Report on the financial statements

We were engaged to audit the accompanying financial statements of Lifestyle Pension Plan for Employees of Sunbury Textile Mills (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2012, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2011 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2012, and for the year ended December 31, 2012, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The statement of net assets available for benefits as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year then ended of the Plan were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the certified information. Their report, dated September 17, 2012, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and accordingly, they did not express an opinion on the financial statements, and (b) the form and content of the information included in the financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements other than that derived from the certified information described in Note I, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the LifeStyle Pension Plan for Employees of Sunbury Textile Mills, Inc., formerly the LFI Salaried Employees' Pension Plan, (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Effective July 2002, NCFII Holdings, Inc., an entity created to oversee the LifeStyle Furnishings International Ltd.'s (the "Company") Plans and a subsidiary of Masco Corporation, became the Plan Sponsor for the Plan.

1. *General.* The Plan is a defined benefit pension plan covering eligible employees at Sunbury Textile Mills, Inc. ("Sunbury"), a former subsidiary of LifeStyle Furnishings International Ltd. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 31, 2001, in anticipation of the sale of the assets and business of Sunbury, all benefit accruals under the Plan were frozen. As a result, there will be no increases in benefits under the Plan, and no new participants will be added to the Plan, from and after December 31, 2001.

2. *Pension Benefits.* Participants with five or more years of credited service at the time the Plan was frozen or who have attained normal retirement age (65) are entitled to vested annual pension benefits beginning at normal retirement age. Generally, employees may elect to receive their pension benefits in the form of a joint and survivor annuity, lifetime annuity, or period certain annuity.

3. *Death and Disability Benefits.* If a vested participant dies before retirement, a pre-retirement survivor annuity is paid to the participant's beneficiary. This survivor annuity is payable on the earliest date on which the participant could have elected to receive retirement benefits if the participant had survived. Disability retirement benefits are subject to offsets as described in the Plan agreement.

4. *Funding Policy.* The contributions of the Company are designed to fund an amount which falls between the minimum contribution requirements and the maximum deductible allowance, as determined annually under the provisions of the Internal Revenue Code. The yield on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company's contributions for 2012 and 2011 met or exceeded the minimum funding requirements of ERISA. No participant in the Plan is required to make a contribution under the Plan.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

B. Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America) followed in the preparation of these financial statements.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions and deductions during the reporting period. Actual results could differ from these estimates and assumptions.

Risks and Uncertainties

The Plan's invested assets ultimately consist of common and preferred stocks, private equity funds, corporate debt securities, government and other debt securities, collective trust fund and short-term and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**LIFESTYLE PENSION PLAN FOR
EMPLOYEES OF SUNBURY TEXTILE MILLS, INC.**

NOTES TO FINANCIAL STATEMENTS, Continued

B. Accounting Policies, continued:

Investment Valuation and Income Recognition

Investments represent the Plan's pro rata interest in the fair value of the net assets of the Masco Corporation Retirement Master Trust ("Master Trust") as determined by The Northern Trust Company ("Trustee"), using closing quoted market prices with the exception of the Private Equity Funds, Corporate Debt Securities and Government and Other Debt Securities, which are based on estimated fair value and the Collective Trust Fund, which is based on net asset value (NAV), which approximates fair value, as of December 31, 2012 and 2011.

Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost. Interest income is recognized on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis.

The Plan presents in the statements of changes in net assets available for benefits the investment income from its interest in the Master Trust. The investment income is comprised of the net (depreciation) appreciation in the fair value of its investments which consists of the Plan's pro rata interest in the realized gains or losses and the unrealized (depreciation) appreciation of the investments of the Master Trust. Also included are the Plan's pro rata share of the interest and dividend income of the Master Trust. Such pro rata allocations are made monthly based on the Plan's weighted average interest on the fair value of the Master Trust net assets.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Other

Certain administrative expenses incurred by the Plan are paid by the Company.

Change in Accounting Principle

On December 31, 2010, the Company adopted the use of the assumed long term rate of return for the Plan. The Company believes that this methodology more accurately reflects the expected returns during the period for which payments of benefits are deferred. The rate of 7.25% was chosen based upon analysis of expected and historical rates of return of various asset classes utilizing the current and long-term target allocation of plan assets. This change in the method resulted in a decrease in the present value of accumulated plan benefits of \$1,669,913 as of January 1, 2011.

Subsequent Event

The Company has evaluated subsequent events through September 20, 2013, the date the Lifestyle Pension Plan for Employees of Sunbury Textile Mills Plan financial statements were available to be issued.

New Accounting Pronouncements

In May 2011, the FASB issued *Accounting Standards Update 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS")*. This update is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The update is effective for annual periods beginning after December 15, 2011. The adoption of this guidance did not have a material impact on the Plan's financial statements.

C. Investments:

The Plan's investments at December 31, 2012 and 2011 include its 1.1 percent participation in the Master Trust, respectively.

The following table presents the fair value of the Master Trust's net assets at December 31, 2012 and 2011.

	<u>Master Trust</u>

With respect to the Master Trust's investments in private equity funds, the Master Trust had, at December 31, 2012 and 2011, commitments to contribute up to \$18 million and \$18 million, respectively of additional capital to such funds representing the Master Trust's aggregate capital commitment to such funds less capital contributions made to date. The Master Trust is contractually obligated to make additional capital contributions to certain of its private equity funds upon receipt of a capital call from the private equity fund. The Master Trust has no control over when or if the capital calls will occur. Capital calls are funded in cash and generally result in an increase in the carrying value of the Master Trust's investment in the private equity fund when paid.

Securities Lending:

During 2006, Masco Corporation entered into an agreement with The Northern Trust Company authorizing the Trustee to lend securities held in the Master Trust to third parties. The Trustee must obtain collateral from the borrower in the form of U.S. Government securities, irrevocable bank letters of credit, or cash. The cash collateral is invested in interest bearing accounts with The Northern Trust Company. The total collateral for the securities loaned as of December 31, 2012 and 2011 was \$49,631,944 and \$46,733,539, respectively, of which \$2,392,442 and \$387,001 was non-cash for the years ended December 31, 2012 and 2011, respectively. Both the collateral and the securities loaned are marked-to-market on a daily basis so that all loaned securities are fully collateralized at all times. The Master Trust has a corresponding liability (equal to the collateral) to repay the collateral upon return of the securities. In the event that the loaned securities are not returned by the borrower, the Trustee will purchase equivalent securities by applying the collateral to the payment of the purchase price and demand from the borrower any remaining amounts due and owing. All recoveries will be credited to the Master Trust when received.

The fair value of securities loaned by the Master Trust as of December 31, 2012 and 2011 is \$46,550,645 and \$45,177,813, respectively, as shown below by type of securities:

	<u>2012</u>	<u>2011</u>
Common stocks	\$ 34,678,649	\$ 42,255,481
Corporate debt securities	\$ 7,422,311	\$ 2,011,346
U.S. Government debt securities	\$ 4,449,685	\$ 910,986

The Master Trust and the Trustee each receive a percentage of the net income derived from securities lending activities based on the type of securities. Income earned by the Master Trust related to securities lending activities during 2012 and 2011 was \$267,639 and \$238,662, respectively, net of bank fees of \$114,584 and \$102,163 for the years ended December 31, 2012 and 2011, respectively.

Although the securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowed securities will not be fully collateralized upon a sudden material change in the fair value of the loaned securities or the collateral. In 2012 and 2011, based on improving market conditions, the Master Trust did not incur any liability related to the securities lending activities.

Security lending in the Master Trust is handled via an electronic platform provided by Equilend, a joint venture of various securities lending agents and security borrowers, in which the Northern Trust Company, the Trustee, has an equity interest. Fees are not charged to the Master Trust for use of the services but are paid by the Trustee.

**LIFESTYLE PENSION PLAN FOR
EMPLOYEES OF SUNBURY TEXTILE MILLS, INC.**

NOTES TO FINANCIAL STATEMENTS, Continued

C. Investments, concluded:

Since Northern Trust has a financial interest in the successful operation of Equilend, Equilend has obtained a Prohibited Transaction Exemption from the U.S. Department of Labor. The exemption (a) enables Northern Trust to use Equilend's platform for lending the securities of plans and (b) permits Equilend to sell or license ancillary products to Northern Trust or to a plan to which Equilend is a party-in-interest.

D. Fair Value Measurements:

The Plan follows fair value guidance (ASC 820) that defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Further, it defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common and Preferred Stocks and Short-Term and Other Investments: Valued at the closing price reported on the active market on which the individual securities are traded, or based on the active market for similar securities. Certain investments are valued based on a net asset value basis (NAV) which approximates fair value at December 31, 2012 and 2011, respectively. Such basis is determined by referencing to the respective fund's underlying assets. There are no unfunded commitments or other restrictions associated with these funds.

Private Equity Funds: The fair value of the private equity funds is based on the net asset value of the underlying investments as determined by the fund manager. There are no quoted market prices, and sufficient information is not readily available for the Company to utilize a valuation model to determine the fair value for each fund. These investments are evaluated, on a non-recurring basis, for potential other-than-temporary impairment when impairment indicators are present, or when an event or change in circumstances has occurred, that may have a significant adverse effect on the fair value of the investment. There is no active trading market for these investments and they are for the most part illiquid. Due to the significant unobservable inputs, the fair value measurements used to evaluate impairment are a Level 3 input.

LIFESTYLE PENSION PLAN FOR
EMPLOYEES OF SUNBURY TEXTILE MILLS, INC.

NOTES TO FINANCIAL STATEMENTS, Continued

D. Fair Value Measurements, continued:

Corporate Debt Securities: Valued based on the active market for similar securities or on estimated fair value. For a portion of Corporate Debt Securities there is no active trading market and they are for the most part illiquid. Due to the significant unobservable inputs for these securities, the fair value measurements used to evaluate impairment are a Level 3 input.

Government and Other Debt Securities: Valued based on either the closing price reported on the active market on which the individual securities are traded, the market for similar securities or on estimated fair value. For a portion of Government and Other Debt Securities there is no active trading market and they are for the most part illiquid. Due to the significant unobservable inputs for these securities, the fair value measurements used to evaluate impairment are a Level 3 input.

Collective Trust Fund and Securities Lending Collateral Pool: Valued based on a net asset value (NAV) basis, which approximates fair value as of December 31, 2012 and 2011, respectively. Such basis is determined by reference to the respective fund's underlying assets, which are primarily marketable equity and fixed income securities. There are no unfunded commitments or other restrictions associated with these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS, Continued

E. Income Tax Status:

The Internal Revenue Service determined and informed the Company by letter dated July 20, 2011 that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

F. Related Parties:

Certain plan investments are investments managed by The Northern Trust Company as the Plan Trustee. Therefore, the purchases and sales qualify as party-in-interest transactions. Additionally, the Master Trust participates in Securities Lending programs of the Trustee.

The Plan has an interest in the Master Trust which invests in Masco Corporation Common Stock. As of December 31, 2012 and 2011, the value of Masco Corporation Common Stock in the Master Trust was \$10,164,832 and \$11,741,100, respectively.

G. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' credited years of service. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

**LIFESTYLE PENSION PLAN FOR
EMPLOYEES OF SUNBURY TEXTILE MILLS, INC.**

NOTES TO FINANCIAL STATEMENTS, Concluded

G. Actuarial Present Value of Accumulated Plan Benefits, concluded:

The significant actuarial assumptions used in the valuation as of December 31, 2011 were (a) life expectancy of participants - the prescribed mortality assumption under Internal Revenue Code 430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants was used, (b) retirement age assumptions (the assumed retirement age was 65 for 2011), (c) discount rate assumption of 7.25 percent and 7.25 percent in 2012 and 2011, respectively. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

H. Plan Termination:

Although there is no present intent to terminate the Plan, if the Plan were to terminate at some future time, the net assets of the Plan will be allocated to provide benefits for participants as prescribed by ERISA and its related regulations. To the extent unfunded vested benefits exist, such benefits will be paid by the Pension Benefit Guaranty Corporation, up to applicable limitations. Plan termination priorities are available from the Pension Benefit Guaranty Corporation.

I. Summary of Financial Data Provided by the Trustee:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee as complete and accurate and was not subjected to any auditing procedures performed by the independent auditors.

- a. Plan interest in Master Trust, net, excluding private equity funds, as shown on the accompanying statements of net assets available for benefits of \$4,625,861 and \$3,708,119 as of December 31, 2012 and December 31, 2011, respectively.
- b. Investment income (loss), net, excluding private equity funds, as shown in the accompanying statements of changes in net assets available for benefits of \$670,014 and \$(145,810) for the years ended December 31, 2012 and December 31, 2011, respectively.
- c. Total Master Trust assets, interest, dividend and net appreciation, excluding private equity funds, as shown in the accompanying Note C.

Schedule SB, Line 4 Additional Information for Plans in At-risk Status Description of At-risk Assumption for Assumed Form of Payment

As defined in the PPA, the plan is in at-risk status for the 2012 plan year, because the plan's FTAP for the 2011 plan year was less than 80%, and the plan's FTAP measured using "at-risk assumptions" was less than 70%.

At-Risk Assumptions:

Participants eligible to retire within the next 11 years must be assumed to retire immediately when first eligible, but not before the end of the current year.

All participants must be assumed to elect the most valuable form of payment available when they begin receiving benefits.

Plans that have been at-risk in past years may also be required to increase the funding target and target normal cost for prescribed assumed expenses.

At-Risk Form of Payment:

The assumed form of payment for a married participant is the 50% Joint and Survivor Annuity. Single salaried participants are assumed to elect the Five Years Certain and Life Annuity. Single hourly participants are assumed to elect the Life Only Annuity.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date.

The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.57%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.25%, and the applicable limitation for the plan year, equal to 6.57%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.76%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.76%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

All data, including frozen benefit amounts for all terminated vested participants, was provided by Masco who is solely responsible for its accuracy. We are relying on this information and have not conducted an independent review.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the instructions for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Changes in Assumptions and Methods Since Last Actuarial Valuation

- The mortality assumption was changed to the 2012 prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate rates for annuitants and non-annuitants, consistent with sponsor elections.
- The segment rates used to determine minimum funding requirements and benefit restrictions were revised by applying the corridors of MAP-21. MAP-21 requires that such corridors not apply for purposes of determining the deductible limit; for simplicity, the corridors have been reflected in Section 2.5: Calculation of estimated maximum deductible contribution, which produces a smaller deductible limit than the actual deductible limit.
- The assumed retirement age for terminated vested participants has changed from 65 to 60.

Plan

Lifestyle Pension Plan for Employees of Sunbury Textile Mills, Inc.

Effective Date and Most Recent Amendment

The plan was restated in 2000 effective April 1, 2000. The last amendment reflected herein was adopted December 21, 2009.

Plan Year

The twelve-month period ending December 31, 2012.

Coverage and Participation

All non-union employees are eligible for Plan participation. In general, participation commences at date of hire. No employees will be able to enter the plan after December 31, 2001. All covered locations have been closed and there are no remaining active participants. All participants are either retired or terminated with vested benefits.

Credited Service

Credited service was frozen for all participants as of December 31, 2001.

Salaried: The number of whole years and fractions thereof to the nearest 1/12th of the participant's period of Service.

Hourly: A Participant earns one year of Credited Service on the basis of 1,800 or more Hours of Service in a Plan Year. A partial year of credit is earned if the Participant has less than 1,800 Hours of Service, computed to the nearest 1/12th year, per the schedule defined in the Plan.

Vesting Service

Vesting service for all participants was frozen as of December 31, 2001.

Salaried: An Employee receives one year of Vesting Service for each whole year of the Employee's period of Service.

Normal Retirement Benefit

Normal Retirement Age: Age 65

Normal Retirement Date: First day of the month coincident with or next following the participant's 65th birthday.

Benefit Formula: The Accrued Benefit

Normal Form of Benefit:

For Salaried Participants – Five Years Certain and Life Annuity: Monthly payments during the Participant's Retirement with a minimum of 60 payments.

For Hourly Participants – Life Annuity: Monthly payments during the Participant's lifetime only.

Unless the Participant and his spouse elect otherwise, a married participant will receive a 50% Joint and Survivor Annuity actuarially equivalent to the Normal Form of Benefit. If the present value is less than \$1,000, the Participant's benefit will be paid in a lump sum distribution in lieu of a monthly annuity.

Accrued Benefit

The frozen accrued benefit was provided by Masco, what follows is a summary of the formula underlying that benefit.

For Salaried Participants: Based on the following formula, payable one-twelfth monthly:

- A. 1.1% of Final Average Compensation up to \$9,000 times years of Credited Service (maximum 30 years) prior to July 1, 1971, plus
- B. 1.3% of Final Average Compensation in excess of \$9,000 times years of Credited Service (maximum 30 years) prior to July 1, 1971, plus
- C. 1.1% of Final Average Compensation times years of Credited Service after July 1, 1971 (maximum 30 years, inclusive of service prior to July 1, 1971).

For Hourly Participants: \$10.00 times years of Credited Service.

Early Retirement Benefit

Eligibility: Age 55 with 5 or more Years of Vesting Service.

Benefit: Accrued Benefit as of Early Retirement Date reduced for commencement before age 65 to reflect the increased payment period. The reduction is 5/9ths of 1% for each of the first 60 months plus 5/18ths of 1% for each of the next 60 months that retirement precedes age 65.

Vested Benefits Upon Termination of Service

Vesting: Participants are 100% vested upon completion of 5 years of Vesting Service.

Termination Benefit: The accrued benefit is payable at age 65; or reduced at age 55 as per Early Retirement.

Surviving Spouse Benefits

Eligibility: All Participants eligible for a Vested Retirement Benefit who are married at date of death, automatically receive coverage under this Option.

Benefit: In the event of a Vested Participant's death prior to benefit commencement, a 50% Survivor Annuity will be paid to the Participant's spouse. Benefits to the Spouse are payable on the first day of the month following the Participant's death, or if later, the first day of the month following the Participant's 55th birthday. Benefit payable is the Participant's accrued benefit at date of death, reduced actuarially for survivor annuity and reduced for early commencement (if applicable) by the Early Retirement reduction formula described above. Cost of this protection is fully subsidized by the Company.

Optional Forms of Retirement Income in Lieu of Normal Form

Single life annuity. Life annuity with 60 (Salaried participants only) or 120 monthly payments guaranteed. 50%, 75% or 100% Joint & Survivor benefit. Lump sum payment for values under \$1,000.
