NOTE 1 - DESCRIPTION OF PLAN

The following description of the US LBM Holdings, LLC 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Originally effective February 1, 2010, the Plan is a defined contribution retirement savings plan which covers substantially all employees of US LBM Holdings, LLC ("the Company") who are age 18 or older and have met certain service requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may make pre-tax contributions to the Plan of up to 50% of eligible compensation. Participants may also contribute amounts representing distributions from other qualified plans. The Plan allows eligible participants to make catch-up contributions in accordance with IRS regulations. The Plan allows for discretionary Company matching contributions and/or non-elective Company contributions. There were no Company contributions during 2012. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution and plan earnings. Allocations are based on participant contributions, participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of vested service. Company contributions vest at the rate of 20% per year of service.

Notes Receivable from Participants: Participants may borrow from their fund accounts up to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms may range from 1 to 5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's accounts and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service, a participant may receive benefits totaling his or her vested interest in the form of a lump-sum payment or through installment payments. In the event of a qualified financial hardship, the plan administrator can allow a participant to withdraw an amount to the extent of the participant's immediate and heavy financial need with consideration of their vested account balance.

Death and Disability Benefits: If a participant dies before retirement, the full value of the participant's account will be distributed to the beneficiary. Participants who become totally and permanently disabled are entitled to receive full benefits.

Forfeitures: Forfeitures can be used to restore participant forfeitures, reduce Company contributions or offset plan expenses. There were no forfeitures used to offset plan expenses during December 31, 2012 or 2011.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Plan Transfers: Effective November 18, 2011, BEP Lyman, LLC became a participating employer of the Plan. During 2012, notes receivable from participants of approximately $70,000 transferred into the Plan from a plan sponsored by the former employer of the BEP Lyman, LLC employees.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's recordkeeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Valuation of Investments and Income Recognition: The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the period.

(Continued)

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by PNC Bank, NA the trustee of the Plan. This information has not been audited by independent accountants.

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31:

	2012	2011
Mutual funds		
T. Rowe Price Retirement 2020	$ 7,326,208	$ 4,641,338
T. Rowe Price Retirement 2030	8,205,016	6,382,689
T. Rowe Price Retirement 2040	4,594,691	3,905,635
Stable Value Fund		
PNC Investment Contract Fund (Contract value: 2012 - $3,102,648; 2011 - $2,572,831)	$ 3,211,946	$ 2,654,637

During 2012, the Plan's investments in mutual funds (including investments bought, sold and held during the period) appreciated in value by $3,208,463.

During 2012, the trustee reported that the Plan earned interest and dividend income on of $668,570.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Stable Value Fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of the fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund managers (level 2 inputs). The fund invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions with the objective of providing a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns. The net asset value of the fund is determined each business day by the trustee of the fund. Contributions to the fund may be made daily at the current net asset value and are considered as made immediately after the daily valuation. Withdrawals from the fund for benefit payments and participant transfers to noncompeting options to be paid to plan participants shall be made within 30 days after written notice has been received and are considered as made immediately after the next valuation date subsequent to approval of the fund's trustee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2012 Using

There were no significant transfers between Level 1 and Level 2 during 2011.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the rights of each participant shall be fully vested on the date of termination, and the participants will be entitled to receive the full benefit of their individual accounts.

NOTE 6 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

(Continued)

NOTE 7 - **PARTY-IN-INTEREST TRANSACTIONS**

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain Plan investments are units of participation in a collective trust managed by PNC Bank, NA.

PNC Bank, NA is the Plan's trustee and recordkeeper, and therefore, these transactions and the Plan's payment of trustee fees and recordkeeping fees to PNC Bank, NA qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011 to the Form 5500:
