Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

Westmoreland Coal Company Pension Committee
Beulah & Savage Mines Hourly Employees' Pension Plan
Englewood, Colorado

We were engaged to audit the statements of net assets available for benefits of Beulah & Savage Mines Hourly Employees' Pension Plan (the "Plan") as of November 30, 2012 and 2011, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 1, 2011, the related statement of changes in accumulated plan benefits for the year ended December 1, 2011, and the supplemental schedule as of November 30, 2012, as listed in the accompanying table of contents. These financial statements and the supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Prudential Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedules. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of November 30, 2012 and 2011, and for the years ended November 30, 2012 and 2011, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and the supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Actuarial Cost Method

I. ACTUARIAL COST METHOD

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in "Plan Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of December 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the Segment Rate approach for discount rate purposes, with an applicable month that is 4 months prior to the valuation date.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.

All funds invested are valued in the following manner:

Definitions

i(t)	assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3 rd segment rate for Plan Year t.
C(t)	sum of contributions and other additions to the fund from all sources other than investment transactions in Plan Year t
W(t)	sum of all withdrawals and other decreases to the fund from all sources other than investment transactions in Plan Year t
AV(t)	Actuarial Value of Assets as of Plan Year t
MV(t)	Market Value of Assets as of Plan Year t
EV(t)	Expected Value of Assets as of Plan Year t
G/L(t)	Gain or Loss for Plan Year

Actuarial Cost Method (continued)

Method

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 2 years, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the year for which C and W are invested

$$G/L(t-1) = EV(t) - MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 2/3 * G/L(t-1) + 1/3 * G/L(t-2)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)]

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

Actuarial Assumptions

Assumptions have been chosen to anticipate the long range experience of the plan. Consistency among assumptions is important as each interacts with the others; equally important is the recognition of inflationary trends in the economy.

As the Enrolled Actuary for the plan, I will certify to the reasonableness of these assumptions, in aggregate, as required by ERISA.

The actuarial assumptions used to compute plan costs are:

Estimated Expenses:

Estimated administrative expenses expected to be paid from plan assets are \$60,000.

Actuarial Assumptions (continued)

Benefit commencement date:

- **Preretirement death benefit** The later of the death of the active participant or the date the participant would have attained age 55.
- **Deferred vested benefit** The later of age 62 or termination of employment.
- **Retirement benefit** The later of age 62 or termination of employment.

Form of payment:

- **Deferred vested benefit** Life Annuity.
- **Retirement benefit** Life Annuity.

Percent Married: 85% of males; 50% of females.

Spouse age: Wives are assumed to be four years younger than husbands.

Plan Provisions

Covered Employees	Any hourly-paid person regularly employed by any participating employer, with respect to Beulah or Savage Mines.
Participation Date	December 1, or June 1, after completing one year of service with 1,000 hours of service.
Definitions	
Vesting Service	Years and months of service as a covered employee.
Pension service	Years and months of service as a covered employee.
Normal retirement date (NRD)	The first of the month coinciding with or next following the attainment of age 65 or the fifth anniversary of the date the participant became a qualified employee, if later.
Monthly pension benefit	\$55 times pension service.
Monthly preretirement death benefit	75% (100% if death is work related) of the monthly pension benefit as of the participant's date of death, payable immediately for early commencement.
Eligibility for Benefits	
Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing five years of vesting service.
Postponed retirement	Retirement after NRD.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.
Monthly Benefits Paid Upon the Following Events	
Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 3.0% for each year of payment before age 62.
Postponed retirement	Monthly pension benefit determined as of actual retirement date.
Vested termination	Monthly pension benefit determined as of termination date, reduced 3.0% for each year of payment before the participant reaches age 62.
Death with preretirement	Monthly preretirement death benefit payable upon death of an active spouse benefit or deferred vested member.

Plan Provisions (continued)

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above.

Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 75% joint and survivor annuity or 50% joint and survivor annuity for deferred vested retirements. If the participant elects and the spouse consents, participant may elect to receive another actuarially equivalent optional form offered by the plan. Optional forms include a lump sum payment provided termination occurs prior to age 55.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Actuarial Cost Method

I. ACTUARIAL COST METHOD

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in "Plan Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of December 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the Segment Rate approach for discount rate purposes, with an applicable month that is 4 months prior to the valuation date.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.

All funds invested are valued in the following manner:

Definitions

i(t)	assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3 rd segment rate for Plan Year t.
C(t)	sum of contributions and other additions to the fund from all sources other than investment transactions in Plan Year t
W(t)	sum of all withdrawals and other decreases to the fund from all sources other than investment transactions in Plan Year t
AV(t)	Actuarial Value of Assets as of Plan Year t
MV(t)	Market Value of Assets as of Plan Year t
EV(t)	Expected Value of Assets as of Plan Year t
G/L(t)	Gain or Loss for Plan Year

Actuarial Cost Method (continued)

Method

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 2 years, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the year for which C and W are invested

$$G/L(t-1) = EV(t) - MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 2/3 * G/L(t-1) + 1/3 * G/L(t-2)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)]

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

Actuarial Assumptions

Assumptions have been chosen to anticipate the long range experience of the plan. Consistency among assumptions is important as each interacts with the others; equally important is the recognition of inflationary trends in the economy.

As the Enrolled Actuary for the plan, I will certify to the reasonableness of these assumptions, in aggregate, as required by ERISA.

The actuarial assumptions used to compute plan costs are:

Plan Provisions

Covered Employees	Any hourly-paid person regularly employed by any participating employer, with respect to Beulah or Savage Mines.
Participation Date	December 1, or June 1, after completing one year of service with 1,000 hours of service.
Definitions	
Vesting Service	Years and months of service as a covered employee.
Pension service	Years and months of service as a covered employee.
Normal retirement date (NRD)	The first of the month coinciding with or next following the attainment of age 65 or the fifth anniversary of the date the participant became a qualified employee, if later.
Monthly pension benefit	\$55 times pension service.
Monthly preretirement death benefit	75% (100% if death is work related) of the monthly pension benefit as of the participant's date of death, payable immediately for early commencement.
Eligibility for Benefits	
Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing five years of vesting service.
Postponed retirement	Retirement after NRD.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.
Monthly Benefits Paid Upon the Following Events	
Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 3.0% for each year of payment before age 62.
Postponed retirement	Monthly pension benefit determined as of actual retirement date.
Vested termination	Monthly pension benefit determined as of termination date, reduced 3.0% for each year of payment before the participant reaches age 62.
Death with preretirement	Monthly preretirement death benefit payable upon death of an active spouse benefit or deferred vested member.

Plan Provisions (continued)

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above.

Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 75% joint and survivor annuity or 50% joint and survivor annuity for deferred vested retirements. If the participant elects and the spouse consents, participant may elect to receive another actuarially equivalent optional form offered by the plan. Optional forms include a lump sum payment provided termination occurs prior to age 55.

INDEPENDENT AUDITORS' REPORT

Westmoreland Coal Company Pension Committee
Beulah & Savage Mines Hourly Employees' Pension Plan
Englewood, Colorado

We were engaged to audit the statements of net assets available for benefits of Beulah & Savage Mines Hourly Employees' Pension Plan (the "Plan") as of November 30, 2012 and 2011, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 1, 2011, the related statement of changes in accumulated plan benefits for the year ended December 1, 2011, and the supplemental schedule as of November 30, 2012, as listed in the accompanying table of contents. These financial statements and the supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Prudential Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedules. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of November 30, 2012 and 2011, and for the years ended November 30, 2012 and 2011, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and the supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

BEULAH & SAVAGE MINES HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of the Beulah & Savage Mines Hourly Employees' Pension Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering all hourly employees of the Dakota Westmoreland Corporation and the Westmoreland Savage Corporation and affiliated companies (collectively, the "Company") provided they are not leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employees of the Company who were participants in the Knife River Corporation Hourly Employees' Pension Plan on April 30, 2001 became participants in the Plan as of May 1, 2001. Otherwise, participation commences on the first day of the next entry date after an hourly paid person regularly employed by the Company completes one year of service in which the employee completes 1,000 or more hours of service. The Plan's entry dates are December 1 and June 1. Hourly employees hired by the Westmoreland Savage Company subsequent to December 31, 2006 are not eligible to participate in the Plan.

The Westmoreland Coal Company Pension Committee administers the Plan and manages the Plan assets. Prudential Retirement Insurance and Annuity Company ("Prudential Retirement") is the Plan's custodian and maintains the Plan's records.

Funding Policy

The Plan is non-contributory; all funding is provided for by the Company. The Company has voluntarily agreed to make contributions to the Plan sufficient to provide the Plan with assets with which to pay pension benefits to Plan participants. For the Plan years ended November 30, 2012 and 2011, minimum funding requirements of ERISA and the Internal Revenue Code (the "Code") were \$971,592 and \$1,150,559, respectively.

The minimum funding requirements were met through contributions of \$939,001, including employer contributions made in 2011. The remaining funding requirements were met through prefunding actuarial credit provided by the actuary of \$971,592 and \$708,518 in 2012 and 2011, respectively.

The Plan sponsor is required by loan covenants to fund the Plan within 8 1/2 months of the valuation date, as defined by the Plan, not less than 80% of the actuarial-determined pension liability as of the prior year-end. Employer contributions made subsequent to year-end to meet contractual or legal requirements existing as of year-end are recorded as employer contributions receivable and contributions revenue. There were no employer contributions receivable as of November 30, 2012 and 2011.

BEULAH & SAVAGE MINES HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Benefits and Vesting

Employees with five or more years of vesting service are entitled to monthly pension benefits beginning at the normal retirement age of 65 equal to a factor times the number of years of credited service. The factor for Dakota Westmoreland Corporation participants is \$55. The factor for participants of Westmoreland Savage Corporation is \$35.25 for years of credited service earned prior to January 1, 1988, \$42 for years of credited service earned in 1988 and 1989, \$46.50 for years of service earned from 1990 through December 31, 1993, and \$49.50 for years of credited service earned from January 1, 1994 to December 31, 2006. The Plan permits early retirement at age 55 with at least five years of vesting service. If the employee is at least age 62, there are no reductions in benefit factors for early retirement. If the employee is between 55 and 62, benefits are reduced by 1/4 of 1% for every month between the date that benefits begin and the month of their 62nd birthday. For the purpose of converting days into years, 365.25 days shall constitute one year, and the result will be rounded to two decimal places. The Plan permits deferred vested pension payments for employees whose employment is terminated for reasons other than death, retirement, or disability on or after the completion of five years of vested service.

Married employees will receive their benefits in the form of a joint and 75% survivor annuity unless an alternate method has been selected and properly approved. Unmarried employees will receive their benefits in the form of a life annuity. Participants may receive a single lump-sum distribution under certain circumstances. Benefits are recorded when paid.

Death and Disability Benefits

If an active employee dies prior to retirement and has rendered five years of service, a monthly pension equal to the survivor's annuity is paid to the employee's spouse. If an employee dies after retirement, the benefit provided by the form of payment elected at retirement is paid to the employee's beneficiary. Active employees with five years of service who become totally disabled receive monthly disability benefits that are equal to \$15 times the number of years of credited service. Active employees with less than five years of service receive monthly disability benefits equal to \$7.50 times the number of years of credited service.

Administrative Expenses

During the years ended November 30, 2012 and 2011, the Company paid certain administrative expenses of the Plan.

Valuation of Investments and Income Recognition

Investments are stated at fair value as reported by the Plan custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. See Note 2 for discussion of fair value measures.

BEULAH & SAVAGE MINES HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statements of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the investment account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Plan contributions are made and the actuarial value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would have a material impact on Plan contributions and the financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered prior to the valuation date.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to the accumulated plan benefits to reflect the time value of money (through discounts and for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. Actuarial assumptions for the Plan are made as of the beginning of the Plan year. The statement of accumulated plan benefits and the statement of changes in accumulated plan benefits were prepared as of December 1, 2011 and for the year ended December 1, 2011. Had the reports been prepared as of and for the year ended November 30, 2011, no material change would have been necessary. The significant actuarial assumptions used in the valuations as of December 1, 2011 are as follows:

- Life expectancy of participants was obtained from the RP-2000 Blue Collar (male/female)
- Funding was based on IRS 2011 Static Mortality Table (male/female)
- The assumed funding interest rate of return was 4.6%
- The assumed long-term investment return was 7.4%
- No disabilities were assumed
- Estimated administrative expenses expected to be paid from Plan assets are \$60,000
- Benefit commencement date - pre-retirement death benefit is the later of the death of the active participant or the date the participant would have attained age 55, deferred vested benefit and retirement benefit are the later of age 62 or termination of employment
- Form of payment - deferred vested benefit and retirement benefit is life annuity
- Percent Married - 85% of males, 50% of females
- Spouse age - wife four years younger than husband
- Participants are assumed to retire based on rates of retirement varying by age;

<u>Age</u>	<u>Rate</u>
55	5%
62	30%
65	40%
70	100%

- Participants are assumed to terminate based on rates of expected termination varying by age;

25	13%
40	4.4%

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits (continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The following changes in actuarial assumptions were made from the December 1, 2010 valuation to the December 1, 2011 valuation:

- For funding purposes, the Mortality Table has been changed to the IRS's 2011 Static Mortality Table.
- The assumed funding interest rate of return was changed from 5.6% to 4.6%.
- For ASC 960, the mortality table has changed to the RP-2000 Blue Collar Table projected to 2012.

A change in pension plan provisions was made from the December 1, 2010 valuation to the December 1, 2011 valuation. Prior to 2011, the Plan was providing benefits payable in Joint and Survivor forms without any actuarial reduction in benefits for the spousal benefit. During the 2011 Plan year, the Plan went through a Voluntary Compliance Program ("VCP"), which allowed the Plan sponsor to either reduce the benefits in payment in accordance with original terms of the Plan or to allow participants in pay status to re-elect the form of payment under the correct terms of the Plan. In addition, the actuarial assumptions regarding assumed forms of payments for future retirees have been changed to reflect the corrected administration of the Plan prospectively.

Note 2 - Fair Value Accounting

Generally accepted accounting principles establish a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

Note 2 - Fair Value Accounting (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2012 and 2011.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year-end based on the quoted price in an active market.

Pooled separate accounts: Valued based on the quoted market prices of the securities underlying the investments.

Westmoreland Coal Company common stock and cash and cash equivalents: Valued at the closing price reported on the active market on which the individual investments are traded.

Limited partnerships and limited liability companies: Valued by the respective partnership or company manager using the market and income approaches. The market approach consists of using comparable market transactions or values. The income approach consists of the net present value of estimated future cash flows, adjusted as appropriate for liquidity, credit, market, and other risk factors. The inputs considered in the valuations include original transaction prices, recent transactions in the same or similar instruments, changes in financial ratios or cash flows, discounted cash flow valuations, and general economic and market conditions. These represent the Level 3 investments.

Guaranteed deposit fund: Valued using a method that approximates the market value of underlying investments by discounting expected future investment cash flow from both investment income and repayment of principal for each investment purchased.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 Changes

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the periods ending November 30, 2012 and 2011. Both observable and unobservable inputs may be used to determine the fair value of the positions classified within the Level 3 category. As a result, the unrealized gains and losses for assets and liabilities within the Level 3 category may include changes in the fair value that were attributable to both observable and unobservable inputs.

Note 3 - Investments

Prudential Retirement has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of November 30, 2012 and 2011 and the income earned on the investments for the year ended November 30, 2012 and 2011, as reflected in the accompanying financial statements and the supplemental schedules, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by Prudential Retirement, except for comparing the information contained therein to information included in the financial statements and the supplemental schedules.

The investments in pooled separate accounts as of November 30, 2012 and 2011 are \$14,475,681 and \$14,848,418, respectively, as valued based on the net asset value as a practical expedient. There are no unfunded commitments and the units may be redeemed on a daily basis.

Note 4 - Income Taxes

The Plan has received a tax determination letter dated April 20, 2012 from the IRS covering changes made to comply with ERISA and indicating that the Plan qualifies under the provisions of Section 401(a) of the Code and is exempt from federal income taxes.

BEULAH & SAVAGE MINES HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 4 - Income Taxes (continued)

The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of November 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 5 - Administration of the Plan

The Company provides at no cost to the Plan certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Related Party Transactions

Plan investments include mutual funds, a guaranteed deposit fund, and a money market fund managed by Prudential Retirement. Prudential Retirement is the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest. These transactions are exempt from prohibited transaction regulations.

During the Plan year ended November 30, 2011, Westmoreland Coal Company contributed 25,000 shares of its common stock in the amount of \$449,250. The Plan sold 100,750 shares of the Westmoreland Coal Company common stock during the year ended November 30, 2011 for \$1,625,253, realizing losses of \$598,338. For the Plan year ended November 30, 2012, the Westmoreland Coal Company did not contribute or sell any shares of common stock. As of November 30, 2012 and 2011, the Plan held 19,690 shares of Westmoreland Coal Company common stock with a fair value of \$193,355 and \$201,823, respectively.

BEULAH & SAVAGE MINES HOURLY EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, the net assets of the Plan would be allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for the three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination;
- Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. government agency, up to the applicable limitations (discussed below);
- All other vested benefits not insured by the PBGC; or
- All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 8 - Subsequent Events

The Plan administrator has evaluated subsequent events related to the Plan through the auditors' report date, which is the date the financial statements were available for issuance.
