Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Participants and Administrator of the
L-3 Ocean Systems Pension Plan for Hourly Employees:

We have audited the accompanying financial statements of L-3 Ocean Systems Pension Plan for Hourly Employees (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2012, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2012 and changes therein for the year then ended and its financial status as of December 31, 2011, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

L-3 OCEAN SYSTEMS PENSION PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
(Dollars in thousands)

1. Plan Description

The following brief description of the L-3 Ocean Systems Pension Plan for Hourly Employees (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective April 1, 1998 in connection with the acquisition of the Ocean Systems division of AlliedSignal, Inc. by L-3 Communications Corporation (the “Company”), a wholly owned subsidiary of L-3 Communications Holdings, Inc. (“Holdings”). Certain participants in the AlliedSignal, Inc. Pension Plan for Hourly Employees (the “Prior Plan”) became participants in the Plan.

The Plan is a non-contributory defined benefit plan covering members of UAW Local 179 at L-3 Communications Ocean Systems division. Participation in the Plan commenced after completion of one year of service. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan is frozen with respect to new participants hired on or after August 1, 2007. As such, any employees hired on or after August 1, 2007 are not eligible to participate in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Interest in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the “Master Trust”) administered by The Bank of New York Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the “L-3 Participating Plans”). The only investment of the Plan is its undivided interest in the net assets of the Master Trust. The fair value of the Plan’s interest in the Master Trust is determined based on the beginning of year value of the Plan’s undivided interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of corporate equity securities, commingled trust funds and mutual funds, and corporate bonds. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned and determines realized gains and losses on sales of securities based on the average cost method.

L-3 OCEAN SYSTEMS PENSION PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

Net Investment Income from Master Trust

The net investment income from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes net gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment income or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each plan's respective monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results will differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

L-3 OCEAN SYSTEMS PENSION PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

Subsequent Events

The Plan continued to evaluate events after the Statement of Net Assets Available for Benefits date through September 13, 2013, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") and the minimum funding requirements under ERISA. There was no funding required from the Company to the Plan in 2012 under the minimum funding requirements of ERISA. Contributions required from the Company in 2011 to the Plan under the minimum funding requirements of ERISA were \$1,044. Contributions are calculated using the Projected Unit Credit Actuarial Cost Method. Under this method, the total actuarial liability for participants is the actuarial present value as of the valuation date of all benefits attributed by the pension benefit formula to employee service rendered prior to that date, which assumes the normal cost will increase each year for each employee as he or she approaches retirement age. The yield (interest, dividends and net realized and unrealized gains and losses) on investments of the Plan serves to adjust future contributions that will be required to provide for the defined level of benefits. The funding target is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.

4. Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The Plan provides a monthly benefit of (1) thirty-four dollars for each year of credited service for participants retiring during the period from August 1, 2003 through July 31, 2004, (2) thirty-five dollars for each year of credited service for participants retiring during the period from August 1, 2004 through July 31, 2005, (3) thirty-six dollars for each year of credited service for participants retiring during the period from August 1, 2005 through July 31, 2006, and (4) thirty-seven dollars for each year of credited service for participants retiring during the period from August 1, 2006 through July 31, 2007 and thereafter. Benefits vest 100% after five years of service and are payable at age 65. Service in the Prior Plan is considered as service under the Plan.

The Plan permits early retirement for participants at either (i) age 60 with at least 10 years of service, (ii) age 55 and 85 points (points are the sum of age and credited service) or (iii) 30 years of credited service. The benefit may begin at the date of early retirement, reduced by percentages ranging from 6.7% to 69.6%, depending on age at retirement. Participants eligible for early retirement receive 100% of benefits at age 62. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the

L-3 OCEAN SYSTEMS PENSION PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

date pension benefits commence, the surviving spouse of the deceased vested participant receives benefits equal to 60% of the amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree.

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2012 and 2011 were:

Mortality basis	2012: RP-2000 Combined Annuitant and Non-Annuitant Tables with static projection through the valuation date plus another 7 years for annuitants and 15 years for non-annuitants. 2011: RP-2000 Annuitant and Non-Annuitant Tables with static projection to 2018 and 2026, respectively.
Retirement	2012: Retirement at ages 55 through 70, at varying rates, with 100% by age 70. 2011: Retirement at ages 55 through 65, at varying rates, with 100% by age 65.
Discount rate for the determination of the present value of accumulated plan benefits	2012 - 8.25%; 2011 – 7.5%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated Plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2012.

6. *Fair Value Measurements*

The Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets include equity securities, a mutual fund classified under Fixed Income – Investment Grade and Real Estate Investment Trusts, all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets primarily include commingled trust funds and corporate high-yield bonds.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2012 and 2011, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement. There were no transfers during the year between levels 1, 2 or 3.

(1) Equity securities consist of investments in common stock of U.S. and international companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various international exchanges. The Level 2 investment balance is derived from a regulated commingled equity trust fund, which fair value is based on the net asset value (NAV) at the end of each month. The NAV is calculated by the fund manager based on the fair value of the funds holdings, primarily equity securities traded in active markets, determined as of the end of each month. Withdrawals are permitted monthly based on NAV.

(2) Approximately 50% of plan assets that are invested in the Fixed Income — Investment Grade asset category consist of a mutual fund offered by a registered investment company (the “Fund”). The Fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. This Fund is classified by the Company as a Level 1 measurement within the fair value hierarchy. The remaining 50% of plan assets are invested in a regulated commingled bond trust fund (the “Bond Fund”) and classified as Level 2. As this Bond Fund does not trade in an active market, the fair value is based on NAVs calculated by fund managers based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs. Withdrawals are permitted monthly based on NAV.

(3) Fixed Income — High Yield consists of investments in corporate high-yield bonds from various industries. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

(4) Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

(5) Other consists primarily of cash equivalents maintained in commingled trust funds, which invest primarily in short term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit, and are classified as Level 2.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 28, 2008, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan’s counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan’s financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan

L-3 OCEAN SYSTEMS PENSION PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2009.

The Plan recognizes accrued interest and penalties related to unrecognized tax benefits in tax expense. There were no interest and penalties included in the Plan's financial statements.

8. *Related Party Transactions*

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by BNY Mellon, the Plan's trustee. As described in Note 2, the Plan (through the Master Trust) paid certain expenses related to plan operations and investment activity to various service providers. These transactions are exempt party in interest transactions under ERISA.

9. *Termination Priorities*

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to collective bargaining and the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.
- d. All vested and non-vested benefits.

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation, up to specified limits.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Interest:	<p>The interest rates used for the 2012 plan year are the 24-month average corporate bond yields ending in August 2011. This valuation reflects the plan sponsor decision for the 2012 plan year not to opt out of funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner but are then constrained to be within a corridor around a 25-year average. These discount rates are 5.54% for payments in the first 5 years, 6.85% for payments in years 6 – 20, and 7.52% for payments thereafter, which translates to an effective interest rate of 6.91%. Before reflecting funding stabilization, the discount rates are 2.06% for payments in the first 5 years, 5.25% for payments in years 6 – 20, and 6.32% for payments thereafter, which translates to an effective interest rate of 5.31%. (Prior year 24-month average corporate bond rates were 3.78% for payments in the first 5 years, 6.31% for payments in years 6 – 20, and 6.57% for payments thereafter, which translates to an effective interest rate of 6.18%.)</p> <p>The yield curve used to determine the PBGC variable rate premium is the same as funding, without reflecting funding stabilization.</p>																														
Mortality rates:	<p>RP-2000 combined annuitant and non-annuitant tables with static projection. Mortality is projected through the valuation date plus 7 years for annuitants, and through the valuation date plus 15 years for nonannuitants. This assumption is one of the choices allowed by the regulations. (Previously, RP-2000 separate annuitant and non-annuitant tables with static projection to 2018 and 2026, respectively).</p>

Actuarial Assumptions and Methodologies *continued*

Retirement from inactive status:	Age 65		
Layoff assumptions:	Participants on layoff status are not considered terminated until recall rights expire.		
Form of benefit:	Single participants are assumed to elect a life annuity; married participants are assumed to elect a 60% J&S annuity. (Previously, all participants were assumed to elect a life annuity.)		
Administrative expenses:	\$225,000 (previously, \$275,000)		
Asset method:	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.5%, not to exceed the applicable third segment rate of 6.82% in 2010 and 6.57% in 2011.		
Funding method:	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.		
Assumption changes since prior valuation:	<u>Assumption Type</u>	<u>Current Assumption</u>	<u>Prior Assumption</u>
	Mortality rates	Combined annuitant and non-annuitant tables	Separate annuitant and non-annuitant tables
	Retirement	Age-based schedule with lower rates beginning at age 65	Age-based schedule
	Assumed form of payment for married participants	60% J&S annuity	Life annuity
	Administrative Expenses	\$225,000	\$275,000
<i>The above changes were based on Sibson Consulting's November 2011 analysis. The assumption changes did not result in a decrease in the ERISA funding shortfall for the current plan that would require IRS approval.</i>

	c) For participants retiring with a disability pension, a "Temporary Benefit" of \$35.00 per month per year of credited service (up to 30 years). The "Temporary Benefit" is only payable if participants is not eligible for Social Security Disability Benefits.
Special early retirement:	
<i>Eligibility (all of the following):</i>	a) 10 or more years of vesting service, b) Age between 55 and 65 c) Participant has not been discharged for cause d) Unusual circumstances result in L-3 asking a participant to retire, and e) The participant and L-3 have agreed that the participant should retire with special benefits.
<i>Benefits:</i>	The lifetime income benefit is unreduced for early retirement. A supplemental benefit of \$1,950 is payable until age 62 and 1 month and a Medicare supplement of \$52 is payable at age 65.
Special Medicare Part B reimbursement benefit:	
	<p>This benefit is payable to participants retiring from active service with a retirement or disability pension, and to surviving spouses of such participants, as well as to surviving spouses of employees who die in active service.</p> <p>The benefit commences upon attainment of age 65, or receipt by the Board of proof of enrollment in Medicare Part B, whichever is later.</p> <p>The amount of the benefit is \$52.00 per month for months commencing on or after January 1, 2001. In no event shall the benefit paid for a month exceed the generally applicable Medicare Part B premium for that month (\$99.90 for 2012). The benefit is \$52.00 per month since the Medicare Part B premium is larger.</p>
Death benefits:	
	<p>For deaths occurring in service, after attainment of eligibility to retire and married to surviving spouse at least one year: an amount payable for the life of the surviving spouse equal to 60% of the benefit that would have been payable had the employee retired on the date of his death and elected the Survivorship Option.</p> <p>For deaths occurring after attainment of eligibility for the Withdrawal Benefit but prior to eligibility for retirement and prior to benefit commencement: an amount payable for the life of the surviving spouse on or after the date the participant's Withdrawal Benefit could have commenced equal to</p>

Vesting:							
	100% after 5 years of service.						
Payment forms:							
<i>Normal form:</i>	Life annuity; 60% joint and survivor annuity for married participants. The benefit is calculated by reducing the amount payable under a single life annuity by 5%. An additional reduction is made in the amount of 0.5% per year for each year in excess of five by which participant's birth date precedes that of the spouse. If the spouse is older, the benefit is increased by 0.5% per year for each year in excess of five by which spouse's birthday precedes participant's birthday.						
<i>Optional form:</i>	75% joint and survivor annuity – The form is actuarially equivalent to life annuity. Actuarial equivalence is based on 9% interest rate and the 1971 Group Annuity Mortality Table for male lives.						
<i>Lump sum benefits:</i>	Benefits with a present value less than \$5,000 are automatically cashed out. An optional lump sum payment is available if the present value of the benefit is less than \$10,000.						
Participation:							
	Employees who are members of UAW Local Union No. 179						
<i>Age requirement:</i>	None						
<i>Service requirement:</i>	One year of service in which at least 1,000 hours worked.						
Credited service:							
	One year for each calendar year of employment in which at least 1,700 hours worked. Ratable accrual (rounded to nearest twelfth of a year) given for calendar years in which under 1,700 worked. Additional service credited for years in excess of 10 at certain "foundry jobs". Service for each such calendar year increased in accordance with the following:						
<table border="1"> <thead> <tr> <th>Year at foundry job</th><th>Percentage increase applicable to that year's service accrual</th></tr> </thead> <tbody> <tr> <td>10 ½-25</td><td>33-1/3%</td></tr> <tr> <td>Over 25</td><td>20%</td></tr> </tbody> </table>		Year at foundry job	Percentage increase applicable to that year's service accrual	10 ½-25	33-1/3%	Over 25	20%
