Notes to Financial Statements
December 31, 2012 and 2011

Note A – Description of plan

WorldLink, Inc. established the WorldLink 401(k) Plan effective January 1, 2007. The following description of the WorldLink 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution prototype plan covering all full-time employees of the Company who have one hour of service and who are not contractors or seasonal temporary employees. Enrollment is permitted on the first day of the month following the completion of the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the lesser of 90% or $17,000 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan automatically defers 3% for all eligible participants that do not make an affirmative deferral election.

Company contribution. The Company may elect to contribute and allocate to each eligible participant's account a percentage of the participant's elective deferral. Matching contributions, if any, are determined as of the end of the Plan Year. During the plan year ending December 31, 2012 no matching contributions occurred.

Rollovers. Participants may also contribute amounts representing distributions from other eligible retirement plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), (c) cost of investment management expenses, transactional costs and service charges. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants' account and bear interest at prime rate plus 2%. Loan payments are required to be remitted through payroll deductions.

Payment of benefits. On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount in cash or as a rollover equal to the value of the participant's vested interest in his or her account.

Note A – Description of plan (continued)

Investment options. Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their deferral percentage and investment options as often as they choose through the internet. Participants may terminate deferrals at any time.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of vesting service, as follows.

Year of Participation	Percent Vested
Less than 2 Years	0
2 Years	20
3 Years	40
4 Years	60
5 Years	80
6 Years or More	100

Years of vesting service are counted from the later of January 1, 2007 or date of hire. A year of vesting is the 12 month period beginning on date of hire. The method for crediting vesting service will be elapsed time.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note B – Summary of significant accounting policies (continued)

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note K for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits. Benefits are recorded when paid.

Withdrawals. Participants may make hardship withdrawals subject to certain restrictions In-service withdrawals of vested account balances are permitted for participants over age 59 1/2.

Forfeitures. Forfeitures are held by the Plan to determine if amounts should be restored to terminated participants. Forfeitures may be used to pay administrative expenses or to reduce employer contributions. At December 31, 2012 and 2011 there were no forfeited nonvested accounts and no employer contributions were reduced from forfeited nonvested accounts.

Administrative expenses. Administrative expenses consist of fees for recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the Plan documents for services received. The Company pays a portion of the plan administrative expenses each year.

Note C – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note D – Tax status

WorldLink, Inc. adopted a prototype plan provided by Automatic Data Processing. The IRS has informed ADP Inc. by opinion letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Code. The Plan administrator has analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note E – Risk/uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note F – Related party transactions

Certain Plan investments are shares of mutual funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the Trustee as defined in the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (loss) in fair value of investments.

Note G – Information certified by the plan's trustee

Plan assets are held by State Street Bank and Trust Company, the Trustee. The Trustee holds the Plan's investment assets and executes investment transactions in accordance with the Plan documents. The information provided by the Trustee is certified as complete and accurate in accordance with 29 CF 2520.103-5c of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Trustee's certification covers all information as shown below, and the supplemental schedules.

	Year ended December 31,	
	2012	2011
Interest with registered investment companies	$ 1,965,895	$ 1,216,408
Interest with common/collective trusts	20,329	16,706
Notes receivable from participants	12,742	4,372
	$ 1,998,966	$ 1,237,486

For the year ended December 31, 2012, the net appreciation in fair value of investments in registered investment companies was $180,344 and the net appreciation in common/collective trust was $180. Interest income was $157 and dividend income was $38,783 for the year ended December 31, 2012.

The plan's independent auditors did not perform audit procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note H – Common/collective investment trusts

Invesco Stable Asset Trust (the "Trust") is a collective trust established by Invesco National Trust Company, a national trust bank organized and existing under the laws of the United States, effective as of January 21, 2011. This collective Trust was established for purposes of collectively investing and reinvesting the assets of eligible pension and profit sharing trusts and other eligible entities.

The Trust's primary investment objectives are to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

Note H – Common/collective investment trusts (continued)

The Trust has met the requirements of ASC 946-210 and accounts for its investment contracts in accordance with ASC 946-210, which limits the circumstances in which the net assets of an investment company/Fund will be able to reflect the contract value of wrapper agreements and provides guidance with respect to the financial statement presentation and disclosure of fully benefit-responsive investment contracts.

Under the Declaration of Trust, Invesco National Trust Company is indemnified against certain liabilities arising out of the performance of its duties to the Trust. In addition, in the normal course of business, Invesco National Trust Company, as trustee for the Trust, enters into contracts with its vendors and others that provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust. However, based on experience, the Trust expects the risk of loss to be remote.

Short-term securities are stated at amortized cost (which approximates market value) if maturity is 60 days or less at the time of purchase, or at market value if maturity is greater than 60 days.

Investments in units of affiliated and unaffiliated collective trusts are valued at the respective net asset values as reported by such Trusts, and are categorized as Level 2 in the fair value hierarchy.

	2012	2011
Average yields:		
Total return earned at December 31	0.85%	0.99%

Note I – Date of management's review

Plan management reviewed its operations and transactions occurring since December 31, 2012 through September 18, 2013, the date of which these financial statements were available to be issued, and did not identify any subsequent events.

Note J – Investments

Investments that individually represented 5% or more of the Plan's assets are separately identified as follows:

	December 31

	$ 180,524

All investments of the Plan are participant-directed.

Note K – Fair value measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common/Collective trust funds: Valued at fair value. (see Note H for further description)

Note K – Fair value measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012.

	Level 1	Level 2	Level 3	Total
Mutual funds				
Aggressive Growth	$ 238,954	$ 0	$ 0	$ 238,954
Growth	324,117	0	0	324,117
Growth & Income	1,295,887	0	0	1,295,887
Income	106,937	0	0	106,937

Total assets at fair value	$ 1,965,895	$ 20,329	$ 0	$ 1,986,224

Gains and losses (realized and unrealized) included in changes in net assets available for Plan benefits for the year ended December 31, 2012 are reported in net appreciation in fair value of investments in registered investment companies and net appreciation in common/collective trust.

There were no significant transfers between Levels 1, 2, or 3 as of December 31, 2012.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011.

	Level 1	Level 2	Level 3	Total
