RETIREMENT PLAN

Notes to Financial Statements
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Win-Dor, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution 401(k) profit sharing plan. The Plan covers all employees of Win-Dor, Inc. who are at least age 18 and have completed three months of continued service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan was established on January 1, 2000, and most recently amended on July 1, 2011.

Contributions - Participants' contributions are made to the Plan by means of salary deferral by which the participant is entitled to defer the lesser of 100 percent of eligible compensation, or a fixed amount determined annually by the Internal Revenue Service. The Company may also voluntarily match participant contributions. In addition, the Company, at its option, may contribute a portion of its current profits. For the years ended December 31, 2012 and 2011, no discretionary profit sharing contributions or matching contributions were allocated to the Plan.

Participant Accounts - Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's discretionary matching and profit sharing contributions, and (b) Plan earnings. Allocations of Plan earnings or losses are based on individual participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Payment of Benefits - On termination of service, a participant may elect to receive a lump-sum payment equal to the vested value of his or her account. Other distributable events include death, disability, retirement and minimum required distributions.

Forfeitures - Participants terminating employment with the Company will forfeit any nonvested employer contributions. The forfeited nonvested contributions are available to reduce future contributions of the employer and administrative expenses of the Plan. There were no forfeited nonvested contributions used to reduce employer contributions or Plan expenses during the years ending December 31, 2012 and 2011. There were no forfeited nonvested contributions available for future use at December 31, 2012 and 2011.

December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Administrative Expenses - Certain administrative expenses are paid out of the Plan except to the extent paid by the Plan sponsor. Certain loan and benefit payment administrative expenses are charged against each participant's account.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 or up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. Loan terms are for up to five years unless it is for the purchase of a primary residence, in which case the loan term cannot exceed 10 years. The loans are secured by the vested balance in the participant's account and bear interest at a rate established by the employer based on prevailing rates.

Investments - Each participant directs the allocation of his or her contribution, and employer matching and discretionary profit sharing contributions to one or more of 14 investment options.

Risk and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting and disclosure under the Employee Retirement Income Security Act of 1974 (ERISA).

(Note 2 continued on the following page)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements - In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurements (Topic 820)*. This ASU improves the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with accounting principles generally accepted in the United States of America and International Financial Reporting Standards. The amendments are of two types: (i) those that clarify the FASB's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. Except for the disclosure requirements, management does not expect the adoption of this guidance to have a material impact on the Plan's financial statements.

Reclassification - The financial statements for the year ended December 31, 2011 reflect certain reclassifications, which have no effect on net income, to conform to classifications adopted at December 31, 2012.

Subsequent Events - The Plan evaluated subsequent events through August 26, 2013, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3 - INVESTMENTS (Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Pooled separate accounts contain observable Level 1 quoted pricing inputs or quoted prices for similar assets in active markets.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	*Fair Value*	*Principal Valuation Technique*	*Unobservable Inputs*	*Range of Significant Input Values*	*Weighted Average*
Guaranteed investment contract	$ 286,282	Discounted Cash Flow	Composite crediting rate	1.71 - 1.75%	1.73%

NOTE 5 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011.

- Net appreciation in fair value of investments, interest and dividends reflected on the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011.

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan comprises a benefit-responsive investment contract with The Standard Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Standard. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $286,282 and $283,696, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on an annual basis for resetting.

(Note 6 continued on the following page)

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract permits the insurance company to terminate the agreement prior to the scheduled maturity date with 30 days advance written notice to the contract owner for reasonable cause, which includes contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least $25,000, plan disqualification, and failure to adopt the plan in a reasonable period of time. Upon termination by The Standard, a market value adjustment may apply.

	2012	2011
Average yields:		
Based on actual earnings	1.75%	2.06%
Based on interest rate credited to participants	1.71%	1.80%

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100 percent of his or her account balance as of the date of termination.

NOTE 8 - TAX STATUS

The Plan is a prototype plan that is sponsored by the custodian. The prototype plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter. However, the custodian believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Plan is subject to routine audits by the Internal Revenue Service; however there were no open examinations at December 31, 2012. The Plan is no longer subject to tax examinations for years prior to 2009.

NOTE 9 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by The Standard Insurance Company. The Standard Insurance Company is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Additionally, notes receivable from participants and the related interest income are also considered related party transactions.

NOTE 10 - RECONCILIATION OF FORM 5500 TO FINANCIAL STATEMENTS

The following is a reconciliation of the total contributions received per the Form 5500 to the financial statements at December 31, 2012 and 2011:

The following is a reconciliation of the net assets available for benefits per the Form 5500 to the financial statements at December 31, 2012 and 2011:
