Note A – Description of Plan

The following brief description of the Ampacet Corporation 401(k) Profit Sharing Plan (the "Plan") of Ampacet Corporation (the "Company") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan which covers substantially all employees of the Company in the United States. Employees are eligible to participate in the Plan on the first day of January, April, July or October following the completion of three months of service and the attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each participant may elect to defer a portion of his or her annual earnings to the Plan. This elective deferral may not exceed the adjusted limit provided in Section 402(g) of the Internal Revenue Code of 1986 ($17,000 for 2012 and $16,500 for 2011). Participants who are at least age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $5,500 in 2012.

Participants direct the investment of the contributions into various investment options offered by the Plan. The Company matches 100% of employee deferrals on the first 3% of compensation and 50% of the next 2% of compensation. The maximum match contribution is 4%. Such contributions shall be made regardless of the number of hours worked by the participant, and whether or not the participant is employed at the end of the plan year ("Safe Harbor Matching Contributions"). Additional contributions (including matching contributions) may be deposited to the Plan at the discretion of the Company's Board of Directors, but in no event shall they exceed 15% of the compensation of all participants. The Plan was amended effective January 1, 2008 to provide for safe harbor contributions, within the meaning or Treas. Reg 1.401(k)-3(c), and shall be subject to the requirements of said Treasury Regulation. As a result, the Plan will no longer be subject to ADP/ACP nondiscrimination testing.

3. Participants' Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, and Plan earnings. The benefit to which a participant is entitled is equal to the vested value of his or her accounts. The nonvested portion of terminated participants' accounts shall be forfeited and credited to the remaining active participants' accounts.

Note A – Description of Plan (Continued)

4. Employee Rollovers

Employee rollovers to the Plan from another plan qualified under Internal Revenue Code 401(a), whether directly or through an individual retirement account, are permitted. Any amount rolled over to the Plan is fully vested and nonforfeitable.

5. Forfeitures

There were no forfeitures for the years ended December 31, 2012 and 2011. Amounts not vested upon termination of employment are forfeited. These accounts will be reallocated to participants in the same manner as employer contributions.

6. Notes Receivable from Participants

Active participants may borrow from their vested accounts, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance whichever is less. Loan transactions are treated as a transfer to (from) the investment from (to) the participant loan fund. Loan terms range from one to five years. Residential loans are permitted and be repaid over a ten year period. The loans are secured by the balances in the accounts of the participants and bear interest at a rate equal to the prime interest rate plus 1% at the date of the loan. Principal and interest are paid ratably through monthly payroll deductions. Interest rates on loans range from 4.25% to 8.25%.

7. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions, plus actual earnings thereon, are 100% immediately vested.

8. Payment of Benefits

On termination of service, a participant who has vested benefits over $1,000, but not over $5,000, can elect to receive the distribution in cash or have it transferred to an IRA or another qualified plan. In the event that the participant does not make a choice, the Plan sponsor will transfer the balance to an IRA in the participant's name. Balances of $1,000 or below are distributed in a lump sum. A participant whose vested benefits are more than $5,000 may remain in the Plan until age 70-1/2. Distribution options include lump sum or cash, direct rollover or annual installments over a 5 or 10 year period.

Note A – Description of Plan (Continued)

Active participants over the age of 65 may withdraw all available amounts in their accounts. Certain hardship withdrawals by active employees may be allowed, in accordance with the Plan's provisions, to the maximum amount available for hardship distribution in the account of the participant. Benefit payments are recorded when incurred.

9. Administration

The Plan is administered by the trustee and custodian, who is appointed by the Company's Board of Directors.

Note B – Summary of Accounting Policies

1. Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

2. Investment Valuation and Income Recognition

The Plan investments are held by Institutional Retirement & Trust, a division of Wells Fargo Bank, N.A., ('Institutional') and are valued on certified values provided to the Plan by Institutional. The trustee and custodian is responsible for executing all of the Plan's investment transactions.

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

4. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note B – Summary of Accounting Policies (Continued)

5. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

6. Operating Expenses

All of the Plan's administrative expenses are paid by the Company on the Plan's behalf.

7. Subsequent Events

The Plan has evaluated the impact of subsequent events through September 23, 2013, which is the date the financial statements were available to be issued.

Note C - Investments

The following summarizes the investments at fair value which represent 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011:

* Denotes a party-in-interest as defined by ERISA.

** Account balance does not represent 5% or more of the Plan's net assets for the corresponding year.

Note C – Investments (Continued)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $6,303,647 as follows:

Mutual funds	$5,821,540
Common trust funds	482,107
	$6,303,647

Note D – Tax Status

The Internal Revenue Service ('IRS') has determined and informed the Company by a letter dated March 17, 2011 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ('IRC'). Although the Plan has been amended since receiving the determination letter, the Plan's sponsor believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note E – Fair Value Measurements

The Plan establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets in the active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note E – Fair Value Measurements (Continued)

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Mutual fund investments are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Common trust funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant will become 100% vested in his/her account.

Note G – Information Certified by the Plan's Trustees

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Institutional, the trustee and custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012, has certified to the completeness and accuracy of the financial information related to investments and, notes receivable from participants, investment income, including interest and dividend income and interest income on notes receivable from participants.

Note H – Party -In-Interest Transactions

During the years ended December 31, 2012 and 2011, certain Plan assets were invested in certain mutual funds offered by Wells Fargo, N.A. The trustee and custodian of the Plan is Institutional Retirement & Trust, a division of Wells Fargo Bank, N.A., which is a party-in-interest as defined by ERISA.

Note I – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note A – Description of Plan

The following brief description of the Ampacet Corporation 401(k) Profit Sharing Plan (the "Plan") of Ampacet Corporation (the "Company") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan which covers substantially all employees of the Company in the United States. Employees are eligible to participate in the Plan on the first day of January, April, July or October following the completion of three months of service and the attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each participant may elect to defer a portion of his or her annual earnings to the Plan. This elective deferral may not exceed the adjusted limit provided in Section 402(g) of the Internal Revenue Code of 1986 ($17,000 for 2012 and $16,500 for 2011). Participants who are at least age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $5,500 in 2012.

Participants direct the investment of the contributions into various investment options offered by the Plan. The Company matches 100% of employee deferrals on the first 3% of compensation and 50% of the next 2% of compensation. The maximum match contribution is 4%. Such contributions shall be made regardless of the number of hours worked by the participant, and whether or not the participant is employed at the end of the plan year ("Safe Harbor Matching Contributions"). Additional contributions (including matching contributions) may be deposited to the Plan at the discretion of the Company's Board of Directors, but in no event shall they exceed 15% of the compensation of all participants. The Plan was amended effective January 1, 2008 to provide for safe harbor contributions, within the meaning or Treas. Reg 1.401(k)-3(c), and shall be subject to the requirements of said Treasury Regulation. As a result, the Plan will no longer be subject to ADP/ACP nondiscrimination testing.

3. Participants' Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, and Plan earnings. The benefit to which a participant is entitled is equal to the vested value of his or her accounts. The nonvested portion of terminated participants' accounts shall be forfeited and credited to the remaining active participants' accounts.

Note A – Description of Plan (Continued)

4. Employee Rollovers

Employee rollovers to the Plan from another plan qualified under Internal Revenue Code 401(a), whether directly or through an individual retirement account, are permitted. Any amount rolled over to the Plan is fully vested and nonforfeitable.

5. Forfeitures

There were no forfeitures for the years ended December 31, 2012 and 2011. Amounts not vested upon termination of employment are forfeited. These accounts will be reallocated to participants in the same manner as employer contributions.

6. Notes Receivable from Participants

Active participants may borrow from their vested accounts, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance whichever is less. Loan transactions are treated as a transfer to (from) the investment from (to) the participant loan fund. Loan terms range from one to five years. Residential loans are permitted and be repaid over a ten year period. The loans are secured by the balances in the accounts of the participants and bear interest at a rate equal to the prime interest rate plus 1% at the date of the loan. Principal and interest are paid ratably through monthly payroll deductions. Interest rates on loans range from 4.25% to 8.25%.

7. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions, plus actual earnings thereon, are 100% immediately vested.

8. Payment of Benefits

On termination of service, a participant who has vested benefits over $1,000, but not over $5,000, can elect to receive the distribution in cash or have it transferred to an IRA or another qualified plan. In the event that the participant does not make a choice, the Plan sponsor will transfer the balance to an IRA in the participant's name. Balances of $1,000 or below are distributed in a lump sum. A participant whose vested benefits are more than $5,000 may remain in the Plan until age 70-1/2. Distribution options include lump sum or cash, direct rollover or annual installments over a 5 or 10 year period.

Note A – Description of Plan (Continued)

Active participants over the age of 65 may withdraw all available amounts in their accounts. Certain hardship withdrawals by active employees may be allowed, in accordance with the Plan's provisions, to the maximum amount available for hardship distribution in the account of the participant. Benefit payments are recorded when incurred.

9. Administration

The Plan is administered by the trustee and custodian, who is appointed by the Company's Board of Directors.

Note B – Summary of Accounting Policies

1. Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

2. Investment Valuation and Income Recognition

The Plan investments are held by Institutional Retirement & Trust, a division of Wells Fargo Bank, N.A., ('Institutional') and are valued on certified values provided to the Plan by Institutional. The trustee and custodian is responsible for executing all of the Plan's investment transactions.

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

4. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note B – Summary of Accounting Policies (Continued)

5. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

6. Operating Expenses

All of the Plan's administrative expenses are paid by the Company on the Plan's behalf.

7. Subsequent Events

The Plan has evaluated the impact of subsequent events through September 23, 2013, which is the date the financial statements were available to be issued.

Note C - Investments

The following summarizes the investments at fair value which represent 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011:

** Account balance does not represent 5% or more of the Plan's net assets for the corresponding year.

Note C – Investments (Continued)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $6,303,647 as follows:

Mutual funds	$5,821,540
Common trust funds	482,107
	$6,303,647

Note D – Tax Status

The Internal Revenue Service ('IRS') has determined and informed the Company by a letter dated March 17, 2011 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ('IRC'). Although the Plan has been amended since receiving the determination letter, the Plan's sponsor believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note E – Fair Value Measurements

The Plan establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets in the active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note E – Fair Value Measurements (Continued)

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Mutual fund investments are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Common trust funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant will become 100% vested in his/her account.

Note G – Information Certified by the Plan's Trustees

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Institutional, the trustee and custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012, has certified to the completeness and accuracy of the financial information related to investments and, notes receivable from participants, investment income, including interest and dividend income and interest income on notes receivable from participants.

Note H – Party -In-Interest Transactions

During the years ended December 31, 2012 and 2011, certain Plan assets were invested in certain mutual funds offered by Wells Fargo, N.A. The trustee and custodian of the Plan is Institutional Retirement & Trust, a division of Wells Fargo Bank, N.A., which is a party-in-interest as defined by ERISA.

Note I – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note A – Description of Plan

The following brief description of the Ampacet Corporation 401(k) Profit Sharing Plan (the "Plan") of Ampacet Corporation (the "Company") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan which covers substantially all employees of the Company in the United States. Employees are eligible to participate in the Plan on the first day of January, April, July or October following the completion of three months of service and the attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each participant may elect to defer a portion of his or her annual earnings to the Plan. This elective deferral may not exceed the adjusted limit provided in Section 402(g) of the Internal Revenue Code of 1986 ($17,000 for 2012 and $16,500 for 2011). Participants who are at least age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $5,500 in 2012.

Participants direct the investment of the contributions into various investment options offered by the Plan. The Company matches 100% of employee deferrals on the first 3% of compensation and 50% of the next 2% of compensation. The maximum match contribution is 4%. Such contributions shall be made regardless of the number of hours worked by the participant, and whether or not the participant is employed at the end of the plan year ("Safe Harbor Matching Contributions"). Additional contributions (including matching contributions) may be deposited to the Plan at the discretion of the Company's Board of Directors, but in no event shall they exceed 15% of the compensation of all participants. The Plan was amended effective January 1, 2008 to provide for safe harbor contributions, within the meaning or Treas. Reg 1.401(k)-3(c), and shall be subject to the requirements of said Treasury Regulation. As a result, the Plan will no longer be subject to ADP/ACP nondiscrimination testing.

3. Participants' Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, and Plan earnings. The benefit to which a participant is entitled is equal to the vested value of his or her accounts. The nonvested portion of terminated participants' accounts shall be forfeited and credited to the remaining active participants' accounts.

Note A – Description of Plan (Continued)

4. Employee Rollovers

Employee rollovers to the Plan from another plan qualified under Internal Revenue Code 401(a), whether directly or through an individual retirement account, are permitted. Any amount rolled over to the Plan is fully vested and nonforfeitable.

5. Forfeitures

There were no forfeitures for the years ended December 31, 2012 and 2011. Amounts not vested upon termination of employment are forfeited. These accounts will be reallocated to participants in the same manner as employer contributions.

6. Notes Receivable from Participants

Active participants may borrow from their vested accounts, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance whichever is less. Loan transactions are treated as a transfer to (from) the investment from (to) the participant loan fund. Loan terms range from one to five years. Residential loans are permitted and be repaid over a ten year period. The loans are secured by the balances in the accounts of the participants and bear interest at a rate equal to the prime interest rate plus 1% at the date of the loan. Principal and interest are paid ratably through monthly payroll deductions. Interest rates on loans range from 4.25% to 8.25%.

7. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions, plus actual earnings thereon, are 100% immediately vested.

8. Payment of Benefits

On termination of service, a participant who has vested benefits over $1,000, but not over $5,000, can elect to receive the distribution in cash or have it transferred to an IRA or another qualified plan. In the event that the participant does not make a choice, the Plan sponsor will transfer the balance to an IRA in the participant's name. Balances of $1,000 or below are distributed in a lump sum. A participant whose vested benefits are more than $5,000 may remain in the Plan until age 70-1/2. Distribution options include lump sum or cash, direct rollover or annual installments over a 5 or 10 year period.

Note A – Description of Plan (Continued)

Active participants over the age of 65 may withdraw all available amounts in their accounts. Certain hardship withdrawals by active employees may be allowed, in accordance with the Plan's provisions, to the maximum amount available for hardship distribution in the account of the participant. Benefit payments are recorded when incurred.

9. Administration

The Plan is administered by the trustee and custodian, who is appointed by the Company's Board of Directors.

Note B – Summary of Accounting Policies

1. Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

2. Investment Valuation and Income Recognition

The Plan investments are held by Institutional Retirement & Trust, a division of Wells Fargo Bank, N.A., ('Institutional') and are valued on certified values provided to the Plan by Institutional. The trustee and custodian is responsible for executing all of the Plan's investment transactions.

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

4. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note B – Summary of Accounting Policies (Continued)

5. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

6. Operating Expenses

All of the Plan's administrative expenses are paid by the Company on the Plan's behalf.

7. Subsequent Events

The Plan has evaluated the impact of subsequent events through September 23, 2013, which is the date the financial statements were available to be issued.

Note C - Investments

The following summarizes the investments at fair value which represent 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011:

Note D – Tax Status

The Internal Revenue Service ('IRS') has determined and informed the Company by a letter dated March 17, 2011 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ('IRC'). Although the Plan has been amended since receiving the determination letter, the Plan's sponsor believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note E – Fair Value Measurements

The Plan establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets in the active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note E – Fair Value Measurements (Continued)

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Mutual fund investments are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Common trust funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:
