NOTE 1 – DESCRIPTION OF PLAN

The following description of the Hotel Valencia Corporation 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan is sponsored by Hotel Valencia Corporation (the "Company").

General

The Plan was adopted effective January 1, 2004, and is a defined contribution safe harbor plan covering all employees of the Company. The purpose of the Plan is to provide employees with retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Under the terms of the Plan, employees become eligible to make salary deferral contributions after they have completed 90 days of service and are eighteen or older except: (1) union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining; (2) certain nonresident aliens who have no earned income from sources within the United States; and (3) Non-Highly Compensated and Highly-Compensated Employees employed by the Corporate Office of Hotel Valencia Group.

Contributions

Each year, participants may contribute from 1% to 100% of their pretax annual compensation, as defined in the Plan and on an after tax basis, up to 100% of post-tax compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Contributions are subject to certain IRS limitations.

Effective January 1, 2009, the Plan was amended to add a Roth 401(k) feature which allows employees to contribute funds on a post-tax elective deferral basis, in addition to, or instead of, pre-tax elective deferrals. The Roth 401(k) feature allows for tax free growth and distribution provided the post-tax contributions have been invested for at least 5 years and the employee has reached the age of 59 and a half.

The Company's safe harbor matching contributions are equal to 100% of the participant's salary deferrals up to 3% of their compensation plus 50% of their salary deferrals between 3% and 5% of their compensation. For the year ended December 31, 2012, the Company made safe harbor matching contributions totaling $206,653.

Additionally, the Company may make discretionary profit sharing contributions which are allocated to participants based on the relative compensation of all participants eligible to receive discretionary profit sharing contributions. For the year ended December 31, 2012, no discretionary profit sharing contributions were made.

Participant Accounts

Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's safe harbor contributions (b) the Company's discretionary profit sharing contributions and (c) Plan earnings and losses, and is charged with applicable withdrawals and an allocation of any administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF PLAN – CONTINUED

Vesting

Participants are immediately vested in their contributions, safe harbor matching contributions, and actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions plus actual earnings thereon is based on years of continuous service. However, if a participant dies, or becomes disabled prior to attaining the normal retirement age, or attains early or normal retirement age as defined by the Plan, the participant's account becomes 100% vested if still employed by the Plan sponsor as of such date. The following schedule describes the participant's level of vesting after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
1	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6	100 %

Investment Options

Upon enrollment in the Plan, participants may direct the investment of their accounts among various investment options provided under the Plan. Participants may change their investment elections at any time, as well as transfer existing balances between investment funds.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance. Loan transactions are treated as a transfer between investment funds and the loan fund. Each participant may have only one loan outstanding at any time. Loan repayments are made by check or payroll deduction. Loans are secured by the vested balance in the participant's account and bear interest at a fixed rate of interest that reflects the current market rates charged by financial institutions for similar loans as determined by the Plan Administrator.

Payment of Benefits

Upon termination of employment, retirement, death or disability, a participant or his/her beneficiary may elect to receive a lump sum payment if the vested account balance is less than $5,000. For vested balances greater than $5,000, the participant may withdraw according to the following forms of payment: (1) in a lump sum or (2) in installment payments over a period not to exceed the life expectancy of the participant or the joint and last survivor life expectancy of the participant and their beneficiary.

Withdrawals

A hardship withdrawal, if approved, can be made on pretax contributions to satisfy certain immediate and heavy financial needs, as defined, up to the amount of the participant's vested balance, in which case, the participants' contributions to the Plan must be suspended for six months after receipt of the hardship withdrawal. An unrestricted withdrawal can be made at the age of 59½ or upon normal retirement age of 65 on all or a portion of the participants' vested account.

NOTE 1 – DESCRIPTION OF PLAN – CONTINUED

Forfeitures

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $30 and $0, respectively. Forfeitures are first allocated the Plan's administrative expenses. Any remaining forfeitures of Company contributions are used to reduce future Company matching contributions. In 2012, no forfeitures were used to reduce administrative expenses or Company matching contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The net change in the fair value of investments is reported in the statement of changes in net assets available for benefits in the period of the change. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Payment of Benefits

Benefit payments to participants are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivables from participants are charged directly to the participants' accounts and are recorded in administrative expense. Investment related expenses are included in net appreciation of fair value investments.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarch are described as follows:

The three levels of the fair value hierarchy are described as follows:

> Level 1 – Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
>
> Level 2 – Inputs, excluding those included in Level 1, are either observable prices for identical assets or liabilities in inactive markets, observable prices for similar assets and liabilities, or other inputs derived principally from, or corroborated by, observable market data at the measurement date.
>
> Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Pooled Separate Accounts: Investments in pooled separate accounts are represented by a "unit of account" and per unit values whose value is the result of the accumulated values of the underlying investments. These underlying investments are public investment vehicles valued using the NAV provided by the administrator of the mutual fund investments. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The Pooled Separate Account fair values are classified within level 2 of the valuation hierarchy.

Guaranteed Investment Contract: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 4). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

NOTE 3 – FAIR VALUE MEASUREMENTS – CONTINUED

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

	Quoted Market Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
December 31, 2012			
Pooled Separate Accounts:			
Asset Allocation/Balanced (1)	$ -	$ 480,035	$ -

Bond (2)	-	326,840	-
Investment Contract with Insurance Company	-	446,749	-
Total Investments at Fair Value	$ -	$ 2,656,328	$ -

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

NOTE 3 – FAIR VALUE MEASUREMENTS – CONTINUED

The Pooled separate accounts have been classified based on the general characteristic of the investment focus and strategy with further classification below:

(1) The strategy is focused on maximizing consistent capital growth utilizing underlying investments with a high composition of equity or equity related securities.
(2) The strategy seeks maximum total return by utilizing underlying investments that are mostly investment grade debt securities, but many invest a limited percentage of total assets in high-yield securities.

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a fully benefit-responsive investment contract with Hartford Life Insurance Company (Hartford or Custodian). Hartford maintains the contributions in a guaranteed interest general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Hartford is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As described in Note 2, because the insurance contracts are fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for the benefits attributable to the insurance contract. Contract value, as reported to the Plan by Hartford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

There are no reserves against contract value for credit risk of a contract issuer or otherwise. The fair value of the insurance contract at December 31, 2012 and 2011 was $644,732 and $446,749, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited the following: (1) amendments to the plan documents (including complete or partial termination); (2) breach of the investment contract by the plan sponsor; (3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The weighted-average yields based on actual earnings for the contract for the years ended December 31, 2012 and 2011, was 3%. The crediting interest rates to participants for the contract as of December 31, 2012 and 2011 were 3%, respectively.

NOTE 5 – PARTIES-IN-INTEREST

The Plan has notes receivable from participants at December 31, 2012 and 2011. As a result, these notes and all transactions relating to these notes qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

Certain Plan investments are shares of pooled separate accounts and investment contracts with insurance company which are managed by the Custodian and, therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

NOTE 5 – PARTIES-IN-INTEREST – CONTINUED

The Plan incurs expenses related to general administration, recordkeeping and investment advisory services. Expenses such as commissions and broker fees, charged by the Custodian are paid by the Plan. Fees paid by the Plan to the Custodian for these services totaled $3,875 for the year ended December 31, 2012. These transactions are exempt from being prohibited transactions by ERISA.

NOTE 6 – FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan sponsored by Loren D. Stark Company, Inc. ("LDSC"). LDSC received a determination letter from the Internal Revenue Service, dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the plan's tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 – INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

At December 31, 2012 and 2011, the Plan's investments were held by the Custodian. The following information included in the accompanying financial statements and supplemental schedule was obtained from data that was certified by the Custodian as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Investments that represented five percent or more of the Plan's net assets available for benefits at December 31, 2012 and 2011, as reported by the Custodian are as follows:

	2012	2011
Fixed Account **	$ 593,850	$ 418,704
American Funds Growth Fund	261,288	239,047
Janus Enterprise S	265,743	211,074
American Funds New Prospective	151,612	155,663
Columbia Mid Cap Value	228,059	162,245
American Funds Income Fund	201,576	164,592
Other Investments Less than 5% of Net Assets	1,656,163	1,276,958
Total Investments	$ 3,358,291	$ 2,628,283

* Included in investments that are less than 5% of the Plan's net assets for the year noted.
** Fully benefit-responsive contracts are reported at contract value.

During the year ended December 31, 2012, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value as follows:

Pooled Separate Accounts	$ 337,559
Investment Contract with Insurance Company	14,939
Total	$ 352,498

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, including partial termination, participants will become 100% vested in their accounts.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 – DIFFERENCES BETWEEN FINANCIAL STATEMENTS AND FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2012	2011
Net Assets Available for Benefits per Financial Statements	$ 3,607,288	$ 2,817,912
Add: Investments	248,997	189,629
Less: Receivables – Notes Receivable from Participants	(248,997)	(189,629)
Net Assets Available for Benefits per Form 5500, Schedule H Line 1(l)	$ 3,607,288	$ 2,817,912

NOTE 11 – DELINQUENT PARTICIPANT CONTRIBUTIONS

The Department of Labor (DOL Reg. 2580.412-11) requires an employer to segregate participant contributions from its general assets as soon as practicable, but in no event later than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages. During the year ended December 31, 2012, the Company did not remit employee and safe harbor matching contributions of $38,512, in a timely manner. As a result, for the year ended December 31, 2012, the Company owed the Plan lost interest earnings of $29 for the contributions not remitted timely. The additional interest has not been included in the accompanying financial statements as it does not have a material effect on the Plan's net assets available for benefits or changes in net assets available for benefits.

The Plan Sponsor plans to subsequently deposit into the Plan the lost earnings for 2012 relating to these delinquent participant contributions.

NOTE 12 – PLAN COMPLIANCE

In September 2011, the Company determined that six eligible participants were improperly excluded from the calculation of safe harbor matching contributions for the period from July 2010 to September 2011. During 2012, the Company deposited into the Plan $9,730 in safe harbor matching contributions and $368 in lost earnings related to such contributions.

NOTE 13 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through the date the financial statements were available for issuance on September 19, 2013. No matters were identified affecting the financial statements or related disclosures.
