Zilliant, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2012

1. Description of the Plan

The Zilliant, Inc. 401(k) Plan (the "Plan") is a defined contribution plan covering eligible employees of Zilliant, Inc. (the "Company). The Plan became effective September 1, 1999 and was amended and restated September 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All Plan assets are held by Reliance Trust Company. Complete information regarding the Plan is included in the Plan Agreement. Significant Plan provisions are summarized below.

Eligibility

All employees of the Company are eligible to participate in the Plan, as defined.

Contributions

Participants are allowed to defer a percentage of their Plan compensation, as defined, for the contribution period. Participants who have attained age 50 are eligible to make catch up contributions. Participants may also contribute amounts representing rollovers from other retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money-market fund and various equity and fixed-income mutual funds as investment options for participants.

The Company may make matching contributions to the Plan. The Company's matching contributions are discretionary and determined by the Company. The Company may also make discretionary profit sharing contributions. None were made in 2012. Contributions are subject to certain limitations.

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings. Plan earnings in each of these funds are allocated based on each employee's fund account balance relative to the aggregate of all employees' fund account balances. A participant is entitled to the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, Company matching contributions and earnings thereon.

Participant Loans

Participants are allowed to borrow a maximum amount of the lessor of 50% of the participant's vested amount or $50,000. The loans are collateralized by the vested balance in the participant's account, and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid through payroll deductions with equal installments made each pay period.

Payment of Benefits

Upon termination of service, a participant is entitled to receive an amount equal to the value of his or her account, payable in lump-sum form or in substantially equal installments. Distributions are subject to the applicable provisions of the Plan agreement.

2. Significant Accounting Policies

Method of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

2. Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash and cash equivalents may include cash and funds received prior to year end awaiting allocation to the appropriate investment option.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Subsequent Events

The Company evaluated events occurring between the end of the most recent fiscal year and August 28, 2013, the date the financial statements and supplemental schedule were available to be issued.

2. Significant Accounting Policies (continued)

Fair Value Measurements

In May 2011, the Financial Accounting Standards Board ("FASB") issued amendments to ASC Topic 820 under ASU 2011-04. The amendments represent the converged guidance of the FASB and the International Accounting Standards Board (the "Boards") on fair value measurement and resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term "fair value." The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. The amendments are to be applied prospectively and are effective for nonpublic entities for fiscal years beginning after December 15, 2011 and for public entities for annual reporting periods beginning after December 15, 2011.

Accounting for Participant Loans

Under the guidance required by FASB ASC 962, *Reporting Loans to Participants by Defined Contribution Pension Plans,* participant loans are classified as notes receivable from participants to the Plan on the Statement of Net Assets Available for Benefits for all years present, as the loans are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This standard eliminates the requirement to calculate fair values and present disclosures for these loans in accordance with FASB ASC 820. In addition, the ASU excludes these loans from the definition of financing receivables under FASB ASC 310-10-50-5B and 310-10-50-7B. The reporting classification of the participant loans does not affect the classification of these loans on the Form 5500. Participant loans are still reported as plan investments on Form 5500, Schedule H, line 1c(8). Because this standard does not result in a difference between total net assets reported in the Form 5500 and the plan's audited financial statements, there is no need for a reconciling note in the plan financial statements.

2. Significant Accounting Policies (continued)

Technical Corrections and Improvements

In October 2012, the FASB issued ASU No. 2012-04, *Technical Corrections and Improvements*, which clarifies the Codification or corrects unintended application of guidance that is not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. The Conforming Amendments to U.S. GAAP included in the Update are generally nonsubstantive in nature. Many of the amendments conform wording to be consistent with the terminology in Topic 820 and includes amendments identifying when the use of fair value should be linked to the definition of fair value in Topic 820, *Fair Value Measurement*. Amendments to the Codification without transition guidance are effective upon issuance for both public and nonpublic entities. For public entities, amendments subject to transition guidance will be effective for fiscal periods beginning after December 15, 2012. For nonpublic entities, amendments subject to transition guidance will be effective for fiscal periods beginning after December 15, 2013.

Liquidation Basis of Accounting

In April 2013, the FASB issued ASU No. 2013-07, *Presentation of Financial Statements (Topic 205) – Liquidation Basis of Accounting,* which clarifies when an entity should apply the liquidation basis of accounting. In addition, the guidance provides principles for the recognition and measurement of assets and liabilities and requirements for financial statements prepared using the liquidation basis of accounting. The amendments require an entity to prepare its financial statements using the liquidation basis of accounting when liquidation is imminent. The amendments are effective for entities that determine liquidation is imminent during annual reporting periods beginning after December 15, 2013, and interim reporting periods therein. Entities should apply the requirements prospectively from the day that liquidation becomes imminent. Early adoption is permitted. As the Plan does not expect liquidation to be imminent, this ASU does not currently apply to the Plan.

2. Significant Accounting Policies (continued)

Valuation of Investments

The Plan's investments in mutual funds and money market funds are stated at fair value based primarily on quoted prices in active markets. Participant loans are stated at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- *Level 1*: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- *Level 2*: Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- *Level 3*: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

2. Significant Accounting Policies (continued)

Valuation of Investments (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- *Money market funds*: Valued as cash equivalents, which approximates fair value.
- *Mutual funds*: Mutual fund values are based on quoted prices in active markets as of year-end, less any asset charges.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	December 31, 2012			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 519,974	$ –	$ –	$ 519,974
Mutual funds				
Small cap	482,928	–	–	482,928

Payment of Benefits

Benefits to participants are recorded by the Plan when actual payment is made.

Expenses

The Plan is responsible for payment of the trustee and recordkeeping expenses and fees; however, the Company may pay the Plan expenses directly. Transaction charges for loan and benefit payment transactions are paid by the Plan by reducing the balances of those participants initiating the transactions.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2012 and 2011, and net depreciation in fair value of investments and investment income for the year ended December 31, 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company, trustee of the Plan.

The following presents individual investments that represent 5% or more of the Plan's net assets at either December 31, 2012 or 2011.

4. Transactions with Parties-in-Interest

Plan assets include investment in funds managed by Reliance Trust Company. They are the Plan's trustee and as such, transactions with the trustee qualify as party-in-interest transactions under ERISA. Participant loans also qualify as party-in-interest transactions.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of the termination of the Plan, the individual accounts of all members shall become fully vested. After deducting all charges and expenses, the balances of all individual accounts will be adjusted and the remaining assets distributed.

6. Income Tax Status

The underlying nonstandardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008 stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. The Plan has adopted other required and discretionary amendments. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
