1. DESCRIPTION OF THE PLAN

The following description of the Dan Williams Company 401(k) Plan (the "Plan") provides only general information. Interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan was adopted January 1, 2003. The Plan is a defined contribution plan covering employees of Dan Williams Company (the "Company") who have completed one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute to the Plan on a pretax basis an amount from 1% to 100% of their eligible compensation, subject to an annual limitation of $17,000 and $16,500 for 2012 and 2011, respectively. For 2012 and 2011, participants age 50 or older may contribute an additional $5,500 to the Plan, which is called a catch-up contribution.

The Company will make a matching contribution in an amount equal to 100% of the participant's elective deferral but shall not exceed 1.5% of the participant's compensation.

Participant Accounts - Each participant's account is credited with the participant's contribution and the employer's matching contribution as well as an allocation of the Plan's earnings and administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from that participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions plus actual earnings thereon is according to a graduated schedule based on years of service. Participants are fully vested in these contributions after six years of service.

Notes Receivable from Participants - Participant loans are permitted under the Plan. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50 percent of the vested interest of the participant's fund or $50,000. The loans are secured by the balance in the participant's account. Principle and interest are paid through payroll deductions.

Payment of Benefits - On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) shall have a nonforfeitable right to receive the full amount available for distribution from their account. Distributions are paid in lump-sum amounts.

1. DESCRIPTION OF THE PLAN (Continued)

Forfeitures - Forfeitures of the Employer's contributions and earnings thereon resulting from participants leaving the Company prior to vesting are retained in a forfeiture account. Forfeitures of Employer matching contributions can supplement matching contributions and be allocated to those participants eligible to receive an allocation of matching contributions. Forfeitures can also be used to play plan expenses. During the years ended December 31, 2012 and 2011, no forfeitures were allocated to plan participants. At December 31, 2012 and 2011, the balance in the forfeiture account was $0 and $1,062, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates in the Preparation of Financial Statements - The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation - The pooled separate account's assets are stated at fair value. The fair value of the the shares of the underlying funds equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund.

Net Appreciation (Depreciation) in Fair Value of Investments - Net appreciation (depreciation) consists of the unrealized appreciation (depreciation) of the investments and the excess (deficiency) of net proceeds over market value of the related investment at the beginning of the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - All expenses of maintaining the Plan are paid by the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties - The Plan provides for various investment options in any combination of investment securities based upon participant requests. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events - Subsequent events were evaluated through July 17, 2013, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan has certified that the following data included in the accompanying financial statements is complete and accurate:

	December 31, 2012	December 31,2011
Investments, at fair value:		
Pooled separate account	$ -	$ 394,904
Investment Income:		
Net appreciation (depreciation) in fair value of investments	$ 50,060	$ (8,709)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The asset or liability's fair value measurement level within the fair value hierarch is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observed inputs and minimize the use on unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

The pooled separate account's assets are stated at fair value. The fair value of the the shares of the underlying funds equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund. Based on the preceding statement, the Plan's assets have been classified as Level 1. As a result, there were no transfers between Level 1 and Level 2 assets, nor were any of the Plan's assets Level 3.

The preceding method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011. There were no plan assets at December 31, 2012.

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $50,060 and $(8,709), respectively.

6. TAX STATUS

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the prototype plan from which the Plan was drafted has received a favorable determination from the IRS. The Plan administrator believes that the Plan is designed to operate in accordance with all applicable provisions of the Internal Revenue Code. Therefore, the Plan administrator believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code.

Accounting principles generally accepted in the Unites States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. PLAN TERMINATION

The Board of Directors of Dan Williams Company, the Plan's Sponsor, voted on October 23, 2012 to terminate the Plan effective December 1, 2012. Final distributions were determined based on all participants being 100% vested, and were made as soon as possible after the termination date. In accordance with generally accepted accounting principles, the Plan has changed its basis of accounting used to value plan assets from the ongoing plan basis to the liquidation basis for periods after October 23, 2012.

8. RELATED PARTY TRANSACTIONS

Personnel and facilities of Dan Williams Company, which are used by the Plan for its accounting and other activities, have been provided at no charge to the Plan.
