Wilson 401(k) Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Wilson 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General and Eligibility

The Plan is a defined contribution plan of Wilson International, Inc., the General Partner of Wilson Industries, L.P. ("Wilson"). Wilson International, Inc., a wholly-owned subsidiary of Smith International, Inc. ("Smith"), sponsors the Plan. On August 27, 2010 (the "acquisition date"), Schlumberger Limited ("Schlumberger") acquired all of the outstanding shares of Smith and assumed sponsorship of all plans sponsored by Smith and its subsidiaries. The Plan was operated for the sole benefit of the employees of Wilson and their beneficiaries and was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was available to all employees of Wilson who met certain eligibility requirements under the Plan. Participation in the Plan commenced upon the later of the date the employee completed 30 days of continuous service and the date on which the employee attained the age of 18.

Effective April 10, 2012, Wilson International, Inc. and its remaining subsidiaries, including Wilson Industries, L.P., were sold to National Oilwell Varco. As a result of the sale, National Oilwell Varco (the "Company") assumed sponsorship of the Plan.

Effective November 2, 2012, the Plan was merged with the National Oilwell Varco, Inc. 401(k) and Retirement Savings Plan (the "NOV Plan"). As a result, net assets amounting to \$109,380,968 were transferred to the NOV Plan.

(b) Administration and Trustee

Wilson was the Plan administrator as defined under ERISA. The Plan's operations were monitored by an administrative committee (the "Administrative Committee") which is comprised of officers and employees of the Plan sponsor. Vanguard Fiduciary Trust Company ("Vanguard Trust" or the "Trustee") was the Trustee of all investments held by the Plan.

(c) Contributions

The Plan allowed participants to contribute a percentage of their compensation, as defined by the Plan, subject to certain limitations of the Internal Revenue Code of 1986, as amended (the "Code"). Employees who were eligible to participate in the Plan and who did not affirmatively elect to 1) not make elective contributions or 2) defer another designated percentage as an elective contribution, were deemed to have made an automatic elective contribution of 3% of base compensation. Wilson made matching contributions to each participant's account ranging from ¼% to 3% of qualified compensation. In addition, Wilson provided discretionary supplemental contributions or discretionary profit sharing contributions to participants who were employed by Wilson on December 31. For the year ended December 31, 2011, the Company made profit-sharing contributions to the Plan in the amount of \$3,423,970.

Wilson 401(k) Retirement Plan

Notes to Financial Statements

(d) Participant Accounts

Individual accounts were maintained for each Plan participant. Each participant's account was credited with the participant's contribution, the Company's matching contribution, participant forfeitures and Plan earnings, and charged with withdrawals, allocation of Plan losses and administrative expenses. Allocations were based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant was entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants were fully vested in their contributions and related earnings and vested in Company contributions and related earnings at the rate of 20% for each year of service. Upon death, termination of employment by reason of total or permanent disability or retirement from Wilson upon reaching the normal retirement age of 65, participants became fully vested in Company contributions and related earnings.

The Plan had certain provisions that provide for service credit for vesting and eligibility purposes for all employees who directly transfer employment between Smith, M-I L.L.C. (a majority-owned subsidiary of Smith) and Wilson.

(f) Investment Options

Participants had the option of investing their contributions and Wilson's matching and discretionary contributions among one or all of the available investments, including a variety of mutual funds and a common collective trust ("CCT") offered by the Vanguard Group of Investment Companies (the "Vanguard Group"). Prior to the acquisition of Smith, participants had the option to invest contributions or transfer balances into the Smith Common Stock Fund. At the acquisition date, each share of Smith common stock held in the Smith Common Stock Fund was converted into 0.6966 shares of Schlumberger common stock held within the Schlumberger Common Stock Fund. Participants could transfer some or all of the balances out of any fund into one or any combination of the other funds at any time, subject to certain limitations. Subsequent to August 27, 2010, participants ceased to have the option of investing contributions or transferring balances into the Schlumberger Common Stock Fund.

(g) Notes Receivable From Participants

Participants could borrow from their accounts provided that they had no more than two loans outstanding at any time, subject to terms specified by the Plan document. The Plan permitted participants to borrow the lesser of \$50,000 or 50% of their vested account balances in the Plan. These loans bore interest at prime plus 1% and were repaid through payroll withholdings over a period not to exceed five years, except for qualifying loans to purchase a primary residence which could be repaid over an extended period.

(h) Distributions, Withdrawals and Forfeitures

A participant could elect to receive benefit payments through any one of the several methods provided by the Plan upon termination or retirement. The Plan also provided for hardship distributions to participants with immediate and significant financial needs, subject to authorization by Plan management and limited to the participant's vested account balance.

In the event that a participant terminated employment with Wilson, the participant's vested balances were distributed in accordance with the Plan's distribution provisions including, when applicable, the participant's distribution election. In accordance with the Plan document, forfeitures of terminated participants' nonvested accounts were first made available to reinstate previously forfeited participant accounts. Any remaining forfeitures were used to reduce employer

contributions and pay Plan expenses. During 2012 and 2011, forfeitures of \$218,606 and \$258,932, respectively, were used to reduce Wilson's contributions and pay Plan expenses. Forfeitures available at December 31, 2011 totaled \$21,750.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in CCT investments held by the Plan. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts through CCTs. The statements of net assets available for benefits present the fair value of the investment in the CCTs as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. Activity related to fully benefit-responsive investment contracts is reported on a contract value basis in the statements of changes in net assets available for benefits.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Risks and Uncertainties

The Plan provided for various investments in mutual funds, a CCT and Schlumberger common stock. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values and concentrations of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

(d) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Wilson 401(k) Retirement Plan

Notes to Financial Statements

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. See Note 5 for the disclosures required by FASB ASC 820 with regard to Plan investments.

In determining the fair value of investments, the Plan uses various inputs and valuation methodologies which are described in Note 5. There have been no significant changes in the inputs or valuation methodologies used at November 2, 2012 and December 31, 2011.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses on investments sold and unrealized gains or losses on investments held.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and the CCT are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

(e) Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

(f) Administrative Expenses

The Plan is responsible for its administrative expenses. The Company may elect to pay administrative expenses from the forfeitures of the Plan or pay expenses on behalf of the Plan.

Notes to Financial Statements

(g) *Benefits Paid to Participants*

Benefits paid to participants are recorded upon distribution. There were no benefits payable to participants as of November 2, 2012 or December 31, 2011.

(h) *New Accounting Pronouncement*

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs". ASU 2011-04 amended ASC 820 to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards ("IFRSs"). Some of the amendments clarify the application of existing fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of the provisions of ASU 2011-04 did not have an impact on the Plan's financial statements.

Wilson 401(k) Retirement Plan

Notes to Financial Statements

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2011:

- *Mutual funds* - Shares of mutual funds are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end as reported by the fund. Mutual funds held by the Plan are deemed to be actively traded. The money market mutual fund is stated at amortized cost, which approximates fair value.
- *Common collective trust* - The CCT is stated at fair value and then adjusted to contract value as described in Note 6. The fair value of the CCT is derived from the ending NAV of the trust as calculated on a daily basis.
- *Common stock fund* - The common stock fund is an employer unitized stock fund. The fund consists of Schlumberger common stock and a short-term cash component that provides liquidity for daily trading. The unit value of the common stock fund represents the sum of (i) the year-end unaudited quoted market price of actively traded common stock held by the common stock fund plus (ii) the uninvested cash position divided by the total number of member units.
- *Brokerage option* - Brokerage option investments consist of common stock and a mutual fund which are valued at unadjusted quoted market prices.

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the year ended December 31, 2011, there were no transfers in or out of Levels 1, 2 or 3.

The following table sets forth a summary of the Level 2 investments held by the Plan reported at NAV at December 31, 2011:

	Fair Value	Unfunded Commitments at December 31, 2011	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
	2011	2011		
Vanguard Retirement Savings Trust ^(a)	\$ 5,447,063	\$ -	Immediate	None
Schlumberger Limited Common Stock Fund ^(b)	5,667,785	-	Immediate	None
Total	\$11,114,848	\$ -		

^(a) The Vanguard Retirement Savings Trust seeks stability of principal and a high level of current income consistent with a 2-3 year average maturity. The trust is a tax-exempt collective trust invested primarily in investment contracts issued by insurance companies.

^(b) Stock fund comprised of Schlumberger common stock and uninvested cash.

6. Vanguard Retirement Savings Trust

The Vanguard Retirement Savings Trust (the "Fund") is a CCT sponsored by Vanguard Trust. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's constant NAV of \$1 per unit. Distribution to the Fund's unit holders is declared

Wilson 401(k) Retirement Plan

Notes to Financial Statements

daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable net asset value of \$1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. Certain events or restrictions would allow contract issuers to terminate the contracts and settle at other than contract value, such as (a) a change in the qualification status of participants, the employer or the Plan; (b) a breach of material obligations under the contract and misrepresentation by the contract holder, or (c) failure of the underlying portfolio to conform to pre-established investment guidelines. The Fund itself may be subject to circumstances that affect its ability to transact at contract value. Such circumstances include, but are not limited to, partial or legal termination of the Fund or a unitholder, tax disqualification of the Fund or unitholder, and certain Fund amendments if the contract issuers' consent is not obtained. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

The crediting interest rates were 1.82% and 2.68% at December 31, 2012 and 2011, respectively. The average yield for the period from January 1, 2012 to November 2, 2012 and for the year ended December 31, 2011 was 2.22% and 3.09%, respectively.

7. Federal Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated September 9, 2010, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the letter. The Plan received a letter dated March 2, 2012, stating that the Plan and related trust, as amended, were designed in accordance with the applicable regulations of the IRC. The Company and Plan management believes the Plan was designed and was operated in compliance with the applicable requirements of the IRC. Therefore, the Company and Plan management believe that the Plan is qualified and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of November 2, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Exempt Party-in-Interest Transactions

The Plan invested in shares of common stock of Schlumberger. As Schlumberger was the ultimate owner of the Plan sponsor for the period from January 1, 2011 to April 9, 2012, these transactions qualify as party-in-interest transactions. In addition, the Plan invested in shares of mutual funds and a CCT managed by the Vanguard Group, an affiliate of Vanguard Trust. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest

Wilson 401(k) Retirement Plan

Notes to Financial Statements

transactions under ERISA. Notes receivable from participants also qualify as exempt party-in-interest transactions.

The Plan held \$5,667,785 of common stock of Schlumberger, with a cost basis of \$3,493,788, at December 31, 2011. During the period from January 1, 2012 to November 2, 2012 and the year ended December 31, 2011, the Plan recorded dividend income of \$63,041 and \$86,677, respectively, from Schlumberger common stock.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2011:

December 31, 2011

Net assets available for benefits per financial statements	\$107,153,160
Add: Adjustment from fair value to contract value for fully benefit-responsive investment contracts	252,234
Net assets available for benefits per Form 5500	\$107,405,394

The following is a reconciliation of the increase in net assets available for benefits per the financial statements to Form 5500 for the period from January 1, 2012 to November 2, 2012:

Period from January 1, 2012 to November 2, 2012

Decrease in net assets available for benefits per financial statements	\$(107,153,160)
Prior year adjustment from fair value to contract value for fully benefit-responsive investment contracts	(252,234)
Net transfers of net assets to affiliated plans	109,004,895
Increase in net assets available for benefits per Form 5500	\$ 1,599,501

10. Net Transfers of Net Assets To/From Affiliated Plans

Net transfers of assets to/from plans of affiliated companies result from employment transfers of individual participants between the various affiliated companies, and transfers of participant accounts to the NOV Plan, as discussed in Note 1.

11. Subsequent Events

For the purposes of determining the effect of subsequent events on these financial statements, management has evaluated events through September 16, 2013, the date on which the financial statements were available to be issued.
