ZEVEX, Inc.
401(k) Profit Sharing Plan

Notes to Financial Statements
December 31, 2009 and 2008

1. Description of Plan

The following description of the ZEVEX, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of ZEVEX, Inc. (the "Company") who have at least 90 days of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan merger

In 2007, the Company was acquired by MOOG Inc. Effective April 1, 2008, the Plan no longer accepted any contributions. Employee deferrals and matching contributions were remitted to the MOOG Inc. Retirement Savings Plan ("MOOG Plan"). Also on that date, all participants became 100% vested in their employer matching contributions regardless of years of service.

On April 9, 2009, the balances in each participant's account, as well as any outstanding loan balances, were transferred to the MOOG Plan.

One of the funds in the Plan was an insurance account that required funds to remain in the account for a specified period of time before they can be withdrawn. The amounts reported as contribution in the accompanying financial statements represent the balance of employee deferrals and matchining contributions in this insurance account. Payment was made by JP Morgan, the third party administrator of the MOOG Plan, to cover the participants' balances in this insurance fund. This allowed the entire balance of participant accounts to be transferred to the MOOG Plan. Once the funds in the insurance account became available, they were paid in total to JP Morgan. Because of the payment by JP Morgan to cover the funds in this specific insurance account, the Plan is considered to have no assets at the end of the year and the Form 5500 for the year ended December 31, 2009 is the final return.

1. Description of Plan (continued)

Participant Accounts

Each participant's account was credited with the allocations of (a) plan earnings and (b) forfeited amounts of former employees. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

That portion of the participants' Company contribution accounts which is not vested at the time of termination of employment is forfeited. Amounts forfeited are allocated to participants as set forth under the Plan. There were $85 and $10,156 in unallocated forfeitures as of December 31, 2009 and 2008, respectively. These amounts have transferred to the MOOG Plan.

Participant Loans

Payments for outstanding participant loans were accepted by the Plan until April 9, 2009 when the outstanding balances were transferred to the MOOG Plan.

Payment of Benefits

In accordance with the Plan document and as allowed under the Internal Revenue Code, a lump-sum distribution of a participant's vested account is available upon termination of service, death, disability, retirement, or attainment of age 59½; or distribution is available to satisfy a financial hardship meeting the requirements of the IRS regulations.

As of December 31, 2009, the plan had $550,416 in Plan assets that were allocated to participants that had withdrawn from the Plan, but for which those funds from the plan had not yet be made. These balances have been transferred to the MOOG Plan.

Administrative Expenses

The administrative and general expenses of the Plan are paid by the Company.

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

2. Significant Accounting Policies

Investment Valuation and Income Recognition

All of the Plan's investments are held in trust. The Plan represents 100% of the total assets of the Trust for both 2009 and 2008. The Trust invests the assets of the Plan. Great West Life and Annuity Insurance Company is the custodian and the Plan's record keeper.

Pooled separate accounts are recorded at fair value based on quoted redemption values on the last business day of the Plan year.

Participant loans are valued at their outstanding balances, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 10, 2013, the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements and schedules including investments held at December 31, 2009 and 2008 and net depreciation in fair value of investments, interest, dividends, and investment expenses for the year ended December 31, 2009, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great West Life and Annuity Insurance Company.

3. Investments (continued)

Investments that represent 5% or more of the fair value of the Plan's net assets at December 31, 2009 and 2008 are as follows:

	2009	2008
Pooled Separate Accounts		
Guaranteed Portfolio Fund	**$** –	$ 484,992
Maxim Moderate Profile II	–	650,609
Maxim Aggressive Profile II	–	347,639
Maxim Conservative Profile II	–	160,229
Maxim S & P 500 Index	–	203,041

During the year ended December 31, 2009, the net assets available for benefits depreciated in fair value by $192,119.

4. Fair Value Measurements

Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statements No. 157 are described on the following page:

4. Fair Value Measurements (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market accounts: Valued at the average daily interest rate.

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participant, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result is a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value of the December 31, 2009 and 2008:

	Assets at fair value at December 31, 2009			
	Level 1	**Level 2**	**Level 3**	**Total**
Money market funds	$ –	$ –	$ –	$ –
Pooled separate accounts	–	–	–	–

Total assets are fair value	$ 3,026,873	$ 10,156	$ 60,843	$ 3,097,872

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

	Participant loans
Balance, beginning of the year	$ 60,843
Purchases, sales, issuances and settlements (net)	(60,843)
Balance, ending of year	$ –

5. Income Tax Status

The Plan has not applied for nor received a determination letter from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"). However, the plan administrator believes that the Plan is qualified and, therefore, the related trust is exempt from taxation. The Plan Sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.

6. Party-in-interest transactions

Certain Plan investments are shares of funds managed by Great West, the Plan trustee, and therefore, these transactions qualify as party-in-interest. Any purchases and sales of these funds are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.
