International Intimates Inc. Retirement Plan
Notes to Financial Statements

1. Description of Plan:

The following description of the International Intimates Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a qualified defined contribution plan covering all eligible employees of International Intimates Inc. (the "Company", "Employer" or "Plan Sponsor"), which was amended and restated effective January 7, 2003 (the "Amendment"), under which participants may elect to make pre-tax contributions under Section 401(k) of the Internal Revenue Code. The Employer contracts with a trustee for investing, safekeeping and accounting of the Plan's assets and valuation of the individual participant's accounts. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA")

Eligibility

Employees who have attained the age of eighteen with six months of service are eligible to participate in the Plan. Prior to the Amendment, an employee was eligible for participation when they had attained the age of twenty one, with one year of service defined as at least 1,000 hours of service during a period of 12 consecutive months.

Plan Management

The Company, who is the Plan administrator, is empowered to appoint or remove the trustees, establish the Plan's funding policy and method, make contributions and amend or terminate the Plan.

Contributions

Participants are permitted to make pre-tax contributions equal to 15% of remunerations, subject to IRS limitations. The Company makes a matching contribution equal to 25% of each participant's contribution, such contributions being limited to 4% of the employee's remunerations. The Company may make additional contributions to the Plan at its discretion.

Participant Accounts

Participant accounts are credited with participant contributions; the Company's matching contribution, investments earnings and a pro-rata allocation of the Company contributions based upon employee remunerations.

Vesting

Vesting is based on the years of continuous service and whether the Plan has been top-heavy in the Plan year. Participants are immediately vested 100% in their voluntary contributions plus actual earnings thereon. The Plan was not subject to the top-heavy regulations for the years ended December 31, 2012 and 2011. Participants commence vesting in all employer contributions in accordance with the following schedule.

Years of Service	Vested Interest (Top-Heavy)	
1	0%	0%
2	0%	20%
3	20%	40%
4	40%	60%
5	60%	80%
6	80%	100%
7	100%	100%

Participants become fully vested upon the attaining their normal retirement age or in the event of death or total and permanent disability.

Plan Expenses

All Plan administrative expenses may be paid out of the Trust Fund unless paid by the Company. Administrative expenses of approximately $7,500 were paid by the Company for the Plan for the years ended December 31, 2012 and 2011.

Payment of Benefits

On termination of services due to death, disability or retirement, a participant may elect to receive either a lump sum distribution equal to the value of the participant's vested interest in his or her account or annual installments of at least $1,000 payable for a specified number of years. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or annual installments. However, if the vested interest does not exceed $3,500, the administrator may direct that a single lump sum distribution be paid to the participant immediately following the date on which services terminated.

Forfeitures

Participants who terminate employment, but have not become fully vested, must forfeit the unvested balance in their account. Forfeited amounts will be used first to pay any administrative expenses of the plan, and then to reduce the Company's contribution for the Plan year.

Participant Loans

A participant may request a withdrawal from his or her account in the form of a loan. The amount of the loan must be in excess of $1,000 and, when added to the outstanding balance of all other loans to the participant, shall not exceed the lesser of one half of the participants vested balance or $50,000, as adjusted by the Plan.

2. Summary of Significant Accounting Principles and Policies:

The Plan's financial statements have been prepared in conformity with generally accepted accounting principles. A summary of the significant accounting principles and policies used by the Plan are as follows:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition

The Plan invests participants' account balances at the direction of the participant in any mutual funds administered by the Principal Financial Group ("Principal"). These investments are valued at the net asset value reported by the fund managers. Fair values of the underlying investments are based upon the latest published market quotations. Participant loans are valued at cost, which approximates fair value.

Use of Estimates

The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments in stocks, bonds and money markets which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts in the statement of net assets available for plan benefits.

3. Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

	2012		2011	
Principal Bond & Mortgage	$1,161,825	10.4%	$ 967,555	10.7%
Principal Lifetime 2035 SEP Acct	973,370	8.7%	744,583	8.3%
Principal Lifetime 2025 SEP Acct	878,804	7.9%	697,284	7.7%
Principal Stable Value Fund	800,063	7.1%	577,517	6.4%
Principal Ptr Mid Cap Value I Separate	565,204	5.0%	194,330	2.2%
Principal US Property	563,091	5.0%	513,013	5.7%
	$4,942,357	44.2%	$3,694,282	41.0%

4. Information Certified by Custodian:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Security Act of 1974. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company, the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the plan's financial statements and supplemental statements.

- All investments reflected on the accompanying statements of assets available for plan benefits as of December 31, 2012 and 2011 and the supplemental Schedule H, Line 4i – Schedule of Assets Held for Investment Purposes, as of December 31, 2012 except for receivables;

- The following investment income (loss) certified by the custodian for the year ended December 31, 2012:

Dividends and interest	$ 17,834
Net depreciation of fair value	1,141,078
Administrative fees	(14,244)
	$1,144,668

5. Plan Termination:

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate its participation in the Plan, subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their account balance.

6. Fair Value

FASB statement No. 157, Fair Value Measurements, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in the active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar asses or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

These methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The investments of the Plan were valued utilizing level 1 methodologies. There have been no changes in the methodologies used at December 31, 2012 and 2011.

7. Tax Status:

The Plan has adopted a prototype plan sponsored by Principal Life Insurance Company. The Internal Revenue Service has determined and informed Principal Life Insurance Company by a letter dated March 31, 2008, that the prototype plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC.

8. Reconciliation of Financial Statement to Form 5500:

The following is a reconciliation of net assets available for benefits according to the financial statements to the Form 5500:
