1. Plan Description

The following description of the Uniwell Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was established January 1, 2001 for the exclusive benefit of eligible employees of the following companies: Uniwell Corporation, Uniwell Hotel, Inc. dba Holiday Inn Buena Park, and Uniwell Fresno Hotel, L.L.C. (collectively, the "Company").

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age 21 or older. The Plan is subject to the provisions of ERISA.

Contributions

Each year, participants may contribute up to 100% of their compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund as investment options for participants. The Company may make discretionary matching and profit sharing contributions each year to the Plan. The Company made discretionary matching contributions of 100% of the first 1.5% of compensation that a participant contributed to the Plan for the year ended December 31, 2012. The Company did not make profit sharing contributions to the Plan during the year ended December 31, 2012. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions and (b) Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions is based on years of credited service, as defined. Allocations of the Company's discretionary matching and profit sharing contributions to individual participants become 20% vested after one year of service and vest an additional 20% each year thereafter until fully vested. If a participant dies, or becomes totally disabled, the participant becomes fully vested in the Plan, irrespective of years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25%, which is commensurate with local prevailing rates as determined by the Plan administrator. The term of the loan is not to exceed 5 years, unless the loan is for the purchase of a principal residence, then the Plan administrator may permit a longer repayment term. Principal and interest is paid ratably through bi-monthly payroll deductions.

Payment of Benefits

On termination of service a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments over the life of the participant.

Forfeited Accounts

At December 31, 2012 and 2011 there were no forfeited non-vested accounts. Additionally, forfeited non-vested accounts were not used to pay for administrative expenses or to reduce employer contributions during the year ended December 31, 2012. If applicable, forfeited non-vested accounts are used first to reduce Plan administrative expenses and then reduce future employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amount of net assets and the reported amounts of additions to and deductions from net assets. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized when paid, primarily monthly. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, certain expenses of maintaining the Plan are paid by the Company. Expenses relating to specific participant transactions (i.e. loan setup, distribution request, etc.) may be charged directly against the appropriate participant's account.

Subsequent Events

The Plan administrator has evaluated subsequent events through September 4, 2013, the date the financial statements were available to be issued.

3. Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2012
Vanguard Target 2020	$ 383,778
Vanguard Target 2025	298,645
Vanguard Target 2010	290,284
Vanguard Target 2030	212,315
Vanguard Prime Money Market	116,705
Vanguard Target 2050	97,153
Vanguard Target 2035	92,237
Vanguard Target Ret Inc	90,862

	2011
Vanguard Target 2020	$ 303,487
Vanguard Target 2010	251,872
Vanguard Target 2025	240,965
Vanguard Target 2030	232,890
Schwab Retirement Adv Money Fund	115,582
Vanguard Target Retirement Income	78,889

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in value by approximately $129,000.

4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money market funds

Money market funds are valued at fair value based on the fair value of the underlying investments. Money market funds are invested in high-quality short-term money market investments issued by U.S. and foreign issuers.

Mutual Funds – Target Date Funds

Investments in mutual funds – target date funds are based on quoted market prices for the identical security in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	2012			
	Level 1	Level 2	Level 3	Total
Mutual funds -				
Target date funds	$ 1,591,639	$ -	$ -	$ 1,591,639
Money market funds	-	116,705	-	116,705
Total investments at fair value	$ 1,591,639	$ 116,705	$ -	$ 1,708,344

	2011			
	Level 1	Level 2	Level 3	Total
Mutual funds -				
Target date funds	$ 1,366,224	$ -	$ -	$ 1,366,224
Money market funds	-	115,582	-	115,582
Total investments at fair value	$ 1,366,224	$ 115,582	$ -	$ 1,481,806

5. Party-in-Interest Transactions

Ascensus, as agent for Frontier Trust Company ("Ascensus"), managed certain investment accounts of the Plan for the period December 4, 2012 to December 31, 2012. Charles Schwab Bank managed certain investment accounts of the Plan as of December 31, 2011 and for the period January 1, 2012 to December 3, 2012. Transactions with Ascensus (current custodian of the Plan) and Charles Schwab Bank (former custodian of the Plan) qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Information Certified by the Plan's Custodians

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, the Plan's custodian for the period December 4, 2012 to December 31, 2012 and Charles Schwab Bank, the Plan's custodian as of December 31, 2011 and for the period January 1, 2012 to December 3, 2012, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, the schedule of assets (held at end of year) at December 31, 2012, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

8. Tax Status

On March 31, 2008, the Internal Revenue Service stated that the volume submitter profit sharing plan adopted by the Plan, as then designed, qualifies under the applicable sections of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

10. Reconciliation of Financial Statement to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statement to the Form 5500 at December 31:

	2012	2011
Net assets available for benefits as reported in the financial statements	$ 1,796,935	$ 1,573,086
Add - Excess contributions payable, netted against employer contributions receivable	-	1,676
Less - Employer contributions receivable	(38,778)	-
Interest receivable	(156)	-
Net assets available for benefits as reported in the Form 5500	$ 1,758,001	$ 1,574,762

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2012, to the Form 5500:
