STORK H&E TURBO BLADING, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

One-Month Period Ended December 31, 2012

A. DESCRIPTION OF PLAN

The following description of the Stork H&E Turbo Blading, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Stork H&E Turbo Blading, Inc. ("Company"). Employees are eligible to contribute immediately upon beginning employment and are immediately eligible for the Company match contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was established on December 1, 2012. Prior to that date, employees of Stork H&E Turbo Blading, Inc. were covered under a multiple-employer plan, Element Savings and Investment Plan. This Plan was sponsored by Element Materials Technology Holding USA Inc. and Subsidiaries, of which Stork H&E Turbo Blading, Inc. was a subsidiary company. During 2012, Stork H&E Turbo Blading, Inc. was sold from Element Materials Technology Holding USA Inc. Plan assets were transferred from Element Savings and Investment Plan to the Stork H&E Turbo Blading, Inc. 401(k) Plan on December 3, 2012.

Contributions: Each year, participants may contribute a whole percentage of pretax annual compensation, as defined in the Plan ("elective deferrals"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company has elected a stated tiered match contribution. The Company contributes 100% of each employee's elective deferrals up to 2% of the employee's base compensation and contributes 50% of elective deferrals which are over 2% of the base compensation, not to exceed 4% of the base compensation. The Company has the option to make additional discretionary contributions to the Plan.

Participants may direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. The Plan currently offers various mutual funds, collective trusts, and an insurance investment contract as investment options for participants. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of Plan earnings (losses), and charged with administrative expenses as applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions and in the Company contribution plus actual earnings thereon.

Notes Receivable from Participants: Participants may borrow from their accounts, a minimum of $1,000 up to a maximum equal to the lesser of (a) 50% of their vested account balance reduced by any outstanding loan balance or (b) $50,000 reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is

made. The number of outstanding loans for a participant is limited to two, and the number of loans approved in any 12-month period is limited to three. The term of each loan is generally limited to five years, but is limited to fifteen years for the purchase of a principal residence. Loans are secured by the balance in the participant's account and bear an interest rate equal to the Prime rate, as published by the Wall Street Journal, plus 1%. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits: Upon termination of service, death, disability, or retirement (age 65), a participant may elect to receive either a single-sum payment equal to the value of the participant's vested interest in his or her account, a fixed period installment option, or a fixed payment installment option. The Plan allows for in-service withdrawals if a participant reaches age $59^{1}/_{2}$, and hardship distributions subject to Plan provisions.

Forfeited Accounts: Participants are immediately 100% vested in their accounts. There are no forfeited accounts.

B. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participant would receive they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Certain administrative expenses of the Plan are paid directly by the Company.

C. Investments (Unaudited)

The investment activities and balances included on the Statement of Net Assets Available for Benefits as of December 31, 2012, the Statement of Changes in net Assets Available for Benefits for the one-month period then ended, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the trustee, Principal Trust Company, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $4,410,786 and participant loans in the amount of $301,524 at December 31, 2012, and related investment income and interest on participant loans of $77,954 and $1,351, respectively, for the one-month period then ended.

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2012:

	2012
Prin Trust Tgt 2015 Fund R4	$ 653,752
Prin Trust Tgt 2020 Fund R4	518,063
Prin Trust Tgt 2025 Fund R4	1,013,809
Prin Trust Tgt 2030 Fund R4	1,077,534
Prin Trust Tgt 2035 Fund R4	287,198
Prin Trust Tgt 2040 Fund R4	464,738

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2012
Mutual Funds	$ 2,526
Common/Collective Trusts	74,153
Net Appreciation	$ 76,679

D. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level

1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Mutual funds are quoted daily at publicly available prices, based on the market value of its underlying investments. Mutual funds are deemed to be actively traded.

Collective Investment Trusts: Net asset value ("NAV") may be used as a practical expedient to estimate fair value. NAV of a collective trust investment is based on the market values of their underlying investments. The NAV is not a publicly quoted price in an active market. The Plan has the ability to redeem collective investment trusts at NAV as of the measurement date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Assets at Fair Value as of December 31, 2012			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual Funds				
Large U.S. equity	$ 42,998	$ -	$ -	$ 42,998

International equity	66,194	-	-	66,194

Fixed income	14,063	-	-	14,063
Total Mutual Funds	270,740	-	-	270,740
Collective Investment Trusts				
Balanced/asset allocation	-	4,133,412	-	4,133,412
Short-term fixed income	-	6,634	-	6,634
Total Collective Investment Trusts	-	4,140,046	-	4,140,046
Total Assets at Fair Value	$ 270,740	$ 4,140,046	$ -	$ 4,410,786

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share as of December 31, 2012:

Investment Type	Fair Value December 31, 2012	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Investment Trusts:				
Principal Stable Value Fund	$ 6,634	-	Daily	1 day
Principal Trust Target Funds	4,133,412	-	Daily	1 day

The objective of the Principal Stable Value Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The fund seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts, as well as cash and cash equivalents.

The objective of the Principal Trust Target Date Collective Investment Funds ("Principal Trust Target Funds") is to see total return consisting of long-term growth of capital and current income, consistent with the investment strategies of an investor who expects to retire in the Target year. Underlying investment funds include mutual funds, collective trusts and pooled separate accounts.

E. Excess Contributions Payable

Participant contributions for 2012 are net of return payments of $27,968. These excess deferral contributions were returned to certain active participants as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's Statements of Net Assets Available for Benefits as excess contributions payable at December 31, 2012.

F. Party-in-Interest Transactions

Principal Trust Company, a member of the Principal Financial Group, is the trustee as defined by the Plan. Certain Plan investments are managed by the trustee or other affiliated companies.

Administrative services are offered through the trustee and affiliated companies of the trustee. Total direct fees paid by the Plan to Principal Life Insurance Company, an affiliated company of the trustee, amounted to $1,275 for the one-month period ending December 31, 2012.

Administrative fees paid by the Company to Principal Financial Group, amounted to $720 for the one-month period ended December 31, 2012.

Annual Plan audit fees are paid by the Company. Total fees for these services for the 2012 audit period paid to Sciarabba Walker & Co., LLP, a party-in-interest, amounted to $4,750.

All of these party-in-interest transactions are exempt form the prohibited transaction rules and ERISA.

G. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

H. Tax Status

The Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the form of the Plan was acceptable under the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
