Note 1 - Plan Description

The following description of Jump Operations, LLC Employee 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by Jump Operations, LLC (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the sponsor and administrator of the Plan. All employees who are age 20 or older, excluding temporary employees, interns, and part-time employees, are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of various investment options offered by the Plan.

Contributions - Participant 401(k) deferral contributions cannot be less than 1 percent or more than 100 percent of the participant's earnings for the year. These contributions are made out of pre-tax earnings through salary reductions and are subject to certain Internal Revenue Service (IRS) limitations. Participants may designate all or part of their contributions as Roth 401(k) contributions, which are after-tax contributions.

Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

The Company makes a matching contribution each pay period equal to 50 percent of each participant's contribution. Prior to January 1, 2012, such contributions were subject to a limit of 6 percent of the participant's pre-tax compensation.

Additional employer contributions may be made at the discretion of the Company's board of directors. No discretionary contributions were made for the year ended December 31, 2012.

Participant Accounts - Each participant's account is credited with the participant's contribution, the employer matching contribution, and allocations of the employer's discretionary contribution and plan earnings, and is charged with allocations of plan losses. Allocations are based on the participant's eligible compensation or account balances as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may direct the investments of their account balances into various investment options offered by the Plan. The participants are able to change their investment options daily.

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately vested in their 401(k) deferral, Roth 401(k), and rollover contributions, plus earnings thereon. Participants who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the plan agreement, are considered 100 percent vested. Participants vest in their employer contributions and earnings thereon in accordance with the following table:

Vesting Years of Service	Percentage Vested
1	20
2	40
3	60
4	80
5	100

Forfeitures - If a participant is not fully vested on his or her termination date, the non-vested amount of the account is forfeited. Forfeitures are used to reduce future employer contributions. As of December 31, 2012 and 2011, forfeited account balances totaled $3,919 and $2,002, respectively. Forfeitures of $62,273 were used to reduce employer contributions during 2012.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment, as defined in the plan agreement. The Plan provides for normal retirement at age 65 and early retirement on or after attaining age 55. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms generally range from one to five years. Loans for the purchase of a principal residence can be paid over a reasonable period of time that may exceed five years. The notes receivable are secured by the balance in the participant's account and bear interest at a fixed rate, which is commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions

Administrative Expenses - The Company has paid substantially all of the Plan's administrative expenses.

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation - Investments are reported at fair value in accordance with accounting principles generally accepted in the United States of America (GAAP). See Note 3 for a further discussion of fair value measurements.

Under GAAP, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. GAAP requires investments in fully benefit-responsive investment contracts to be presented at fair value in the statement of net assets available for benefits, and that the amount representing the difference between fair value and contract value of these investments to also be presented as a separate line item in the statement of net assets available for benefits. The Metlife Stable Value Fund is a common collective trust that is subject to the previously mentioned reporting requirements.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 10, 2013, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 3 – Fair Value Measurements (Continued)

As of December 31, 2012 and 2011, the following valuation methodologies have been used to value the Plan's investments:

- Common collective trust - The fair value of the common collective trust fund is based on the fair value of the underlying net assets of the fund at the measurement date as determined by the issuer of the fund. The common collective trust fund primarily holds guaranteed investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The investment objective of the collective trust fund held by the Plan is to preserve principal and provide a stable return over the life of the fund. There are no unfunded commitments or other redemption notice requirements related to this investment.
- Mutual funds - Valued at the quoted NAV of the shares held by the Plan at year end

The methods described above may produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 4 - Unaudited Information

Mid Atlantic Trust Company (the "Custodian") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Significant investments as of December 31, 2012 and 2011 are as follows:

	2012	2011
Mutual funds:		
Vanguard Index 500	$ 3,631,638	$ 2,522,799

The Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,203,578 in 2012.

Note 5 - Tax Status

The Plan was amended as of January 1, 2008 to adopt plan documents established under the IRS volume submitter program and offered by its third-party administrator. The third-party administrator has received a determination letter from the IRS and has represented to the Plan that, as designed, the Plan is in compliance with the applicable requirements of the Internal Revenue Code. The Plan is required to operate in conformity with the Internal Revenue Code to maintain its qualification. The Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.
