## Note 1. Plan Description

The following description of the SGI, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

**General:** The Plan was adopted on January 1, 1997 as a defined-contribution plan covering substantially all employees of SGI, Inc. and its subsidiaries: A-Mark Precious Metals, Inc., Bowers and Merena Auctions, LLC, HR Harmer Nutmeg Auctions, Inc., Greg Martin Auctions, Inc., Spectrum Auction Services, Spectrum Numismatics International, Inc., Collateral Finance Corporation, Teletrade, Inc. and Spectrum Wine Auctions, LLC (collectively, the Company), and has been amended and restated effective March 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was most recently amended effective January 1, 2012 to exclude certain types of payments to employees from the definition of compensation.

**Eligibility:** Substantially all employees of the Company who reach the age of 21 and complete three months of service become eligible to participate in the Plan. Employees covered by a collective bargaining agreement are excluded from participation in the Plan if the agreement was subject to negotiations through which retirement benefits were the subject of good faith bargaining. However, if the agreement provides for participation in the Plan, employees covered by the agreement are eligible to participate in the Plan.

**Contributions:** Participants may contribute up to 90 percent of eligible compensation for the year up to the statutory limit. In addition, if the individual's age is 50 or over during the calendar year, then the employee may be permitted to make an additional catch-up contribution of 100 percent of the participant's compensation up to the statutory limit. Eligible participants are automatically enrolled in the Plan and begin contributing at 3 percent of eligible compensation as defined in the Plan. Each pay period, the Company contributes a mandatory matching contribution of 30 percent on the first 60 percent of a participant's compensation, which is contributed as an elective deferral. For the year ended December 31, 2012, the Company made matching contributions totaling $295,714, less $614 of forfeitures applied, to the Plan. The Company may also contribute an additional nonelective (profit sharing) amount annually, subject to certain statutory limits, which the Company determines at its discretion. No such nonelective contributions were made to the Plan for the year ended December 31, 2012.

**Participant investment options:** Participants must direct their contributions from salary deferrals and their allocated share of employer contributions into investment options as made available and determined by the Plan Sponsor, which are more fully described in the Plan's literature.

**Participant accounts:** Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting:** Effective March 1, 2010, participants are immediately vested in their voluntary contributions, Company matching contributions and nonelective contributions. Previously, Company matching contributions and nonelective contributions became fully vested after completion of one year of service.

### Note 1. Plan Description (Continued)

**Notes receivable from participants:** Participants may borrow from their fund accounts in amounts ranging from $500 to $50,000, but not in excess of 50 percent of the vested account balance. Notes are repaid at a reasonable rate of interest through payroll deductions within five years or, in the event the note is used to acquire a principal residence, at a term not to exceed 30 years from the date of the note. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

**Payment of benefits:** Upon termination of service, a participant may elect to receive benefits in a lump-sum distribution, on an installment basis, or defer receipt to a date no later than that prescribed by government regulation. Terminated participants with vested account balances of $5,000 or less can be paid in a lump-sum cash amount.

**Forfeitures:** Forfeitures will be used to pay for Plan expenses or to reduce the Company's future matching contributions under the Plan. For the year ended December 31, 2012, the Company applied $614 of forfeitures to matching employer contributions. As of December 31, 2012 and 2011, there were $10 and $634, respectively, of unallocated forfeitures.

### Note 2. Significant Accounting Policies

**Basis of accounting:** The financial statements of the Plan are prepared under the accrual method of accounting.

**Fair value measurements:** The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lower priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2: Inputs to the valuation methodology include:

  - Quoted prices for similar assets or liabilities in active markets.

  - Quoted prices for identical or similar assets or liabilities in inactive markets.

  - Inputs other than quoted prices that are observable for the asset or liability.

  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**Note 2. Significant Accounting Policies (Continued)**

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's valuation methodology used to measure the fair value of registered investment companies (mutual funds) is based on quoted market prices. Investments in common collective trust funds and money market fund are stated at estimated fair value, as determined by the Plan Sponsor. The common collective trust funds and money market fund are valued based primarily on the net asset value (NAV) of underlying securities that have observable inputs, including quoted prices for similar assets in active or inactive markets. There have been no changes in the methodology used at December 31, 2012 and 2011.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Income recognition:** Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued daily. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Benefits:** Benefits are recorded when paid.

**Use of estimates:** The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits and changes therein. Actual results could differ from those estimates.

**Risks and uncertainties:** The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**Subsequent events:** The Plan Administrator has evaluated subsequent events through September 9, 2013, the date the financial statements were available to be issued.

**New accounting pronouncement:** In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this ASU cover a wide range of topics in the ASC, including plan accounting. These amendments included technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in the Update will generally be effective for fiscal periods beginning after December 15, 2013 for nonpublic entities, except for amendments in this Update where there was no transition guidance, which were immediately effective upon issuance. The adoption is immediately effective and amendments were not significant to these financial statements. The adoption of ASU 2012-04 did not have a material impact on the Plan's financial statements.

### Note 3. Assets and Information Certified or Provided by State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company (State Street) and furnished to the Plan Administrator. The Plan Administrator has obtained certification from State Street that information provided to the Plan Administrator by State Street related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule.

The following table represents the fair value of the participant-directed Plan assets certified or provided by State Street. Single assets representing more than 5 percent of the Plan's net assets as of December 31 are separately identified.

The nature, risks and investment objectives of the investment categories described in the tables above can be found in the Plan's enrollment literature.

**Fair value of investments in certain entities that calculate NAV per share or its equivalent:** The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2012:

The investment objectives of the above funds are to seek an investment return that approximates as closely as practicable, before expenses, the performance over the long term of the respective index noted below:

(a) This fund seeks to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable $1.00 per share NAV, by investing in U.S. government securities and in repurchase agreements collateralized by U.S. government securities. The fund may invest in shares of other money market mutual funds. Although the fund invests substantially all of its assets in a registered money market mutual fund, the fund itself is not a registered money market fund and is not subject to the various rules and limitations that apply to such funds. There can be no assurance that the fund will maintain a stable NAV.

(b) This fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P MidCap 400 Index (MidCap Index) over the long term. The fund will typically attempt to invest in the securities comprising the MidCap Index in the same proportions as they are represented in the MidCap Index. From time to time, the fund may purchase securities that are not yet represented in the MidCap Index or sell securities that have not yet been removed from the MidCap Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the MidCap Index, or to hold them in the same weightings as they represent in the MidCap Index. In those circumstances, the fund may employ a sampling or optimization technique to construct the portfolio in question. This fund's returns may vary from the returns of the MidCap Index.

(c) This fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 2000® Index (Russell Index) over the long term. The fund will typically attempt to invest in the securities comprising the Russell Index in the same proportions as they are represented in the Russell Index. From time to time, the fund may purchase securities that are not yet represented in the Russell Index or sell securities that have not yet been removed from the Russell Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Russell Index, or to hold them in the same weightings as they represent in the Russell Index. In those circumstances, the fund may employ a sampling or optimization technique to construct the portfolio in question. This fund's returns may vary from the returns of the Russell Index.

### Note 3. Assets and Information Certified or Provided by State Street Bank and Trust Company (Continued)

(d) This fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the MSCI EAFE® Index (MSCI Index) over the long term. The fund will typically attempt to invest in the securities comprising the MSCI Index in the same proportions as they are represented in the MSCI Index. From time to time, the fund may purchase securities that are not yet represented in the MSCI Index or sell securities that have not yet been removed from the MSCI Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the MSCI Index, or to hold them in the same weightings as they represent in the MSCI Index. In those circumstances, the fund may employ a sampling or optimization technique to construct the portfolio in question. This fund's returns may vary from the returns of the MSCI Index.

### Note 4. Tax Status

Effective March 1, 2010, the Plan adopted a nonstandardized form of a prototype plan sponsored by Automatic Data Processing. The prototype plan has received an opinion letter from the Internal Revenue Service, dated March 31, 2008, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has since been amended; however, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

### Note 5. Related-Party Activity

The Plan invests in common collective trust funds managed by State Street Global Advisors (SSGA), a division of State Street Bank and Trust Company, the asset trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan. The majority of administrative expenses are paid by the Plan Sponsor.

### Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA and discontinue its contributions at any time. In the event of Plan termination, participants would become 100 percent vested in their accounts.
