RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011
(SEE INDEPENDENT AUDITORS' REPORT)

NOTE 1 DESCRIPTION OF PLAN:

The following description of the Trident Precision Manufacturing, Inc. Retirement Savings Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering employees 21 years or older who work 1,000 hours or more in the current year and have at least six months of employment with Trident Precision Manufacturing, Inc. Participants enter the plan on any January 1 or July 1 following the date they satisfy the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
After completing six months of service, all employees become eligible to make pretax contributions. All participants may make tax-deferred cash contributions of up to 100% of total compensation subject to applicable limits of the Internal Revenue Code. Compensation as defined in the plan excludes bonuses.

The Company contributes 1/4 of each employee's elected contribution up to 1 percent for each employee. The Company also may contribute a discretionary amount based on the company's current year's profits, which is proportionately allocated to each participant. For the years ended December 31, 2012 and 2011, no discretionary Company contribution was paid.

Participant Accounts
Each participant's account is credited with the participant's contribution and the company's matching contribution and allocation of (A) the company's discretionary contribution, (B) plan earnings, and (C) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting
Participants are immediately vested in their voluntary contributions as well as the Company's matching contribution plus actual earnings thereon. Participants are vested in Trident Precision Manufacturing, Inc. Profit-Sharing (discretionary) contribution according to a five-years-of-service vesting schedule.

NOTE 1 DESCRIPTION OF PLAN (continued):

Payment of Benefits

On termination of service, a participant may elect to receive either a lump sum amount equal to the value of his or her account, or periodic payments to be determined at the time of termination.

Investment Options

Upon enrollment in the plan, a participant may direct employee contributions in 5% increments in any of the following options. Participants may change their investment mix anytime during the year.

General Asset Fund Account

The Guaranteed Interest Account provides a guaranteed interest rate for a specified period of time as determined, or allowed, by the sponsor's retirement plan. The rate credited is the rate in effect on the day when each deposit is directed to the Account. To simplify reporting to plan participants, all rates credited during the 12-month "deposit year" are averaged into a single composite rate.

The guarantees made with regard to the Guaranteed Interest Account are supported by the General Account. The General Account is invested mostly in private placement bonds, commercial mortgages, and residential mortgages.

To comply with FASB ASC 962-325, the Plan provides financial information for Guaranteed Interest Accounts at fair market value. Guaranteed Interest Accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Thus, the Guaranteed Interest Accounts are not considered benefit responsive.

Pooled Separate Accounts

The value of each Separate Account is determined at the close of each business day based on market value. The value of the Account is expressed in 'units'. The 'unit value' is the dollar value of one unit and is determined at the close of each business day by dividing the value of the entire Account by the total number of units in the Account.

NOTE 1 DESCRIPTION OF PLAN (continued):

Contributions to the Account increase the number of units. Withdrawals from the Account decrease the number of units. The increase or decrease in number of units is determined by dividing the amount of the contribution or withdrawal by the unit value for the day the transaction is made. The value of the customer's account on any date is determined by multiplying the number of units held by the unit value at the close of the business day. Since these Accounts are separate accounts (not part of the General Account), realized and unrealized gains and losses from the assets in the Accounts are credited to or charged against the Account without regard to other income, gains or losses of the Principal.

Money Market Account
The Money Market Separate Account invests in high-quality, short-term securities. For the most part, the account lends money to companies that need short-term financing (commercial paper). The value of the investment changes daily based on interest and expenses.

Bond and Mortgage Account
The Bond and Mortgage Account invests primarily in intermediate-term, investment-grade, and fixed-income securities. These securities are mainly private-placement bonds and commercial mortgages. The value of the investment changes daily based on interest rates, movement in market values and expenses.

Bond Emphasis Balanced Account
The Bond Emphasis Balanced Separate Account invests in a cross section of other investment accounts offered by Principal Life. While emphasizing fixed-income investing, the account also holds positions in Principal Life's stock and real estate accounts.

Large Cap Stock Index Account
The Large Cap Stock Index Separate Account invests in 500 of the nation's largest companies—the same ones found in the Standard & Poor's 500 Stock Index (S&P 500). Like the S&P 500, the account is a barometer of the U.S. stock market. The value of the investment changes daily, based on dividends, movement in stock prices and expenses.

Large Company Blend Account
The Large Company Blend Separate Account invests in stocks of larger companies whose earnings and dividends are expected to be above average. The value of the investment changes daily, based on dividends, movement in stock prices and expenses.

NOTE 1 DESCRIPTION OF PLAN (continued):

Mid Cap Value Account
The Mid Cap Value Company Separate Account invests in stocks of medium-sized companies that fund management believes are undervalued and temporarily out of favor with investors. Undervalued means that the stock prices are low compared to various measures of what the company is worth. The value of the investment changes daily, based on dividends, movement in stock prices and expenses.

U.S. Property Account
The Real Estate Separate Account invests in developed, rent-producing commercial properties. The value of the investment changes daily based on net rental income, movement in property values and expenses.

Medium Company Blend Account
The Medium Company Blend Separate Account invests in stocks of medium-sized companies with relatively inexpensive stock prices and good earnings potential. The value of the investment changes daily based on dividends, movement in stock prices and expenses.

International Stock Account
The International Stock Account invests in stock of companies headquartered outside the United States, primarily in Europe and Asia. The value of the investment changes daily based on dividends, movement in stock prices, fluctuation in foreign currency exchange rates relative to the U.S. dollar, and expenses.

Mid Cap Stock Index Account
The account invests in stocks found in the 400 Mid Cap Stock index. Management of the fund seeks to earn a return comparable to the return of the 400 Mid Cap Stock Index.

Principal Financial Group Stock
The Plan received 4,054 shares of Principal Financial Group, Inc. common stock as a result of the adoption by the Board of Directors of a plan to change from a mutual insurance holding company to a stock company. In demutualization (IPO), membership interests of eligible policy holders and contract holders are exchanged compensation in the form of stock.

Mid Cap Growth III Account
The account seeks long term capital growth. The account invests over 80% in securities with medium market capitalization those with market capitalization similar to Russell Mid Cap Growth Index and Standard & Poor's Mid Cap 400 Index.

NOTE 1 DESCRIPTION OF PLAN (continued):

Principal Lifetime Strategic Income Fund/Principal Lifetime 2030 Fund/Principal Lifetime 2040 Fund/Principal Lifetime 2010 Fund/Principal Lifetime 2020 Fund/ Principal Lifetime 2050 Fund

These are six asset allocation portfolios that offer a distinct mix of stocks and bonds. Each portfolio allocation is based on an income approach for the Lifetime Strategic Income Fund and a stock bond mix for the Lifetime 2010, 2020, 2030 2040 and 2050 based on a retirement date in that decade.

Small Cap Stock Index Account
The Investment seeks long term growth of capital and normally invests in the majority of assets in common stocks of companies that compose the S&P Small Cap 600 Index. Management attempts to mirror the investment performance of the index by allocating assets in the approximately the same weightings as the S&P 600 index.

International Emerging Markets Account
The account seeks investments in companies located in countries with emerging markets. The fund invests in securities of companies who are located in emerging markets or whose sales of over 50% are to countries of emerging markets.

Large Cap Growth II Account
The Investment seeks long term growth of capital. The fund normally invests over 80% of assets with large market capitalizations similar to companies located on the Russell 1000 Growth Index.

Small Cap Value II Account
The investment seeks long term growth of capital. The fund invests in small U.S. companies whose market capitalizations typically are the lowest 10% of the domestic market.

American Century Equity Income Fund
The Investment seeks stocks with a favorable dividend history that show prospects for continuing or increasing dividends.

Pimco Total Return Funds
The investment seeks maximum total return, consistent with preservation of capital and prudent investment management with intermediate term investment grade bonds.

NOTE 1 DESCRIPTION OF PLAN (continued):

Columbia Small Cap Fund
The investment seeks long-term capital appreciation by investing in stocks of companies that have market capitalization similar in size to those companies in the Russell 2000 index.

Small Cap Growth I Account
The investment seeks long term growth of capital. The fund invests in small U.S. companies defined as companies with market capitalization of less than $2.5 billion or companies on the Russell 2500 Growth Index.

Short Duration Income Account
The investment seeks a high level of current income through investing in investments grade and high yield short duration mortgage, corporate, government and asset backed securities. This fund seeks to provide a higher yield than a traditional short duration strategy with a low duration than a traditional core bond strategy.

NOTE 2 SIGNIFICANT ACCOUNTING POLICES:

Basis of Accounting
The Plan's financial statements have been prepared on the accrual basis of accounting.

Investments
The Plan's investments are recorded at market value, as established by the trustee, as of December 31, 2011 and 2010. Administrative expenses of the Plan include recordkeeping fees and legal fees and are paid by the Plan. The amount charged for administrative expenses totaled $8,567 and $8,274 for the years ended December 31, 2012 and 2011.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Accounts Forfeited
Participants who terminate employment prior to the vesting of the employer non-elective contribution to their retirement accounts forfeit such contributions.

NOTE 3 INVESTMENTS:

Quoted market prices are used to value investments. The Plan's investments are held by Principal Mutual Life Insurance Co. The investments are managed by and all transactions are made by the Principal Mutual Life Insurance Co.

FASB ASC 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in an active market. This level includes common stocks, corporate bonds or mutual funds based on the closing price reported in the active market where the securities are traded.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation, or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair values of all of the investments listed are based on unadjusted, quoted prices in active markets as of the measurement date (often referred to as Level 1 inputs).

The general asset fund invests in bonds and mortgages of varying terms and maturities. Both guaranteed interest and best efforts arrangements are available.

NOTE 4 PARTICIPANT NOTES RECEIVABLE:

The Company allows for loans to plan participants. The loans need to be approved by the Plan Trustee. The Principal Mutual Life Insurance Co. sets up a repayment plan which includes interest. The term of the payback is five years with payments being made weekly. The interest rate is fixed at the time of the loan to a rate between of 2.25% and 10.00%. As of December 31, 2012 and 2011, all loans were current.

NOTE 5 TAX STATUS:

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code; and accordingly, the Trust's net investment income is exempt from income taxes. The Plan obtained a favorable tax determination letter dated March 13, 2002 from the Internal Revenue Service; and the Plan sponsor believes that the Plan continues to qualify and to operate as designed.

NOTE 6 SUMMARY OF INFORMATION CERTIFICATE:

The Trustee of the plan, The Principal Mutual Life Insurance Co., has supplied the plan administrator with a certification as to the completeness and accuracy of the information regarding the investment in Trident Precision Manufacturing, Inc. Retirement Savings Plan presented in the accompanying statements of net assets available for Plan benefits as of December 31, 2012 and 2011 and in the statements of changes in net assets for the years then ended and the related schedules.

NOTE 7 SUBSEQUENT EVENTS:

Management has evaluated subsequent events through August 14, 2013, the date on which the financial statements were available to be issued.

NOTE 8 INVESTMENT APPRECIATION (DEPRECIATION):

The plan's investments (including investments bought, sold, and/or held during the year) appreciated (depreciated) in value for the years ended December 31, 2012 and 2011 as follows:
