**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## **Independent Auditor's Report**

To the Benefits Committee  
Yucca Mountain Salaried Pension Plan  
Aiken, South Carolina

### **Report on the Financial Statements**

We were engaged to audit the accompanying financial statements of Yucca Mountain Salaried Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

### **Management's Responsibility for the Financial Statements**

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we are not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

### **Basis for Disclaimer of Opinion**

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Bank of New York Mellon, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of December 31, 2012 and 2011 and for the years then ended, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

### **Disclaimer of Opinion**

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

**Report on Form and Content in Compliance with DOL Rules and Regulations**

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

# YUCCA MOUNTAIN SALARIED PENSION PLAN

## NOTES TO FINANCIAL STATEMENTS

### 1. DESCRIPTION OF THE PLAN

The following description of the Yucca Mountain Salaried Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan.

**General:** The Plan was initially established by TRW Environmental Safety Systems, Inc. (“TESS”) effective as of January 1, 1992. Effective February 12, 2001, Bechtel SAIC Company, LLC (“BSC”) assumed sponsorship of the Plan in connection with the transfer of management and operating responsibilities of the United States Department of Energy’s Yucca Mountain Site from TESS to BSC. Effective April 1, 2009, the Plan’s sponsorship was transferred from BSC to USA Repository Services, LLC (“USA RS”) and renamed the Yucca Mountain Salaried Pension Plan. The Plan was formerly known as the Bechtel SAIC Company, LLC Salaried Pension Plan.

Eligible plan participants include former TESS plan participants who were employed by BSC subsequent to the transfer of operating responsibilities to BSC, certain former TESS plan participants who are vested in their benefits but were not employed by either BSC or other TRW-related entities subsequent to the transfer of operating responsibilities to BSC, and TESS retirees who were already receiving benefits under the TESS Plan. Under the terms of the Plan, effective with BSC’s assumption of sponsorship, no new participants are allowed.

Bechtel SAIC Company, LLC received approval from the Department of Energy on June 3, 2008, to freeze the BSC Salaried Pension Plan to highly compensated employees. Future pension accruals were replaced with contributions to the Yucca Mountain 401(k) Savings Plan per its plan document.

Effective December 31, 2010, the benefits of all employees were frozen. Pursuant to this freeze, no prior, current, or future employees may earn additional benefits, and there will be no new entrants allowed into the Plan. Earnings and benefit service amounts shall not exceed those established as of the date of the freeze, December 31, 2010.

**Benefits:** Employees with five or more years of service are entitled to annual pension benefits (paid monthly) beginning at normal retirement age (65) equal to 1.5% of their average annual compensation (highest five consecutive calendar years) multiplied by the years of benefit service (maximum 35 years) plus 1.33% of their average annual compensation multiplied by the years of benefit service in excess of 35 years less 0.4% of their social security covered compensation (or average annual compensation, if lower) multiplied by years of benefit service (maximum 35 years). Annual earnings in excess of \$200,000, adjusted annually for the changes in the cost of living as provided in Section 415(d) of the Internal Revenue Code, are not eligible when determining benefits under the Plan.

The Plan permits early retirement at ages 55-64 with ten years of service. Participants who retire early shall be entitled to a percentage of the normal retirement benefit, with the percentage increasing as the actual retirement age approaches normal retirement age. Participants receive

their pension benefits in the form of a 50% joint and survivor annuity, if married, or a single life annuity, if not married; however, additional forms of pension benefits may be available to participants in accordance with the Plan's provisions. If an employee terminates before completing five years of service, they are not vested and are not entitled to benefits under the Plan.

Employees that terminate that are vested, regardless of age, will receive the value of their accumulated plan benefits as a lump sum distribution upon termination provided that the lump sum value does not exceed \$1,000.

If participants are married and die before they retire (whether or not they are current employees) and they are vested in the Plan, their surviving spouse is entitled to a benefit payable for life. Active employees who become totally disabled after completing five years of vested service will continue to earn benefits subject to certain limitations. Benefit payments to participants are recorded upon distribution. There are no provisions for loans or hardship withdrawals.

**Death Benefits:** The Plan provides specified retirement and death benefits to be paid from the net assets available for benefits. The level of benefits under the Plan is based principally on an employee's years of service and average compensation. The standard form of retirement benefit to single participants is a monthly payment beginning the first day of the month following retirement and continuing until death. The standard form of benefit to married participants is a reduced monthly payment for the participant's life and one-half of that payment for the life of the participant's surviving spouse. However, a participant or a participant's surviving spouse can elect to have a lump sum distribution of benefits, if eligible.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of accounting:** The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

**Recently Adopted Accounting Standards:** In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. This guidance amends the application of existing fair value measurement requirements, while other amendments change a particular principle in existing fair value measurement guidance. In addition, this guidance requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. This ASU has been adopted, as required. The adoption of this guidance had no effect on the Statements of Net Assets Available for Benefits or the Statements of Changes in Net Assets Available for Benefits.

**Valuation of investments:** The fair value of interest in the Master Trust, which the Plan joined January 1, 2011, is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Investments are reported at fair value. Fair value is the price that would be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 6 for a description of fair value measurements under Accounting Standards Codification ("ASC") 820.) Investment

income (loss) and realized and unrealized gains or losses are reported as a single amount as plan interest in investment gain (loss) of the Master Trust. (See Note 7 for information about the Master Trust.)

The Master Trust records purchases and sales of securities on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as those held during the year.

***Use of estimates:*** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

***Risks and uncertainties:*** The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

***Administrative expenses:*** Administrative expenses related to the Plan are paid by the Plan, as provided in the Plan document. USA RS provides accounting and other administrative services to the Plan at no charge.

***Payment of benefits:*** Benefit payments to participants are recorded upon distribution.

***Reclassification:*** Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements. Such reclassifications have no net effect on the reported change in net assets.

***Subsequent events:*** The Plan has evaluated subsequent events through September 19, 2013, the date the financial statements were available to be issued.

### **3. FUNDING POLICY**

All contributions to the Plan are made by USA RS. The amounts of annual contributions by USA RS to the Plan are determined by an actuary and represent the amounts necessary to provide for payment for the benefits specified under the Plan. USA RS's annual contributions equal or exceed the minimum funding requirements of Employee Retirement Income Security Act of 1974 (ERISA).

In accordance with the minimum funding requirements of ERISA, USA RS was not required to make any minimum required contributions to the Plan for the 2012 and 2011 Plan years.

#### 4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries.

The actuarial present value of accumulated plan benefits of the Plan is as follows:

|                                                             | <b><u>January 1,<br/>2012</u></b> | <b><u>January 1,<br/>2011</u></b> |
|-------------------------------------------------------------|-----------------------------------|-----------------------------------|
| Vested benefits:                                            |                                   |                                   |

The actuarial present value of accumulated plan benefits is determined by independent actuaries and reflects actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of

decrements such as for death, disability, withdrawal or retirement) between the valuation date and expected date of payment.

Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the Plan's financial statements.

The significant actuarial assumptions used in the valuations for 2012 and 2011 are shown below:

|                        |   |                                                                                                                                                                           |

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

## 5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Plan by a letter dated June 9, 2009, that the Plan, as then designed, was in compliance with applicable regulations of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan's Administrative Committee believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan continues to be tax-exempt. Therefore, no provision for federal income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

## 6. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits.

Financial Accounting Standards Board (FASB) ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs into three broad levels:

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and Plan have the ability to access.                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none"> <li>• Quoted prices for similar assets or liabilities in active markets;</li> <li>• Quoted prices for identical or similar assets or liabilities in inactive markets;</li> <li>• Inputs other than quoted prices that are observable for the asset or liability;</li> <li>• Inputs that are derived principally from or corroborated by observable market data by correlation or other means.</li> </ul> <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Level 1: The master trust, in which the Plan's investment assets are held, did not have any Level 1 investments.

Level 2: The Plan's investments, which are held in a master trust, consist of common trust funds. The value of the common trust funds are based on the net asset value (NAV) of the underlying assets.

Level 3: The master trust, in which the Plan is invested, did not have any Level 3 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## **7. INTEREST IN URS GOVERNMENT SERVICES GROUP MASTER TRUST**

The Plan's investment assets are held in a trust account at The Bank of New York Mellon ("Trustee") and consist of an undivided interest in an investment account of the URS Government Services Group Master Trust ("Master Trust"), a master trust established by Westinghouse Government Services Company, LLC and Washington Government Environmental Services Company, LLC, subsidiaries of the Company, and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of three other pension plans sponsored by the Company for investment and administrative purposes.

Although assets of the four pension plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The Plan had a 15% and 17% interest in the Master Trust's net assets at December 31, 2012, and 2011, respectively. At December 31, 2012 and 2011, the assets of the Master Trust were invested into common trust funds. The fair value of investments were \$160,110,287 and \$137,880,053 at December 31, 2012 and 2011, respectively.

The net investment earnings for the common/collective trust funds of the Master Trust were \$19,239,720 and \$10,380,725 for the years ended December 31, 2012 and 2011, respectively.

The following table sets forth by type of investment and level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2012 and 2011:

Financial Accounting Standards Board ASU 2009-12, *Fair Value Measurement and Disclosure (Topic 820): Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* requires disclosures of certain attributes in entities that calculate a net asset value (NAV) per share (or its equivalent) and do not have a readily determinable fair value. The following table sets forth the disclosure of the attributes at December 31, 2012 and 2011:

|                                        | Fair Value    | Unfunded Commitments | Redemption Frequency | Redemption Notice Period |

| Common/Collective Trust <sup>(a)</sup> | \$137,880,053 | --                   | Daily                | None                     |

<sup>(a)</sup> Investment funds are stated at fair value based on the quoted market prices of the underlying assets, which represent the net asset value (NAV) of shares held by the Master Trust at year-end.

**Changes in fair value levels:** The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2012 and 2011, there were no significant transfers in or out of levels 1, 2 or 3.

## 8. INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by the Trustee as of December 31, 2012 and 2011.

The information certified by the Trustee was the annual report and accounting for the year ending December 31, 2012 and 2011, which includes beginning and ending balances of assets, and a detailed listing of the transactions in the various funds, including investment earnings (losses).

## **9. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

One of the Plan investments at December 31, 2012 and 2011, is shares of a common trust fund managed by the Trustee; and therefore, this transaction qualifies as party-in-interest transactions and is exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for investment management services of the common trust funds were included as a reduction of the return on each fund. Fees paid by the Plan for investment fund services provided to the Master Trust were \$81,787 and \$55,586 for the years ended December 31, 2012 and 2011, respectively, and reported as a deduction in the Statements of Changes in Net Assets Available for Benefits.

## **10. PLAN TERMINATION**

The Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated as specified by the Plan document in accordance with ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the form of benefit payment elected by the participant at Plan termination. The ceiling varies depending on the form of benefit payment elected by the participant at the time of termination.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and the level of benefits guaranteed by the PBGC.

Schedule SB, Part V – Statement of actuarial assumptions/methods (*continued*)

**Actuarial methods**

**Asset methods – effective January 1, 2009**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

**Participant methods – effective January 1, 2008**

Participants or former participants are included or excluded from the valuation as described below:

- Participants included: The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- Participants excluded: No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- Insurance contracts: The plan does not have any insurance contracts.

**Minimum funding methods – effective January 1, 2008**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
- This plan does not value unpredictable contingent event benefits as no participants are actively accruing benefits in the plan.

**Schedule SB, line 24 – Change in actuarial assumptions**

- The expense assumption used in the normal cost calculation decreased from \$125,000 to \$100,000 to better reflect expectations for the current plan year.
- The expected investment return decreased from 2011 to 2012 (from 5.61% to 4.62%) to better reflect expectations for the current year.
- There have been no other assumption changes since the January 1, 2011 valuation.

***Benefits Included or Excluded***

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment No. 8, are included in this valuation.

- **Most recent plan amendments included:** Amendment No. 8 effective December 30, 2010.
- **Plan amendments excluded:** None.
- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Not applicable.
- **Late retirement increases:**
  - *Active participants:* There are no active participants.
  - *Deferred vested participants:* The late retirement actuarial increase is not valued for current deferred vested participants over normal retirement age as it is deemed immaterial.
- **Unpredictable contingent event benefits:** Not applicable.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value

for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

***Plan provision Changes since Prior Valuation***

**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
