterly.

B. TRUSTEE AND ADMINISTRATIVE SERVICES

The Company pays the Plan's trustee and accounting fees. Administrative fees paid by the Company on behalf of the Plan were $13,138 and $11,123 during the years ended March 31, 2013 and 2012, respectively. These fees are not reflected in the accompanying financial statements.

The Standard serves as the trustee whereby its services included executing participants' investment transactions and the payment of benefits. The Standard provided 2013 and 2012 fund summaries by investment type, which were used to prepare the Plan's financial statements. These fund summaries were certified by the trustee as being complete and accurate. The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee for the years ended March 31:

	2013	2012
Mutual funds, at fair value	$2,687,206	$2,270,900
Notes receivable, participants	$102,291	$50,064
Appreciation in fair value of investments	$185,083	$62,638
Interest and dividends	$2,059	$1,556

C. RISKS AND UNCERTANTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Financial Accounting Standards Board Statement No. 820, *Fair Value Measurements* (FASB 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Assets and Liabilities Measured at Fair Value on a Recurring Basis (Continued)
The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at March 31, 2013 and 2012.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Assets and Liabilities Measured at Fair Value on a Recurring Basis (Continued)
The following are the major categories of assets and liabilities measured at fair value on a recurring basis as of March 31, 2013:

Description	Level 1: Quoted prices in active markets	Level 2: Internal models with significant observable market parameters	Level 3: Internal models with significant unobservable market parameters	Total at March 31, 2013
Mutual funds	$ 2,687,206	$ -	$ -	$ 2,687,206
Total	$ 2,687,206	$ -	$ -	$ 2,687,206

The following are the major categories of assets and liabilities measured at fair value on a recurring basis as of March 31, 2012:

Description	Level 1: Quoted prices in active markets	Level 2: Internal models with significant observable market parameters	Level 3: Internal models with significant unobservable market parameters	Total at March 31, 2012
Mutual funds	$ 2,270,900	$ -	$ -	$ 2,270,900
Total	$ 2,270,900	$ -	$ -	$ 2,270,900

The carrying value of short-term receivables and payables approximate their fair value as of March 31, 2013 and 2012.
