THE SUTER COMPANY EMPLOYEES' SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN

The following description of the The Suter Company Employees' Savings and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of The Suter Company (the Company) who have completed three consecutive months of service and having reached the age of 18. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

The Company appointed Castle Bank N.A., a division of First National Bank of Omaha, as trustee to direct the activities of the Plan from January 1, 2011 to August 2, 2011. The Company appointed Ascensus, Inc., an agent for First National Bank of Omaha, as trustee to direct the activities of the Plan from August 2, 2011 to December 31, 2012.

For the purpose of the Plan, a trust known as the The Suter Company Employees' Savings and Retirement Plan has been created to receive all contributions and to pay all benefits under the Plan. The trustee is responsible for the holding, investing and disposal of all trust assets.

The Plan is administered by The Suter Company. Among the duties of the Administrator are the maintenance of participants' records, the determination of the right of any person to a benefit, the determination of the method of payment of such benefit, and others.

Participation

Participation in the Plan is extended to any individual who is in the service and employ of The Suter Company, excluding collective bargaining employees, non-resident aliens, leased employees, employees who are 5% owners of the Suter Company, Inc and reclassified employees. Such individuals will become a participant in the Plan upon completion of three months service with the Company and attainment of age 18. Upon becoming eligible, participants may enter the Plan on the first day of each Plan year quarter.

Contributions

Participants' contribution
Participants may elect to have up to a maximum of 100 percent, withheld from their compensation before taxes contributed to the Plan, not to exceed Internal Revenue Code (IRC) annual limitations. Any participant who otherwise does not elect a voluntary contribution will be auto enrolled for a pre-tax contribution of 3 percent. Participants' elective contributions withheld from their compensation will be paid weekly to the Plan trustee. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

Matching contributions
The Company may make discretionary matching contributions equal to a discretionary percentage, determined by the Company, of the participant's elective deferrals. In 2012 and 2011, the company match was equal to 50 percent of the first 5 percent of base compensation that a participant contributed to the Plan.

Discretionary contribution
The Company's discretionary contribution will be an amount determined by the Company, and is to be paid annually to the Plan trustee. In order to receive an allocation of discretionary contributions, an employee must be credited with at least 1,000 hours of service during the Plan year and must be employed by the Company on the last day of the Plan year. Any such contribution will be allocated on the same ratio that the employee's compensation bears to total compensation. In 2012 and 2011, the Company's discretionary contribution was $60,000.

Participant Accounts

Each participant's account is credited with the participant's contribution, rollover contributions, Company's matching contributions (if any), an allocation of the Company's discretionary contribution (if any), and an allocation of Plan earnings. Allocations are based on participant earnings or participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon. Participants' interests in their share of the Company matching and discretionary contributions vest in accordance with the following schedule based on years of service (a 12-consecutive month period of at least 1,000 hours of service):

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

If an active participant dies prior to attaining normal retirement age, the participant's vesting percentage shall be 100 percent. Full vesting also occurs upon attainment of age 65 or termination of employment due to disability.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $164 and $14,984, respectively. These amounts may be used to reduce the Company matching contributions and discretionary contributions. Company matching contributions and discretionary contributions made through forfeitures during Plan year ending December 31, 2012 and 2011 totaled $23,352 and $5,734, respectively.

Payment of Benefits

Benefits are payable to the participant upon:

(a) death or retirement from the service of Company on or after normal retirement date (age 65) or on account of disability; or

(b) resignation or dismissal from the service of Company prior to normal retirement date;

If the benefits are payable in the event of (a) above, the amount of the benefits would be equal to the then balance in the participant's accounts. However, if (b) is applicable, the benefits payable would be the total of the participant's own contributions, and the Company matching and discretionary contributions, up to the amount of the participant's vested interest in the Company's contributions. If the vested benefits are less than $5,000, the balance will be distributed as either a cash distribution or rolled into an Individual Retirement Account (IRA). If the participant does not elect a method of payment and the vested balance is greater than $1,000, it will automatically be rolled over into an IRA. Balances of $1,000 or less will be distributed in a lump sum to the participant. If the balance is more than $5,000, an election to receive the benefit must be made. Benefits may be paid in a lump-sum payment.

Each participant or former participant may, in writing, designate a beneficiary or beneficiaries to whom distributions of participant's interest in the Trust shall be made in the event of participant's death.

In-service withdrawals are available to participants, but funds may only be withdrawn from vested account balances.

The Plan also allows for in-service withdrawals of all or part of the participant's vested contributions balance in the case of immediate and heavy financial need. The withdrawal cannot exceed the amount required to relieve the financial need.

Administrative Expenses

The expenses of administering the Plan, including investment fees, are paid by the Plan and Plan Sponsor.

NOTE 2 - SUMMARY OF SIGNIFICANT OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective fund, the BNP Paribas FFTW Income Plus Fund. Contract value for this common collective fund is based on the net asset value of the fund as reported by the investment advisor. As required, the statements of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the common collective fund from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustees. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - SUMMARY OF INFORMATION CERTIFIED BY TRUSTEES

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a) Total participants' directed investments as shown in the accompanying statements of net assets available for benefits of $4,768,192 as of December 31, 2012 and $4,026,905 as of December 31, 2011, adjusted from fair value to contract value for a fully benefit responsive investment contract.

b) Net investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of $505,134 as of December 31, 2012 and $(29,183) for the year ended December 31, 2011.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 - FAIR VALUE OF MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access;
- Level 2 - Inputs to the valuation methodology include:
    - Quoted prices for similar assets and liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2012 and 2011:

Mutual funds: Valued at the net asset value ("NAV") of the shares held by the Plan at year end.

Common collective fund: The common collective fund invests in collective investments and reinvestment in one or more bank, insurance company, or synthetic invest contracts, and in short term investments which are not publicly traded. The fund is valued at the net assets value per unit on the valuation date (December 31, 2012 and 2011). There are no redemption restrictions for Plan participants with this fund. At December 31, 2012 and 2011, there were no unfunded commitments or contingencies related to this fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

(a) The common collective fund invests solely in the BNP Paribas FFTW Income Plus Fund. The fund's objective is to preserve invested principal while providing a competitive current rate of return.

NOTE 6 - RELATED-PARTY TRANSACTIONS

Castle Bank N.A., a division of First National Bank of Omaha, provided trustee and recordkeeping services. On August 2, 2011, Ascensus began providing the recordkeeping services. The trustees and recordkeepers charged the participants $12,440 and $2,971 for these services during the Plan years ended December 31, 2012 and 2011, respectively.

Certain administrative functions are performed by officers and employees of the Company for which no compensation is received.

Administrative expenses of the Plan are paid for by the Company and the Plan.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested.

NOTE 8 - TAX STATUS

Prior to January 1, 2012, the Plan adopted the First National Bank of Nebraska, Inc. Prototype Non-Standardized Profit Sharing Plan with CODA that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008 which stated that the prototype Plan is acceptable for use by employers under section 401 of the IRC. Effective January 1, 2012, the Plan has adopted the Ascensus Inc Prototype Non-standardized Profit Sharing Plan with CODA that received a favorable opinion letter from the IRS on March 31, 2008, which stated that the prototype Plan is acceptable for use by employees under Section 401 of the IRC. The Plan itself has not requested a determination letter. However, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
