Report of Independent Auditors

To the Participants and Administrator of
Raytheon Bargaining Retirement Plan

In our opinion, the accompanying statements of net assets available for benefits as of November 30, 2012 and November 30, 2011 and the related statements of changes in net assets available for benefits for the years then ended, present fairly, in all material respects, information regarding the net assets available for benefits of Raytheon Bargaining Retirement Plan (the "Plan") at November 30, 2012 and changes therein for the year then ended and its financial status as of November 30, 2011, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods**Asset methods – effective December 1, 2011**

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods – effective December 1, 2011

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Affiliated Computer Services, Inc. provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods – effective December 1, 2011

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V – Summary of Plan Provisions**Summary of Major Plan Provisions**

• Benefit	<p>Contributing participants: The benefit is the greatest of (i), (ii) or (iii) below:</p> <ul style="list-style-type: none"> (i) Accrued benefit through December 31, 1975 plus 1% of the first \$3,600 of compensation and 2% of compensation in excess of \$3,600, for all compensation received after December 31, 1975 (ii) The product of (1) and (2): <ul style="list-style-type: none"> (1) Benefit Accrual Service (2) \$156 plus 0.5% of Final Average Compensation (iii) The result of (1) less (2): <ul style="list-style-type: none"> (1) The product of Benefit Accrual Service and 1.75% of Final Average Compensation (2) The product of Benefit Accrual Service (maximum 33-1/3 years) and 1.5% of Primary Insurance Amount <p>Noncontributing participants: The greater of Benefit A offset by Benefit B, and Benefit C, where:</p> <ul style="list-style-type: none"> (i) Benefit A equals the sum of: <ul style="list-style-type: none"> (1) 1.5% of Final Average Compensation multiplied by years of Benefit Accrual Service (not in excess of 35 years) (2) 0.5% of Final Average Compensation multiplied by years of Benefit Accrual Service in excess of 35 years (ii) Benefit B equals 0.6% of Final Average Compensation (not in excess of Covered Compensation) multiplied by years of Benefit Accrual Service (not in excess of 35 years) (iii) Benefit C equals the product of Benefit Accrual Service and the following, based upon the participant's group: <ul style="list-style-type: none"> ▪ IAM 933 (Missile Systems, Tucson): \$444 beginning on January 1, 2010 (previously \$408) ▪ IAM Lodge 933 (Firefighters): \$360 beginning March 1, 2008, \$372 beginning March 1, 2009 and \$384 beginning March 1, 2010 (previously \$348) ▪ EAST Local 1553: \$384 beginning July 1, 2008, \$396 beginning July 1, 2009, \$408 beginning July 1, 2010, and \$468 beginning July 1, 2011. <p>General Dynamics employees: The benefit is equal to product of Benefit Accrual Service and \$348.</p>
Early retirement	
• Eligibility	Age 55 and 5 years of Vesting Service.

• Benefit	<p>Contributing participants: Actuarial equivalent of Normal Retirement benefit unless eligible for unreduced benefit under Rule of 75 (the sum of attained age and continuous service is at least 75.). Actuarial equivalence for this purpose is based on the interest rate used by the PBGC for valuing immediate annuities on the October 1st preceding the plan year (or on the first day of the plan year, if less) including the annuity start date and the 1971 Group Annuity Mortality Table blended 80% males, 20% females.</p> <p>Noncontributing participants: Accrued Benefit determined as of Normal Retirement, reduced 6% per year prior to Social Security Normal Retirement Age. Unreduced early retirement available three years prior to Social Security Normal Retirement Age with ten years of continuous service.</p> <p>General Dynamics employees: If eligible, unreduced benefit (later of age 62 and 10 years of continuous service or satisfaction of required 85 points based on sum of attained age and continuous service). If not eligible for unreduced benefit, accrued benefit reduced by the lesser of 3% times excess of required over actual points and 3% per year prior to Normal Retirement.</p>
Postponed Retirement	
• Benefit	Normal Retirement Benefit determined as of actual retirement date.
Termination with Deferred Vested Benefit	
• Eligibility	Termination for reasons other than death or retirement after completing five years of Vesting Service.
• Benefit	Benefit accrued to date of termination payable at age 65 or the actuarial equivalent as described in the "Early Retirement" section above, payable for commencement after age 55 and prior to age 65.
Death Benefits	
• Eligibility	5 years of Vesting Service.
• Benefit	Benefit accrued to date of death, calculated as if the participant had retired at the earliest retirement age and elected the 50% contingent annuitant option or, if already eligible for early retirement, elected to retire and had elected the 100% contingent annuitant option on the day before death. The benefit is actuarially reduced with benefit payments to the spouse commencing on the date when the participant would have become eligible for retirement benefits.
Form of Benefits	
• Automatic form for unmarried participants	Single Life Annuity
• Automatic form for married participants	50% contingent annuitant option

• Optional forms	The participant may elect another actuarially equivalent optional form offered by the plan if the spouse consents, or if the participant has no spouse as of the date payment begins. Optional forms are a 50%, 66-2/3%, 75%, or 100% contingent annuity, a 5-, 10-, or 15-year period and continuous, 5-, 10-, or 15- year period certain only, temporary modified cash refund options, Social Security leveling options or (for married Participants) a life annuity.
Cost of Living	Automatic cost-of-living adjustments of up to 4.0% are payable on retirement benefits after age 55 for contributing participants
Unpredictable contingent event benefits	N/A
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2011, the limit is \$245,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2011, the limit is \$195,000.

Former Pension and Retirement Plan for Local 6-0254 of PACE Provisions

Eligibility	Every member of the Magnavox Plan who became an employee of the Company on October 22, 1993, is eligible to participate. Other employees are eligible as of the date of entry into Local 6-0254 of PACE.
Definitions	
▪ Years of Service	Completion of 1,000 hours of service within a plan year.

▪ Credited Service

Prior to September 1, 1967, elapsed time from date of hire according to the following table:

Months of Employment in

Calendar Year

Credited Service

1	0.1 year
2	0.2 year
3	0.3 year
4	0.4 year
5-6	0.5 year
7-8	0.6 year
9	0.7 year
10	0.8 year
11	0.9 year
12	1.0 year

Subsequent to September 1, 1967, for plan years ending prior to January 1, 1982, 1 full year of credited service for each plan year of 1,680 or more hours; and a fractional year for each plan year of less than 1,680 hours on the basis of 1/10 of a year for each unit of 168 hours. For plan years beginning on or after January 1, 1982, 1 full year of credited service for each plan year of 1,640 or more hours; and a fractional year for each plan year of less than 1,640 hours on the basis of 1/10 of a year for each unit of 164 hours. Hours worked include overtime hours. Credited service is frozen effective April 14, 1997.

Magnavox Plan

The Magnavox Company and the Magnavox Government and Industrial Electronics Company Hourly Pension and Retirement Plan covering Local 254A of the Allied Industrial Workers of America.

Actuarial Equivalence

Based on the 1984 Unisex Pension Mortality Table and the PBGC interest rates in effect on January 1 of the plan year.

Normal Retirement

• Eligibility

Age 65 and 5 years of service.

• Benefit

A monthly benefit of \$22 for each year of credited service less the Actuarial Equivalent of the normal retirement benefit accrued under the Magnavox Plan through October 21, 1993. Effective April 14, 1997, credited service is frozen. The Actuarial Equivalent amount of offset benefit is calculated as if payments under the Magnavox Plan commenced on the earlier of the date of actual commencement under the Magnavox Plan or the date payments commenced under this plan.

Early Retirement

• Eligibility

Age 55 and 5 years of service.

• Benefit	The accrued retirement benefit reduced by 3/10 of 1% for each month that retirement precedes age 65. This benefit is unreduced if the sum of age and years of credited service is at least 85.
Deferred Vested Retirement	
• Eligibility	5 years of service.
• Benefit	Computed in the same manner as the early retirement benefit, payable at age 65 or reduced and payable after age 55 as an early retirement benefit.
Disability	
• Eligibility	Total and permanent disability and 10 years of service.
• Benefit	A monthly benefit equal to the normal retirement benefit, payable immediately with no reduction for early commencement.
Pre-Retirement death benefit	
• Eligibility	Vested participant who dies prior to annuity start date.
• Benefit	A monthly benefit payable to the surviving spouse equal to the amount the spouse would have received if the participant had retired on the date of death and elected a 50% joint and survivor annuity. Benefit payments commence when the participant would have attained age 55.
Post-Retirement death benefit	
• Eligibility	Death while receiving normal, early, or disability retirement benefits.
Benefit	\$4,000
Form of Benefits	
• Automatic form for unmarried participants	Single Life Annuity
• Automatic form for married participants	50% Joint and Survivor annuity equivalent to the Single Life Annuity.
• Optional forms	Participants may also take their benefit as a 10-year Certain and Continuous Annuity determined based on the actuarial equivalence stated above.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan are included in this valuation

- **Most recent plan amendments included:** July 12, 2011 which increased the minimum benefit multiplier from \$34 per month to \$39 per month.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding***Additional Benefits Included or Excluded***

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

- Maximum compensation and benefit limits were updated from 2010 to 2011.
- The benefit multiplier for the minimum benefit for EAST 1553 Union was updated from \$34.00 to \$39.00 per month.

Schedule SB, Line 24 – Change in Actuarial Assumptions

- Compared to the 2010 current liability assumptions, the interest rate was changed from 6.45% to segment rates with a 0 month look-back.
- Mortality rates were updated from 2010 to 2011 in accordance with PPA.
- Expenses loaded on the normal cost decreased from \$1,378,018 to \$1,279,394 to reflect our expectations for the current plan year.
- Actuarial equivalence for Certain Only form of payment is based on either:
 - PBGC interest rate of 1.50% in 2012, 2.25% in 2013 and 3.00% from 2014 on and 1971 Group Annuity Mortality table (blended 80% males, 20% females) or
 - Segmented interest rates of 4.5% for 5 years, 5.5% for the next 15 years and 6.0% thereafter and PPA 2011 mortality table projected to 2021 (blended 50% males, 50% females),
whichever yields a larger Certain Only payment.
- The form of payment for Contributing participants was updated from 20% Single Life and 80% 5-year Certain Only to 10% Single Life and 90% 5-year Certain Only for 2011 and 20% Single Life and 80% 5-year Certain Only for 2012 and later.

To the Participants and Administrator of
Raytheon Bargaining Retirement Plan

In our opinion, the accompanying statements of net assets available for benefits as of November 30, 2012 and November 30, 2011 and the related statements of changes in net assets available for benefits for the years then ended, present fairly, in all material respects, information regarding the net assets available for benefits of Raytheon Bargaining Retirement Plan (the "Plan") at November 30, 2012 and changes therein for the year then ended and its financial status as of November 30, 2011, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2012 and 2011

1. Plan Description

General

The Raytheon Bargaining Retirement Plan (the "Plan") was established on December 18, 1997 to provide retirement benefits to eligible employees in represented units as part of Raytheon Company's (the "Company") merger with the Defense Business of Hughes Electronics on December 17, 1997. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). A proportionate allocation of the liabilities of the preexisting Hughes Electronics Bargaining Retirement Plan (the "Hughes Plan") was transferred to the Plan at that time. Effective December 31, 2002, the Pension and Retirement Plan Local 6-0254 of Paper Allied-Industrial Energy International Union (PACE "Local 6-0254 Plan") was merged into the Raytheon Bargaining Retirement Plan. Investments are held in the Raytheon Master Pension Trust ("Master Trust").

Benefits, Eligibility and Vesting

The Plan is a defined benefit plan covering certain employees of the Company. The Plan provides specified benefits to be paid from the net assets available for benefits. Each employee who was a participant in the Hughes Plan on December 17, 1997, continued as a participant in the Plan with all prior service maintained. Other represented employees working in a bargaining unit in the defense business formerly operated by Hughes Electronics generally become eligible following completion of a year of service. The level of benefits depends upon the status of each participant as either in the contributory portion or the noncontributory portion of the Plan.

Benefits are based principally upon years of service and compensation. Annual earnings in excess of the limit provided for that year by Section 401(a) (17) of the Internal Revenue Code, are not used in determining benefits under the Plan.

Effective January 1, 2007, employees who are either hired or rehired (after the period of eligible recall) are not eligible to participate in the Plan, subject to applicable collective bargaining agreements. In addition, former employees who are rehired on or after March 1, 2007 and have received or are receiving payment from a Company-sponsored pension plan are not eligible to participate in the Plan, subject to applicable collective bargaining agreements.

Non-Contributory Benefit Structure

A bargaining employee hired or rehired by Hughes or Raytheon after the date specified by the applicable collective bargaining unit (all of which were by the end of 1991) participate in the non-contributory benefit structure.

After completing 5 years of service under the Plan, participants are entitled to annual pension benefits beginning at their Social Security Retirement Date based upon a percentage of their final average earnings multiplied by their years of service. In addition, certain unions are provided a minimum guarantee benefit based upon years of service. The non-contributory portion of the plan provides for normal retirement, early retirement, deferred vested and death benefits. The standard form of retirement benefit to unmarried participants is a monthly payment beginning the month following retirement and continuing until death. The standard form of benefit to married participants is a reduced monthly payment for the participant's life and one-half of that payment for the life of the participant's surviving spouse. Other optional forms of benefits are also available including a 10 Year Certain and Continuous Benefit, a 10 or 15 Year Period Certain Benefit, and 66 2/3%, 75% or 100% Contingent Annuity.

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2012 and 2011

Contributory Benefit Structure

A bargaining employee hired or rehired by Hughes before the applicable bargaining unit switched to the non-contributing benefit structure is eligible to participate in the contributory benefit structure. All bargaining units switched to the non-contributing benefit structure before 1992. Employees, who are eligible to participate and choose to do so, contribute 3% of their pay to the Plan.

After completing 5 years of service as a Hughes or Raytheon employee, a participant in the contributory benefit structure is entitled to annual pension benefits beginning at their normal retirement date based upon the greater of three formulas (a career average formula, a minimum benefit formula and a final average compensation formula). The pension under the contributory benefit is adjusted annually to reflect changes in the cost of living (maximum increase or decrease of 4% per year). The contributory portion of the plan provides for normal retirement, early retirement, deferred vested and death benefits. The early retirement pension is unreduced for a participant who is at least 55 at termination and whose age plus continuous service (at termination) is at least 75. The standard form of retirement benefit to unmarried participants is a monthly payment beginning the month following retirement and continuing until death. The standard form of benefit to married participants is a reduced monthly payment for the participant's life and one-half of that payment for the life of the participant's surviving spouse (or same sex domestic partner, if appropriate forms have been filed with the Raytheon Benefit Center). Other optional forms of benefits are also available including a 5, 10 or 15 Year Certain and Continuous Benefit, a 5, 10 or 15 Year Period Certain Benefit, and 66 2/3%, 75%, or 100% Contingent Annuity.

Contributions

The Company makes contributions to the Plan to ensure assets are sufficient to pay the benefits of the Plan. Participants in the contributory portion of the Plan, except those on inactive status, are required to contribute to the Plan.

The above description of the Plan is for general information purposes only. In addition, participants should refer to the Summary Plan Description or the Plan document for more complete information.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is stated at fair value. Net investment income/ (loss) from the Master Trust is allocated proportionately on a monthly basis based on the Plan's interest in the Master Trust. See Note 5 for additional information.

Contributions

Employer contributions are funded and recorded as determined by actuarial computation. Participants in the contributory portion of the Plan contribute 3% of pay as defined under the Plan. See Note 4 for additional information.

Benefit Payments

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan is administered by the Plan Administrator appointed by the Company's Senior Vice President of Human Resources. All expenses of the Plan, which primarily consist of professional and administrative fees, are paid by the Plan. Expenses specifically related to the Plan are included in the Statements of Changes in Net Assets Available for Benefits under "Administrative expenses." Additionally, expenses paid directly by the Master Trust, which primarily consist of investment management fees, are included in the Statements of Changes in Net Assets Available for Benefits under "Raytheon Master Pension Trust investment income/ (loss)."

Use of Estimates

The Plan's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and require the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Reclassifications

Certain prior year amounts of the Master Trust (see Note 5) have been reclassified to conform to the current year's presentation.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standard Board ("FASB") issued ASU No. 2011-4, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The amendments in this update result in common fair value measurements and disclosure requirements in U.S. Generally Accepted Accounting Principles ("GAAP") and International Financial Reporting Standards. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Some of the amendments clarify FASB's intent about the application of existing fair value measurements, while other amendments change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The plan's financial statements reflect the adoption of this accounting standard.

In December 2011, the FASB issued ASU No. 2011-11, *Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities* that requires additional information regarding financial instruments and derivatives instruments that are offset or subject to an enforceable master netting arrangement or similar agreement. The amendment is effective for the Plan on January 1, 2013. Management is currently evaluating the impact ASU No. 2011-11 will have on the Plan's financial statements.

3. Actuarial Present Value of Accumulated Pension Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) active employees or their beneficiaries. The level of benefits depends upon the status of each participant as either in the contributory portion or the noncontributory portion of the Plan. Benefits are based principally upon years of service and compensation. Benefits payable under all circumstances - retirement, termination of employment and death - are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Company's consulting actuary, Mercer, and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for retirement, death or withdrawal) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of November 30, 2011 and 2010 are as follows:

Assumed rate of return on investments for accumulated benefits	8.75% as of November 30, 2011 8.50% as of November 30, 2010
Mortality Basis	Section 430(h)(3) prescribed separate static annuitant and non annuitant mortality tables for PPA projected with mortality improvement to the valuation year plus 7 and 15 years based on scale AA
Retirement	Several rates, varying by age, from 55 to 70
Post-retirement cost-of-living adjustment	2.5% for contributory participants

Assumption Changes

There have been changes in the actuarial assumptions since November 30, 2010, the last valuation of the Plan, as follows:

- The assumed rate of return increased from 8.50% to 8.75%.
- Actuarial equivalence for Certain Only form of payment is based on either:
 - 1) Pension Benefit Guaranty Corporation (the “PBGC”) interest rate of 1.50% for 2012, 2.25% for 2013 and 3.00% thereafter (1.75% for 2011, 2.50% for 2012 and 3.20% thereafter in prior valuation) and 1971 Group Annuity Mortality table (blended 80% males, 20% females) or
 - 2) Segmented interest rates of 4.5% for 5 years, 5.5% for the next 15 years and 6.0% thereafter and PPA 2011 mortality table projected to 2021 (blended 50% males, 50% females), whichever yields a larger Certain Only payment.
- The form of payment for Contributing participants was updated from 20% Single Life and 80% 5-year Certain Only to 10% Single Life and 90% 5-year Certain Only for 2011 and 20% Single Life and 80% 5-year Certain Only for 2012 and later.

Plan Changes

- Effective July 1, 2011, the pension minimum guarantee for East Local 1553 employees increased from \$34 to \$39 per month per year of service.
- Effective February 19, 2011, the pension minimum guarantee for IAM 933 Firefighters employees increased from \$32 to \$36 per month per year of service.

As of November 30, 2011, the most recent valuation date, the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits

Vested benefits	
Participants receiving benefits	\$ 209,147,704
Participants with deferred benefits	40,996,106
Active participants	<u>168,484,321</u>
Total vested benefits	418,628,131
Nonvested benefits	<u>61,133,727</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 479,761,858</u></u>

The following is an analysis of changes in the present value of accumulated plan benefits:

Actuarial present value of accumulated plan benefits as of November 30, 2010	\$473,411,291
Benefits accumulated and non-investment (gains)/losses	23,642,074
Increase for interest due to decrease in discount period	37,642,629
Benefits paid	(56,412,613)
Change in actuarial assumptions	1,324,577
Change in plan provisions	153,900
Actuarial present value of accumulated plan benefits at November 30, 2011	<u>\$479,761,858</u>

Effective January 1, 2012, the pension minimum guarantee for IBEW Local 2295 employees increased from \$32 to \$33 per month per year of service and will increase by \$1 for each year, with an ultimate rate of \$35 per month per year of service on or after January 1, 2014.

Effective January 1, 2013, the pension minimum guarantee for IAM 933 P&M non-contributory employees will increase from \$37 to \$40 per month per year of service.

These changes have not been reflected in the November 30, 2011 actuarial present value of accumulated plan benefits. These changes do not have a material impact on the future obligations of the Plan.

4. Funding Policy

The employer's contributions are actuarially determined to fund the Plan's current normal costs on a current basis and to generally fund the existing unfunded liability on account of qualified service prior to the valuation date in accordance with the amortization schedules prescribed by ERISA minimum funding requirements (as amended by the Pension Protection Act). At the Company's discretion, and to the extent allowable under maximum tax deductibility regulations, contributions above the ERISA minimum requirements may be made to the Plan. Contributions for the year ending November 30, 2011 and 2010 met the minimum funding requirements of ERISA.

Participants, who choose the option to participate in the Contributory Benefit feature of the plan, contribute 3% of their eligible compensation. Employee contributions are placed into a trust fund. If a participant does not earn a benefit under the Plan, any contributions made to the Plan, plus interest will be returned to the participant or designated beneficiary.

Participants are always vested in their contributions and interest in the Plan.

5. Master Trust

Summary Financial Information

The Plan's assets are held in the Master Trust, which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. The assets of the Master Trust are held by the Trustee. The Investment Committee, appointed by the Chairman and CEO of the Company, periodically reviews the asset allocation and performance of the investments held in the Master Trust. The investment policy, as approved by the Investment Committee, permits asset diversification to include a combination of cash and cash equivalents, publicly traded equity securities, private equity funds, fixed-income securities, private real estate funds, commingled funds and other investments such as insurance contracts, derivatives and repurchase agreements.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Fair Value Measurements

The accounting standard for fair value measurements provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. The accounting standard established a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required as well as the assets and liabilities that we value using those levels of inputs.

- Level 1:** Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2:** Observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs which are observable or have been corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3:** Unobservable inputs supported by little or no market activity that are significant to the fair value of the assets or liabilities.

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. In evaluating the level at which the Plan's commingled funds have been classified within this hierarchy, several factors have been assessed including, but not limited to price transparency, the ability to redeem these investments at net asset value at the measurement date, and the existence or absence of certain restrictions at the measurement date. See valuation policy section for further information.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the years ended November 30, 2012 and November 30, 2011, there were no transfers in or out of Levels 1, 2 or 3.

Change in unrealized loss of (\$1,677,360) relates to investment assets held by the Plan at November 30, 2011.

Level 3 investments, which are mainly commingled funds, private equity funds and private real estate funds, are estimated at fair market value which primarily utilizes net asset values reported by the investment manager or fund manager. Members of the Coordinating Investment Fiduciary's team and the Chief Accounting Officer's team review independently appraised values, audited financial statements and other pricing information to evaluate the net asset values. Further, for the very limited group of securities and other assets that do not utilize net asset values and for which market quotations are not readily available, additional information is obtained from the investment manager and evaluated to ensure the reported values reflect fair value. This group represents less than 1% of the Master Trust assets. See Valuation Policy section for further information.

Valuation Policy

The Plan's interest in the Master Trust is stated at fair value. The Trustee values Master Trust investments as follows:

Cash and cash equivalents are valued at amortized cost, which approximates fair value.

Investments in equity securities (common and preferred) and equity securities sold short, if any, are valued at the exchange traded closing price.

Investments in fixed income securities (U.S. Government, domestic and foreign bonds, asset backed securities and term loans) are valued by a pricing service which determines valuations for normal institutional-size trading units of such securities using methods based upon market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders, or at fair value as determined in good faith by the trustee of the Master Trust and management.

Investments denominated in foreign currencies are translated into U.S. Dollars using the last reported exchange rate.

Commingled funds, registered investment companies, private equity funds and private real estate funds are generally valued at their last reported net asset value. Certain commingled funds, private equity funds and private real estate funds are recorded at fair market value which considers, but is not limited to fair values reported by the investment advisor, audited financial statements, and independently appraised values. In the event that audited financial statements for these investments are not available in time to prepare our financial statements or management believes the value reported by the investment advisor does not accurately reflect fair value due to an event in the market place, such as a prime-broker filing for bankruptcy, management will adjust the reported value to fair value based upon information provided by the investment manager or independent valuation experts.

Unallocated insurance contracts are valued at their contract price which approximates fair value.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value.

Valuation policies for derivative investments are disclosed in the Derivative Policy paragraph.

Investment Income (Loss)

The Trustee maintains separate records of each plan's proportionate share in the Master Trust's investment accounts. The Plan's share of investment income (loss) and net appreciation (depreciation) in the fair value of investments of the Master Trust is included in the Statements of Changes in Net Assets Available for Benefits as Master Trust investment income (loss). The net appreciation (depreciation) in the fair value of investments consists of the realized gains or losses and the change in unrealized appreciation (depreciation) on those investments.

Under the Master Trust Agreement, each plan's assets are jointly invested. The Plan uses the unit participation method to calculate the Plan's interest in the Master Trust. Under this method, contributions made to and benefits paid from the Master Trust result in increases or decreases in units of participation. All Master Trust income or loss results in a change in unit value.

Dividends are recorded on the ex-dividend date and interest income is accrued as earned. All security transactions are recorded on the trade date. Premiums and discounts on debt securities are amortized to maturity. Gains or losses on sales of securities are based on average cost.

Defined Benefit / Defined Contribution Master Trust

The Defined Benefit/ Defined Contribution Master Trust (the "DB/DC Master Trust") is a master trust established for the investment of assets of the Company sponsored defined benefit and defined contribution plans. The assets of the DB/DC Master Trust are held by the Trustee. Under the DB/DC Master Trust Agreement, the assets of the Master Trust and the Company sponsored defined contribution plan, the Raytheon Savings and Investment Plan, (the "Defined Contribution Plan"), are jointly invested. The unit participation method is used to calculate the Master Trust's interest in the DB/DC Master Trust. As of November 30, 2010, net assets held by the Master Trust were approximately 0.2%, and consisted primarily of corporate stock-common as well as interest bearing cash, corporate stock-preferred and cash. The DB/DC Master Trust was closed effective March 31, 2011.

Investments Sold Short

As of November 30, 2012 and 2011, the Master Trust was not invested in any securities sold short.

The Master Trust may sell a security it does not own in anticipation of a decline in the fair value of that security or as part of its core investment strategy. The Master Trust, in "selling short," sells borrowed securities that must at some date be repurchased and returned to the lender. The risk associated with this practice is that if the market value of the securities sold short increases, the Master Trust may realize losses upon repurchase at prices which may exceed the proceeds received from the sale of the security. Further, in unusual circumstances, the Master Trust may be unable to purchase securities to close its short positions. The Master Trust is obligated to pay a prime broker interest based on the value of the securities sold short and any dividends declared on the securities sold short. Such fees and dividends are recorded on the accrual basis as an expense to the Master Trust.

Repurchase Agreements

As of November 30, 2012 and 2011, the Master Trust was not invested in any repurchase agreements.

The Master Trust may lend extra cash through the use of repurchase agreements whereby the Master Trust agrees to purchase and automatically agrees to sell certain securities at a mutually agreed-upon date and price. At the same time, the counterparty to this agreement agrees to pledge some of its securities. The underlying collateral securities consist of securities in which the Master Trust is permitted to invest.

Securities Lending Program

The Master Trust directly participates in a securities lending program with the Trustee. The program allows the Trustee to loan securities, which are assets of the Master Trust, to approved brokers (the "Borrowers"). The Trustee requires Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan. The collateral requires 102% of the fair value of U.S. securities borrowed and 105% for non-U.S. securities borrowed. The Master Trust bears the risk of loss with respect to the unfavorable change in fair value of the invested cash collateral. However, the Borrower bears the risk of loss related to the decrease in the fair value of the securities collateral and, therefore, will have to deliver additional securities to maintain the required collateral. In the event of default by the Borrower, the Trustee shall indemnify the Master Trust by purchasing replacement securities equal to the number of unreturned loaned securities or, if replacement securities are not able to be purchased, the Trustee shall credit the Master Trust for the market value of the unreturned securities. In each case, the Trustee would apply the proceeds from the collateral for such a loan to make the Master Trust whole.

The market value of the securities on loan to Borrowers at November 30, 2012 and 2011 was \$14,442,308 and \$69,705,120, respectively. The market value of the securities on loan decreased and is expected to continue to decrease as the Master Trust exits the program. Cash collateral obligations of \$14,992,916 and \$71,537,873 were received for securities on loan at November 30, 2012 and 2011, respectively. Cash collateral was invested in a separately maintained and managed cash collateral investment account and had a fair market value of \$11,357,838 and \$63,574,362 at November 30, 2012 and 2011, respectively. At November 30, 2012, investments include \$4,518,039 invested in overnight repurchase agreements and \$6,837,044 invested in asset backed securities. At November 30, 2011, investments include \$6,634,541 invested in overnight repurchase agreements and \$56,942,647 invested in asset backed securities.

A portion of the income generated upon investment of cash collateral is remitted to the Borrowers, and the remainder is allocated between the Master Trust and the Trustee in its capacity as a security agent. Securities lending income allocated to the Master Trust amounted to \$638,306 and \$766,407 as of November 30, 2012 and 2011, respectively. Security lending income allocated to the Trustee amounted to \$161,470 and \$194,962 as of November 30, 2012 and 2011, respectively.

Derivative Policy

The Master Trust enters into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to: (1) hedge a portion of the Master Trust's portfolio to limit or minimize exposure to certain risks, (2) gain exposure to a market more rapidly or less expensively than could be accomplished through the use of the cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio. The Master Trust may utilize both exchange traded investment instruments such as equity and future contracts, options, forward contracts and swaps. Select major financial institutions are used in derivatives transactions. When engaging in over the counter derivatives and forward foreign exchange contracts, there is exposure to credit loss in the event of nonperformance by the counterparties to these transactions. The Master Trust manages this exposure through credit approvals, limits, monitoring procedures, and to the extent possible, by restricting the period over which unpaid balances are allowed to accumulate. Procedures are in place to regularly monitor and report market and counterparty credit risks associated with these instruments. The Master Trust does not anticipate nonperformance by counterparties to these contracts.

Notes to Financial Statements

November 30, 2012 and 2011

The following is a summary of the significant accounting policies associated with the Master Trust's use of derivatives:

Forward Foreign Currency Exchange Contracts

A forward foreign currency exchange contract ("forward currency contract") is a commitment to purchase or sell a foreign currency at a future settlement date and at a negotiated rate.

Forward currency contracts are utilized to hedge a portion of the currency exposure that results from the Master Trust's holdings of equity and fixed income securities denominated in foreign currencies.

Forward currency contracts are marked-to-market at the prevailing forward exchange rate of the underlying currencies and the difference between contract value and market value is recorded as unrealized appreciation (depreciation) in Master Trust net assets. When the forward exchange contract is closed, the Master Trust transfers the unrealized appreciation (depreciation) to a realized gain (loss) equal to the change in the value of the forward exchange contract when it was opened and the value at the time it was closed or offset. Sales and purchases of forward currency contracts having the same settlement date and broker are offset and any gain (loss) is realized on the date of offset.

Certain risks may arise upon entering into a forward currency contract from the potential inability of counterparties to meet the terms of their contracts. Additionally, when utilizing forward currency contracts to hedge, the Master Trust gives up the opportunity to profit from favorable exchange rate movements during the term of the contract.

Future Contracts

A future contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated future exchange.

The Master Trust may use equity index, fixed income, cash and cash equivalents and commodities future contracts to manage exposure to the market. Buying futures tends to increase the Master Trust's exposure to the underlying instrument. Selling futures tends to decrease the Master Trust's exposure to the underlying instrument held, or hedge the fair value of other fund investments.

Future contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Upon entering into a future contract, the Master Trust is required to deposit either in cash or securities an amount equal to a certain percentage of the nominal value of the contract ("initial margin"). Pursuant to the future contract, the Master Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the future contract. Such receipts or payments are recorded as "margin flows," and the accumulated balances resulting from those flows are represented on the balance sheet as "cash held at broker." The Master Trust will also record an unrealized gain or loss on futures, which is calculated as the difference between the notional cost and the notional market value of open futures contracts.

Future contracts involve, to varying degrees, credit and market risks. The Master Trust enters into future contracts on exchanges where the exchange acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange. The daily settlement on the future contracts serves to greatly reduce credit risk. Losses in value may arise from changes in the value of the underlying instrument or if there is an illiquid secondary market for the contracts. In addition, there is the risk that there may not be an exact correlation between a future contract and the underlying index or security.

At November 30, 2012, U.S. Government Bonds with a par value of \$700,000 (\$700,512 fair value) were pledged as collateral for open equity and fixed income future positions. These bonds are restricted from trading until the future positions for which they are pledged as collateral are settled. A cash balance of \$2,456,599 was pledged to cover margin requirements for open future contracts.

At November 30, 2011, no securities were pledged as collateral or restricted from trading. A cash balance of \$6,314,750 was pledged to cover margin requirements for open future contracts.

Options

The Master Trust may invest in option contracts. An option contract is a contract in which the writer of the option grants the buyer of the option the right to purchase from ("call option"), or sell to ("put option"), the writer a designated instrument at a specified price within a specified period of time. Certain options, including options on indices, will require cash settlement by the Master Trust if the option is exercised. The Master Trust may enter into put or call option contracts in order to: hedge against potential adverse price movements in the value of the portfolio assets; as a temporary substitute for selling selected investments; to lock in the purchase price of a security or currency which it expects to purchase in the near future; as a temporary substitute for the purchase of selected investments; and to enhance potential gain.

When the Master Trust purchases or writes an option, an amount equal to the premium paid or received by the Master Trust is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. Options purchased or written are valued at the last sale price or, in the absence of a sale, the mean between the closing bid and asked prices or at the most recent asked price (bid for purchased options) if no bid and asked price are available. Over-the-counter purchased or written options are valued using dealer supplied quotations. Gain and loss is recognized when the option contract expires or is closed.

If the Master Trust writes a covered call option, the Master Trust foregoes, in exchange for the premium, the opportunity to profit during the option period from an increase in the value of the underlying security above the exercise price. If the Master Trust writes a put option, it accepts the risk of a decline in the value of the underlying security below the exercise price. Over-the-counter options have a risk of the potential inability of counterparties to meet the terms of their contracts. The Master Trust's maximum exposure to purchased options is limited to the premium initially paid. In addition, certain risks may arise upon entering into option contracts prior to the expiration date and that a change in value of the option contract may not correlate exactly with changes in the value of the securities or currencies hedged.

As of November 30, 2011, the Master Trust did not have any options.

A summary of opened purchased equity options as of November 30, 2012 is presented below:

Total purchased equity options	<u>388</u>	<u>\$ 127,485</u>

Swaps

As of November 30, 2012 and 2011, the Master Trust was not invested in any swaps.

The Master Trust may invest in interest rate swap contracts. The Master Trust uses interest rate swap contracts to manage its exposure to interest rates. Interest rate swap contracts entered into by the Master Trust typically represent the exchange by the Master Trust with a counterparty of a commitment to make variable rate and fixed rate payments with respect to a notional amount of principal. Such contracts may have a term of one to ten years, but typically require periodic interim settlement in cash, at which time both the value of the index or security and the specified interest rate are reset for the next settlement period. During the period that the swap contract is open, the contract is marked-to-market as the net amount due to or from the Plan in accordance with the terms of the contract based on the closing level of the relevant index or security and interest accrual through the valuation date. Changes in the value of the swap contract are recorded as unrealized gains or losses, while periodic cash settlements are recorded as realized gains or losses.

The Master Trust may invest in credit default swaps. Credit default swap contracts entered into by the Master Trust typically represent the exchange by the Master Trust with a counterparty of a commitment to provide a level of credit protection for a commitment to receive interest at a fixed rate based on the potential risk of default of the relevant underlying issuer. Providing credit protection to a counterparty tends to increase a Master Trust's exposure to the underlying instrument. Receiving credit protection from a counterparty tends to decrease a Master Trust's exposure to the underlying instrument held by a Master Trust, or hedge the fair value of other Master Trust investments. Such contracts may have a term of one to ten years, but typically require periodic interim settlement in cash. During the period that the credit default swap contract is open, the contract is marked-to-market in accordance with the terms of the contract based on the current interest rate spreads and credit risk of the referenced obligation of the underlying issuer and interest accrual through valuation date. Changes in the value of the credit default swap are recorded as unrealized gains or losses, while periodic cash settlements are recorded as realized gains or losses.

Entering into a swap contract involves, to varying degrees, elements of credit, market and interest rate risk in excess of the amounts reported in the statement of net assets available for benefits. Notional principal amounts are used to express the extent of involvement in the transactions, but are not delivered under the contract. Accordingly, credit risk is limited to any amounts receivable from the counterparty. To reduce credit risk from potential counterparty default, the Master Trust enters into swap contracts with counterparties whose creditworthiness has been approved by the trustee of the Trust. The Master Trust bears the market risk arising from any change in index or security values or interest rates.

6. Termination Policies

The Company has not expressed any intent to terminate the Plan or discontinue its contributions. However, in the event the Plan is discontinued:

- (a) The assets comprising the Plan, including the net income/ (loss) of the Plan shall be revalued at market by the Trustee.
- (b) The Plan provides that the net assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.
- (c) To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation (the "PBGC") to participants, up to specified limitations, as described in ERISA.

Whether all participants receive their full or partial benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

The Company may terminate the Plan in whole or in part at any time. This summary of termination priorities is provided for general information purposes only. Participants should refer to the Plan document for more information.

7. Party-in-Interest Transactions

Certain investments within the Master Trust were advised by or affiliated with The Bank of New York Mellon ("BNY Mellon"), the Trustee and Custodian, and related party. Transactions with BNY Mellon qualify as party-in-interest transactions. For the years ended November 30, 2012 and 2011, \$73,674 and \$78,157 of expenses paid to BNY Mellon, which were specifically related to the Plan, were incurred and included in "Administrative expenses." In addition, the Plan was allocated approximately \$196,458 and \$324,907 of expenses paid directly by the Master Trust to BNY Mellon and are included in "Raytheon Master Pension Trust investment income/ (loss)."

As of November 30, 2012 and 2011, \$26,163 and \$17,897 of expenses to be paid to BNY Mellon were accrued, including the Plan's allocation of Master Trust accrued expenses to be paid to BNY Mellon.

8. Tax Status

The Internal Revenue Service (the “IRS”) has determined and informed the Company by letter dated July 8, 2003, that the design of the Plan meets the requirements for qualification under Code section 401(a), on which the tax exemption of the Trust under Code section 501(a) is based. The Plan has been amended since receiving the determination letter. The Company, on behalf of the Plan, applied for a new determination letter on January 31, 2011. The Plan Administrator and the Company’s benefits counsel believe that the current design and operation of the Plan are consistent with continued qualification of the Plan and exemption of the Trust in the context of applicable IRS procedures.

The Plan adopted the provisions of uncertain tax positions that provide criteria for the recognition, measurement, presentations and disclosure of uncertain tax positions beginning January 1, 2009. The Plan may from time to time hold investments that give rise to certain tax liabilities. Based upon management’s assessment, the Plan has not recognized any tax liabilities at November 30, 2012 and 2011, respectively. The Plan is subject to examinations by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

9. Risks and Uncertainties

The Plan financial statements are based on the application of U.S. Generally Accepted Accounting Principles (GAAP), which require the Plan to make estimates and assumptions about future events that affect the amounts reported in financial statements and the accompanying notes.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. The investments of the Plan, which are held in the Master Trust, are exposed to various risks, such as interest rate, market and credit risks. See Note 5 for additional information with respect to investment risk.

10. Subsequent Events

The Plan has evaluated subsequent events and transactions subsequent to November 30, 2012 through the date the Plan’s financial statements were available to be issued, September 13, 2013.
