Note 1 - Plan Description

The following description of Aggregate Industries, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by Aggregate Industries Management, Inc. (the "Company"). The plan covers substantially all employees who have completed one hour of service, are age 18 or older, and who are employees of the following entities under common control: Aggregate Industries (North Central Region), Aggregate Industries (Northeast Region), Aggregate Industries (West Central Region), Bardon, Inc., Bassett LLC, Bill Smith Sand & Gravel, Fidler, Inc., Frehner Construction, Hardaway Concrete Company, Inc., Hardaway Concrete Upstate, Inc., Meyer Material Company, Mid-Atlantic Materials Inc. Super Concrete Corporation, Lattimore Materials Company, Inc., and Ennstone, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective March 5, 2011, Lattimore Materials Company, Inc. adopted the Plan. Qualified employees of Lattimore Materials Company, Inc. who satisfied eligibility requirements could enter the Plan on March 5, 2011. Employees could elect to rollover participant balances and participant notes receivable.

On October 31, 2011, Aggregate Industries Management, Inc. acquired certain assets of Ennstone, Inc. Employees of Ennstone, Inc. who became employees of Aggregate Industries Management, Inc. as of October 31, 2011 are eligible to participate in the Plan.

Effective November 30, 2012, all assets and participants in the Aggregate Industries Retirement Savings Plan merged into the Holcim (US) Inc. Retirement Savings Plan for Hourly Employees and the Holcim (US) Inc. Retirement Savings Plan for Salaried Employees. (See Note 8)

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 50 percent of the annual pretax compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Note 1 - Plan Description (Continued)

The Plan provides for employer-matching contributions equal to 50 percent of the lesser of (1) the participant's 401(k) contributions for the year or (2) 6 percent of the participant's eligible earnings for the portion of the year during which he or she was an active participant. The Company may also, at the discretion of its board of directors, make additional year-end contributions to the Plan that are allocated to participants based on each participant's compensation in relation to total compensation of all participants. To be eligible for the employer year-end contributions, a participant must be employed as of the last day of the period. For the period from January 1, 2012 to November 30, 2012, no discretionary contributions were made by the employer. For the year ended December 31, 2011, discretionary contributions of 4 percent of compensation were made in 2012. The Plan provides for fixed contributions for five individuals from the Union Local 364. These five individuals receive a fixed profit-sharing contribution of 14 percent of compensation from January - April 2011, 14.5 percent from May 2011 - April 2012, and 15.5 percent from May 2012 - November 2012. These participants are not eligible for matching or discretionary contributions. The Plan also provides for fixed contributions for individuals from the Teamsters Local Union No. 43. These participants receive a fixed profit-sharing contribution of 5.5 percent of compensation. These participants are eligible for matching contributions but are not eligible for discretionary contributions.

Participant Accounts - Each participant's account is credited with the participant contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on a participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after one year of service, and another 20 percent per year thereafter until they become fully vested after five years of service.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account, monthly installments, or a combination of both. Terminated participants may also elect to maintain their vested account balances within the Plan until they reach normal retirement age, provided their balances exceed $5,000. Participants with account balances of less than $5,000 must receive lump-sum distributions.

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions. In connection with the merger of the Plan, remaining forfeitures were allocated equally among the profit-sharing contribution accounts of participants employed as of November 27, 2012. At November 30, 2012 and December 31, 2011, forfeited account balances totaled $0 and $249,865, respectively.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by New York Life Trust Company or its affiliates. New York Life Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Interest rates range from 4.25 to 9.5 percent. Principal and interest are paid ratably through monthly payroll deductions.

Note 2 – Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The unallocated insurance contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The fair value of the unallocated insurance investment contract is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the unallocated contracts is based on its proportionate ownership interest in the fair value of the unallocated contracts. The unallocated contract primarily holds fixed-income securities and derivatives. The fair value of the fixed-income securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract(s) provided by the contract issuer(s) is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. The common collective trust fund is valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets.

Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities. All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs of the Plan are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 27, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

New York Life Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements are based solely on information provided by the Trustee.

Significant investments held at the end of year are as follows:

	2012	2011
Mutual funds - At fair value:		
PIMCO Total Return Fund	$ -	$ 10,977,789
American Century Livestrong Income Adv	-	17,615,263

New York Life Guaranteed Interest Account	-	20,541,432
Common collective trust fund - At fair value -		
BlackRock Equity Index Fund G	-	13,939,067

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Investment Contracts

In 2009, the Plan entered into a benefit-responsive unallocated insurance contract with New York Life Trust Company (NYL). NYL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The investment contract seeks to provide competitive yields and limited volatility, with a guarantee of principal and accumulated interest. A guaranteed interest crediting rate will be declared in advance and fixed for each six-month period. The initial guaranteed rate will last until December 31 of the first contract year. The crediting rate in subsequent contract years will be reset on January 1 and July 1 and is guaranteed for a six-month period. The initial gross crediting rate for the new investment contract clients in 2009 is 4.10 percent. The gross crediting rate during the period ended November 30, 2012 was 2.90 percent and 3.05 percent during the year ended December 31, 2011. The minimum crediting rate for the contract will always fall within a range between 1.0 and 3.0 percent.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Liquidation of the entire contract may cause a one-time adjustment to aggregate contract value, resulting in a fair value different from the contract value. This total liquidation is a contingent event, which cannot be initiated by the plan participants and can only be initiated by the plan trustee upon termination of the Plan or complete termination of the contract.

	2011
Average yield earned by the Plan	3.04%
Average yield credited to participants	3.12%

Note 6 – Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include credit rating of the issuer, deposits made to the contract, earnings at guaranteed credit rates, withdrawals, and fees.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Fair Value Measurements (Continued)

Total	$ 87,952,842	$ 13,939,067	$ 20,080,205	$ 121,972,114

(1) This class represents an investment in an actively managed common collective trust fund that invests primarily in mutual funds that primarily invest in in equity securities which may include common stocks, options, and futures.

There were no unfunded commitments or redemption restrictions on the investment described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

During the period ended November 30, 2012 and year ended December 31, 2011, there were no significant transfers between levels of the fair value hierarchy.

Note 6 - Fair Value Measurements (Continued)

Changes in Level 3 assets measured at fair value on a recurring basis for the period ended November 30, 2012 and the year ended December 31, 2011 are as follows:

	Unallocated Insurance Contract
Balance at January 1, 2012	$ 20,080,205
Issuances	18,598,206
Settlements	(17,282,362)
Total realized gains	461,227

Transfers out of the Plan (Note 8)	(22,394,076)
Balance at November 30, 2012	$ -

	Unallocated Insurance Contract
Balance at January 1, 2011	$ 19,867,717
Issuances	14,406,775
Settlements	(14,784,061)
Total unrealized losses	(16,398)
Interest	606,172
Balance at December 31, 2011	$ 20,080,205

Unrealized losses of $16,398 for the year ended December 31, 2011 on the unallocated insurance contract held at year end are included in the accompanying statement of net assets available for benefits.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets. As a result, the unrealized gains and losses for these assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

The Plan also holds other assets not measured at fair value on a recurring basis, including employer contributions receivable and participant notes receivable. The fair value of these assets approximate the carrying amounts in the accompanying financial statements due to either the short maturity of the instruments or the use of interest rates that approximate market rates for instruments of similar maturity.

Note 7 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at November 30, 2012 and December 31, 2011 to Form 5500:

	2012	2011

Less contribution receivable at December 31, 2011	-	(36,318)
Net assets available for benefits per Form 5500	$ -	$ 127,512,528

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements for the period ended November 30, 2012 and year ended December 31, 2011 to Form 5500:
