Independent Auditor's Report

To the Trustees and Plan Administrator of the Omnitex Corporation Profit Sharing 401(k) Plan and Participants:

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of the Omnitex Corporation Profit Sharing 401(k) Plan which comprises the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Great-West Life & Annuity Insurance Company, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2012 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to the Financial Statements
Omnitex Corporation Profit Sharing 401(k) Plan

Note A – Description of the plan

The following brief description of the Omnitex Corporation Profit Sharing 401(k) Plan ("the Plan") is provided for general information purposes only. The Plan is sponsored by Omnitex Corporation (the "Plan Sponsor" or "Company"). Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, originally established January 1, 1999, under the name of A.H.I. Supply, Inc. 401(k) Plan. The Plan was amended and restated effective January 1, 2005 under the name of Omnitex Corporation Profit Sharing 401(k) Plan and was amended and restated effective January 1, 2009 to conform to legislative and regulatory changes. The Plan covers all employees of Omnitex Corporation, A.H.I. Supply, LLC and Ameristeel Constructors, LLC (collectively referred to as the "Company" or "Sponsor") who have completed one (1) year of service and attained the age of twenty-one (21). An employee's entry date is the first day of the quarter coinciding with or next following date eligibility requirements are met. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC") and subsequent related amendments and revisions. The Company is the designated administrator of the Plan and Great-West Life & Annuity Insurance Company is the custodian of the Plan responsible for the management and control of the Plan's assets which are held in individual participant investment accounts.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) employer Safe Harbor and non-elective profit sharing contributions and (b) Plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Employee contributions

Participants may elect to defer a percentage or dollar amount of their salary at each pay period up to the maximum amount allowed for deferral under the IRC. The amount deferred is not subject to federal taxation to the participants until distributions are made from the Plan. Participants who have attained age fifty (50) or older before the end of the tax year are eligible to make catch-up contributions up to the maximum amount allowed for deferral under the IRC. Participants may also designate all or a portion of their elective deferrals as Roth elective deferrals. Participants may discontinue their election to contribute at any time. Participants may also contribute eligible rollovers from other qualified defined benefit or defined contribution plans and individual retirement accounts. Additional after-tax voluntary contributions are not permitted.

The Plan also provides for a separate deferral election that applies only to bonuses and does not affect the existing elections for all other Plan compensation. Participants may defer up to 100% of any bonuses paid during the year.

Employer contributions

Effective April 1, 2010, the employer safe harbor non-elective contribution was discontinued. Accordingly, there were no employer contributions made during the years ended December 31, 2012 and 2011.

Additionally, each Plan year the Company may make non-elective profit sharing contributions in amounts determined by the Company. Profit sharing contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. Eligible participants who are employed on the last day of the Plan year share in any discretionary profit sharing contributions. No non-elective profit sharing contributions were made during the year ended December 31, 2012.

ERISA and the IRC provide that plans such as Omnitex Corporation Profit Sharing 401(k) Plan cannot discriminate in favor of highly compensated individuals. To comply with these laws, certain highly compensated individuals may receive funds in the year that contributions were made in excess of the IRC Section 401(k) limit and all earnings attributable to such contributions. At December 31, 2012, there were no corrective distributions payable to participants.

Rollovers

Rollovers represent funds transferred to the Plan from other qualified plans. Participants may roll over certain qualifying funds into the Plan in accordance with the Plan document.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. Investment options primarily consist of pooled separate accounts and a group annuity contract. Participants may elect to allocate their total contributions to the various investment options in increments of 1% and may change their investment options daily, subject to certain restrictions on such changes imposed by the Plan's investment funds.

Vesting

Participants are fully vested in their voluntary contributions and safe harbor contributions plus actual earnings (losses) thereon. Vesting in the Company's non-elective profit sharing contributions and earnings thereon is based on years of continuous service. A year of service is defined as 1,000 hours of service during any plan year. Additionally, a participant will become fully vested in the Company's contributions account upon reaching normal retirement age or in the event of death or total and permanent disability.

The vesting schedule for Company non-elective profit sharing contributions and earnings is determined as follows:

Years of Service:	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeited accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are retained in the Plan and will first be used to pay administrative

expenses. Any remaining forfeitures will be used to reduce any employer contribution to the Plan. Forfeited non-vested accounts amounted to $859 and $1,768 at December 31, 2012 and 2011, respectively. During 2012 and 2011, the Company applied $934 and $12,793, respectively, from the forfeiture balance to reallocate to participants and reduce employer contributions, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their account balance, whichever is less. The maximum of $50,000 is reduced by the highest outstanding loan balance the participant had under the Plan during the previous twelve-month period. No more than three loans can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at a rate of 3.25% to 4.25% which is consistent with local prevailing rates at the time the loans were initiated as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. All loans must be repaid within five years, unless the loan is used to purchase a primary residence, for which loan terms may range up to fifteen years.

Payment of Benefits

On termination of employment, disability, death, or normal retirement, a participant or designated beneficiary may elect to receive a lump-sum cash distribution equal to the value of the participant's vested account balance, a direct rollover distribution, or a combination of a cash distribution and direct rollover distribution. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. If the vested account balance is $5,000 or less, the account will be distributed to the participant without consent as a single lump-sum distribution in cash.

If an active participant has attained age fifty-nine and one-half (59½), they may elect to withdraw all or a portion of their account while still employed by the Company. Hardship distributions are available to participants who demonstrate an immediate and heavy financial need. In accordance with Internal Revenue Service ("IRS") regulations, participants must exhaust all other assets reasonably available to them prior to obtaining a hardship withdrawal. Participant's deferral contributions to the Plan will be suspended for six (6) months after the receipt of the hardship distribution.

Administrative Expenses

The Plan permits the payment of expenses incurred in connection with the recordkeeping and administration of the Plan to be made from the Plan's assets. Expenses will generally be allocated among the accounts of all participants in the plan proportionately based on the value of the participant's account balances. Specific fees such as loan processing fees may also be charged directly to a participant's account in response to transactions requested under the Plan. Certain expenses such as advisory, audit and tax return preparation are paid by the Company. Administrative expenses totaled $2,704 and $2,122 for the year ended December 31, 2012 and 2011, respectively.

Reclassifications

Certain amounts in the prior period presented have been reclassified to conform to the current period financial statement presentation. These reclassifications have no effect on previously reported net assets available for benefits.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Accordingly, actual results may differ from those estimates.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). ASU 2011-04 represents the converged guidance of the FASB and the International Accounting Standards Board on fair value measurement. A variety of measures are included in the update intended to either clarify existing fair value measurement requirements, change particular principles requirements for measuring fair value or for disclosing information about fair value measurements. For many of the requirements, the FASB does not intend to change the application of existing requirements under Accounting Standards codification ("ASC") Topic 820, Fair Value Measurements. ASU 2011-04 was effective for interim and annual periods beginning after December 15, 2011.

On July 8, 2013, the FASB issued ASU No. 2013-09, which indefinitely defers the requirements for nonpublic employee benefit plans within the ASU's scope to disclosure quantitative information about significant unobservable inputs used in Level 3 fair value measurements of certain equity investments as prescribed by ASU No. 2011-04. The deferral is effective as of July 8, 2013, for financial statements not yet issued. Accordingly, the adoption of ASU 2011-04 and ASU 2013-09 will not have an impact on the plan's financial statements as of December 31, 2012.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the plan administrator and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment valuation and income recognition

Investments are reported at fair value and are measured in accordance with ASC 820 with the exception of the group annuity contract. Fair value is the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The group annuity contract is fully benefit-responsive and is reported at fair value which approximates contract value. Contract value represents the accumulated contributions plus accrued net earnings less distributions. Fair value of the investment in the group annuity contract is estimated using discounted cash flows. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in value of

investments includes realized gains and losses on investments bought and sold during the year and unrealized appreciation (depreciation) of investments held at year-end. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits paid to participants are recorded when paid. As of December 31, 2012, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan Document.

Risks and uncertainties

The Plan provides for various investment options in pooled separate accounts and a group annuity contract. Investments, in general, are exposed to various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note C - Information Certified by the Custodian (Unaudited) or Investments

At December 31, 2012 and 2011, the Plan's investments were held by Great-West Life & Annuity Insurance Company ("the Custodian"). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets, as reported by the Custodian is summarized as follows:

	12/31/2012	12/31/2011
Maxim Lifetime 2015 Portfolio*	$ 521,745	$ 482,453
Maxim Lifetime 2025 Portfolio*	406,912	357,627
Maxim Lifetime 2035 Portfolio*	405,211	329,811
Maxim Lifetime 2045 Portfolio*	149,813	126,487

* Indicates party-in-interest.

** Represents less than five percent (5%) of the Plan's net assets as of December 31.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

		12/31/2012
Fixed income funds	$	576
Growth funds		369
Value funds		885
Blended funds		588
International funds		3,121

Index funds		1,181
	$	**158,009**

Note D – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. In some cases where market prices are not available, observable market based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the fair market value as determined by observable Level 1 quoted pricing inputs or by quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quoted pricing inputs (Level 1), the account values of separate accounts are not publicly quoted and are therefore classified as Level 2 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

Note E - Investment Contract with Insurance Company

The Plan has a group annuity contract with Great-West Life & Annuity Insurance Company ("Great-West") that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract since the contract was determined to be fully benefit-responsive. The contract is included in the financial statements at fair value which approximates contract value. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was $81,705. The crediting interest is based on a formula agreed upon with the issuer but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (1) premature termination of the contracts by the Plan, (2) plant closings, (3) layoffs, (4) Plan termination, (5) bankruptcy, (6) and early retirement incentives. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than the contract value.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2012	2011
Average yields:		
Based on actual earnings	1.45%	2.03%
Based on interest rate credited to participants	1.45%	2.03%

Note F – Related party transactions

Certain Plan investments are shares of pooled separate accounts and a group annuity issued and managed by Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company has been designated as the custodian as well as provides administration and recordkeeping services to the Plan. These specific investments issued or managed by Great-West Life and Annuity Insurance Company qualifies as party-in-interest transactions. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. There have been no known prohibited transactions with parties-in-interest.

The Plan has notes receivables from certain of its participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

Note G - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the employer contributions allocated to their accounts.

Note H - Tax status

The underlying volume submitter plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note I - Reconciliation of Plan financial statements to Schedule H of Form 5500

The following is a reconciliation of the net change in net assets available for benefits as reported in the financial statements to the net change as reported on Schedule H of the Form 5500 as of December 31, 2012 and 2011:

		12/31/2012		12/31/2011
Net increase in net assets available for benefits per the financial statements	$	218,358	$	(205,812)
Add: Employer contributions receivable at 12/31/2011		-		29,273
Less: Excess contributions payable to participants at 12/31/2011		-		(3,206)
Less: Forfeitures used to reduce employer contributions in 2011		-		(8,000)
Net increase in net assets available for benefits per Schedule H of Form 5500	**$**	**218,358**	**$**	**(187,745)**

Note J – Prior period adjustment

In 2011, the plan determined $8,000 of forfeitures used to reduce the employer safe harbor match contribution was improperly excluded from its 2010 financial statements. The plan has not restated its 2010 financial statements to include forfeitures used to reduce the employer contribution as the adjustment is not material to the financial statements taken as a whole. The effect of this prior period adjustment is a decrease to Net assets available for benefits as of January 1, 2011 of $8,000.

Note K – Subsequent Events

For the year-ended December 31, 2012, the Company has evaluated subsequent events and transactions for potential recognition and disclosure through July 22, 2013, the date the financial statements were available to be issued.
