NOTE 1 - PLAN DESCRIPTION

The following description of the MCE Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution and profit sharing plan covering all employees of MCE Corporation (the Company / the Plan sponsor) who have completed one month of service, except leased employees who are excluded from the Plan. Employees may enter the Plan the first day of the month after they become eligible to participate in the Plan. Employees are automatically enrolled in the Plan unless they decline to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b) Contributions

Each year, participants may contribute up to 60% of their annual compensation, as defined in the Plan. Since 2008, participants automatically contribute 3% of their compensation, unless they elect not to participate in the Plan. Participants may also contribute amounts representing rollover distributions from other qualified plans. The Company may make additional discretionary matching contributions at the option of the Company's management. Participants are eligible for matching contributions if they have completed at least 1,000 hours of service and are employed by the sponsor at the end of the plan year. In addition, the Company may make discretionary profit sharing contributions to the Plan. Participants direct the investment of matching Company and profit sharing contributions. Contributions are subject to certain limitations.

c) Participant accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contributions, (b) plan earnings, and (c) forfeitures of terminated participant's non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on participant's account balance as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - PLAN DESCRIPTION (Continued)

d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution and profit sharing portion of their accounts plus actual earnings thereon is based on years of continuous services. A participant is 100% vested after five continuous years of credited service.

Employer vesting schedule for plan participants is as follows:

End of year 1	20%
End of year 2	40%
End of year 3	60%
End of year 4	80%
End of year 5	100%

e) Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance vested in the participant's account and bear interest at a reasonable rate, which is determined by the plan administrator. Payment terms of the loan are a maximum of five years. However, if used to purchase the participant's principal residence, the plan administrator may permit a longer repayment term. The interest rate is determined by the administrator based on prevailing rates charged by persons in the business of lending under similar circumstances. All loans become immediately due in the event the participant terminates employment with the Company. Principal and interest is paid ratably through payroll deductions.

f) Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments, over a period of not more than the participant's assumed life expectancy. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 1 - PLAN DESCRIPTION (Continued)

g) Forfeited accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $25,803 and $25,162 respectively. At December 31, 2012 and 2011, $3,353 and $3,484, respectively, of these accounts was used to pay administrative expenses under the Plan, as directed by the sponsor.

Forfeited non-vested accounts may also be used to reduce future employer matching and profit sharing contributions under the Plan. Subsequent to year end, $25,800 of the forfeitures balance was allocated to participant accounts based on 2012 employee deferrals.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available of Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

b) Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c) Investment valuation and income recognition (continued)

measurement date. The Plan sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d) Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

e) Payment of benefits

Benefits are recorded when paid.

f) Administrative expenses

Significant investment management fees are paid by the Plan. Professional fees related to the Plan are paid by forfeitures of the Plan. Any excess fees not covered by forfeitures will be paid by the Plan sponsor.

g) Subsequent events

The Plan has evaluated subsequent events through July 15, 2013, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following presents investments at December 31, 2012 and 2011, that represent 5% or more of the Plan's net assets:

	December 31, 2012	December 31, 2011
Fidelity Leveraged Company Stock Fund	$ 543,372	$ 420,577
Fidelity Growth Opportunities Fund	395,289	346,336
Fidelity Diversified International Fund	195,807	166,185
Fidelity New Insights Fund	795,899	681,444
Fidelity Stable Value Fund	364,922	481,513
Loomis Bond Admin Fund *	211,888	145,647
Totals	$ 2,507,177	$ 2,241,702

* Denotes 5% of plan's net assets in 2012 only.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $403,877 as follows:

Stable value funds	$ 4,900
Mutual funds	398,977
	$ 403,877

NOTE 4 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles (GAAP), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at net asset value (NAV) per share at the close of each business day as reported by each fund, which value their securities at fair value.

Stable Value Funds: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with Fidelity Management Trust Company (Fidelity). The Fund invests primarily in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into "wrap" contracts issued by third-parties and invests in cash equivalents represented by shares in money market funds. Fidelity maintains the contributions in a general account.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011, was $364,922 and $481,513 respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2012	2011
Based on actual earnings	1.69%	1.74%
Based on interest rate credited to participants	1.11%	1.26%

NOTE 6 - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and stable value funds managed by Fidelity. Fidelity is the qualifying institution as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the company contribution portion of their accounts.

NOTE 8 - TAX STATUS

The Plan adopted Fidelity Managements & Research Co. standardized basic prototype 401(k) plan, effective March 31, 2008. The IRS issued a clean opinion letter that stated this prototype plan qualified under the applicable provision of the Internal Revenue Code (IRC). Although the Plan has not received a determination letter from the IRS, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - FINANCIAL INFORMATION CERTIFIED BY QUALIFYING INSTITUTION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from Fidelity, the qualifying institution of the Plan, that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments in the trust funds administered by the qualifying institutions, interest income, and all information in the supplemental schedule is presented in reliance solely upon those certifications, and has not been audited by the independent auditors.

NOTE 12 - CHANGES TO FUND OPTIONS

During the plan year ending December 31, 2012, the Plan added the Fidelity Freedom 2055 Fund, part of the Blended Funds.

During the plan year ending December 31, 2011, the Plan added the Perkins Mid Cap Value Fund, part of the Mid-Cap Funds.

NOTE 13 - PLAN OPERATIONAL FAILURE

For the year ended December 31, 2011, it was noted that the Plan allowed a participant to obtain a loan with a loan term in excess of the maximum term allowable according to the Plan document. During 2012, the loan was re-amortized to comply with the maximum allowable term in compliance with the current Plan document.
