Note 1. Description of the Plan

The following description of the Jorgensen & Co. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan is a cash or deferred profit sharing plan established for the benefit of the employees of Jorgensen & Company. The Plan and the Trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code ("IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Description of Plan: The Jorgensen & Co. 401(k) Retirement Plan became effective July 1, 1995. The Plan was amended and restated effective January 1, 2012. The Plan adopted The All Valley Administrators, LLC Prototype Non-Standardized Cash or Deferred Profit Sharing Plan and the name of the Plan was changed to the Jorgensen & Company 401(k) Plan. The Plan is intended to assist the participants in accumulating savings for retirement.

Eligibility: Effective January 1, 2012 an employee of Jorgensen & Company (the "Company") is automatically enrolled in the Plan after completing three months of employment with the Company and attainment of age 21 unless an opt out form is received. In addition, an automatic contribution arrangement of 2% of compensation applies for all new participants who do not submit an alternative election. Previously an employee became eligible to participate in the Plan at their discretion after completing one year of employment with the Company and attainment of age 21. There were 146 and 129 participants in the Plan at December 31, 2012 and 2011, respectively.

Contributions: The Board of Directors maintains discretionary authority over the amount of the Company's contributions to the Plan. The Company is under no obligation to contribute to the Plan in any given year. There were no Company contributions during the year ended December 31, 2012. Participants contribute to the Plan through salary deferrals up to an annual maximum as defined by law or as a rollover contribution from a previous employer's qualified plan.

Payment of Benefits: In the event of death, the participant's interest in the Plan is payable to the beneficiary in a lump sum. Upon retirement, the participant's interest is payable in a single sum or can be deferred until April 1 following the year the participant reaches the age of 70½. Certain benefits qualify as eligible rollovers that may be directly rolled over to another qualified plan or an individual retirement account. A participant also has the right, in certain cases, to receive his or her benefit in period payments not extending beyond the life expectancy of the participant.

Note 1. Description of the Plan (Continued)

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options: Participants direct the investment of their contributions and the related discretionary employer contributions by the Company into any of the various investment options offered by the Plan and managed by Nationwide Trust Company, FSB.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. The portion of the participants' accounts attributable to the Company's discretionary contributions become 20% vested after three years of credited service as defined and continues to vest at the rate of 20% for each successive year of service until 100% vested after seven years of service. The portion of the participants' accounts attributable to the Company's matching contributions become 20% vested after two years of credited service as defined and continues to vest at the rate of 20% for each successive year of service until 100% vested after six years of service.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested balance. Loan terms range from one to five years, or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a fixed rate determined by the Plan Administrator. Principle and interest are paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation: The Plan's investments are stated at estimated fair value. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events: The Plan Administrator has evaluated subsequent events through, August 15, 2013, the date the financial statements were available to be issued.

Note 3. Administrative Expenses

The Plan is administrated by the Company and the Company utilizes the professional administrative services of All Valley Administrators in Fresno, California. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company. Administrative expenses paid by the Plan include advisory and service provider fees charged by the Custodian.

Note 4. Information Certified by Nationwide Trust Company, FSB

The following is a summary of the plan asset's information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian of the Plan and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2012	2011
Nationwide Money Market Inst	$ 158,928	$ 161,208
American Century Inflation Prot Bd Instl	126,500	130,850

Note 6. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurement ("FASB ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 6. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money Market Accounts: Valued at face, which approximates fair value.

Shares of Registered Investment Companies: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

Note 6. Fair Value Measurements (Continued)

(a) This category includes high quality, short term securities. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. Participants are restricted to 11 web or Inquire (VRU) transfers within 2 consecutive calendar quarters of the same year, or up to 20 VRU transfers within a calendar year, whichever comes first.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contribution.

Note 8. Income Tax Status

The Plan received its last determination letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter, however, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Related-Party Transactions

Certain plan investments are shares of mutual funds managed by Nationwide. Nationwide is a financial advisor to the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services during the year ended December 31, 2012 were $38,494.
