ROBINSON OIL CORPORATION 401(K) PLAN

Notes to Financial Statements

December 31, 2012

Note 1 - Description of Plan:

The following description of the Robinson Oil Corporation (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution 401(k) profit sharing plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and section 401(a) of the Internal Revenue Code.

The Company is the Plan Administrator and retains the services of a third party to assist in the administration of the Plan. Through December 31, 2012, the Plan's custodian was Verisight Trust Company, and the Plan's third party administrator was Verisight, Inc.

Eligibility - Except for excluded employees, all employees of Robinson Oil Corporation and related employer Robinson Oil Supply & Transport, Inc. (collectively, the "Plan Sponsor") are eligible to participate in the Plan if they are at least twenty one years of age and have completed one year and 1,000 hours of service. Participants may begin deferring a portion of their compensation into the Plan on either January 1 or July 1 following eligibility. Employees covered under a collective bargaining agreement, non-resident aliens, and leased employees are not eligible to participate in the Plan.

Employee contributions - Participants may defer a portion of their compensation into the Plan including Roth deferrals subject to certain anti-discriminatory tests and to annual additions subject to the statutory limits. Participants age 50 or older are allowed to make "catch up" contributions during a Plan year, subject to statutory limits. Eligible participants may, in certain circumstances, "rollover" funds accumulated under plans in which they previously participated. The Company does not make any matching contributions on rollover funds received.

Employer matching contributions - The Plan Sponsor may make a matching contribution of 75% of the participant's deferred salary contributions up to $750 annually. The Plan Sponsor may also make a discretionary profit sharing contribution. However, the Plan Sponsor elected to forego a profit sharing contribution for 2012 and 2011.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of: (a) the Plan Sponsor's matching contribution, and (b) Plan earnings and losses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (continued):

Investments options - Investments of the Plan are held by Verisight Trust Company and invested solely on instructions received from participants into a number of investment options. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund.

Vesting - Participants are immediately fully vested in their contributions and in the Company's matching contributions, as well as all earnings on those contributions. Participants become vested in the Company's profit sharing contributions over a six-year graded vesting schedule.

Forfeited accounts - Forfeitures are used first to pay administrative expenses of the Plan, and thereafter are used to reduce any employer contributions. There were no forfeitures at December 31, 2012 and 2011.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits - The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement, disability, death, financial hardship (as defined in the Plan), or termination of employment. In service distributions of a participant's vested account balance are permitted providing the participant has attained normal retirement age (age 59 1/2). Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. The Plan allows for automatic lump sum distributions of participant vested account balances that do not exceed $5,000.

Administrative expenses - Participants absorb substantially all administrative expenses of the Plan. In 2012, approximately $22,000 in administrative costs were paid to the Plan Administrator.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Note 2 - Significant accounting policies (continued):

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The money market funds are valued at cost plus accrued interest, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments - The earnings, expenses, realized gains and losses, and unrealized appreciation (depreciation) in registered investments companies and other investments are recorded in the accompanying financial statements as net appreciation in fair value of investments.

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Investment management fees and operating expenses - Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements were available to be issued which is the date of the independent auditors' report.

Note 3 - Fair value:

The Plan performs fair value measurement in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Note 3 - Fair value (continued):

The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis were all deemed Level 1 by the Plan Administrator, consisted of the following types of investments as of December 31, 2012 and 2011:

	2012	2011
Mutual Funds:		
Large Blend	$ 2,480,750	$ 1,983,367

Money Market Funds	661,238	593,642
Total investments measured at fair value	$ 4,909,343	$ 4,166,740

Note 4 - Investments:

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent accountants did not perform any auditing procedures with respect to this information certified by Verisight Trust Company, the custodian of the Plan, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following information as of December 31, 2012 and 2011, included in the financial statements and supplemental schedule was provided by and certified by the Plan's custodian as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Benefits.
- Notes receivable from participants as shown in the Statement of Net Assets Available for Benefits.
- Investment and other income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012.
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2012.

Investments that represent five percent or more of the Plan's net assets are as follows

	2012	2011
Investment, at fair value:		
Vanguard Target Retirement 2015	$ 979,182	$ 843,611
Vanguard Target Retirement 2025	693,607	503,127

For the year ended December 31, 2012, the Plan's investments, including investments purchased and sold, as well as held during the year, net appreciated in fair value by $405,509.

Note 5 - Party-in-interest transactions:

At December 31, 2012 and 2011, the Plan did not have investments in Verisight Trust Company funds, the Plan's custodian.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, all non-vested account balances would become 100% vested.

Note 7 - Income tax status:

The Plan obtained its latest determination letter on June 25, 2010, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. Subsequent to receiving this determination letter, the prototype plan was amended. The Plan administrator believes that the amended prototype plan, as adopted by the Company, is operating in compliance with the requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.
