BRISTOL INDUSTRIES 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF THE PLAN:

The following description of the Bristol Industries 401(k) Plan (the "Plan") provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is an employee contribution plan covering all employees of a controlled group of corporations including Bristol Industries, H.C. Merchandisers, Hacienda Hotel, and Del Rey Capital (the "Companies"). The Plan was initiated on October 1, 1996. All full-time employees, excluding those governed by a collective bargaining agreement between the Employer and the Employee representatives under which retirement benefits were the subject of good faith bargaining, who have completed three months of service and are age twenty-one or older are eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

TAX STATUS

The Prototype Plan obtained a determination letter on March 31, 2008 in which the Internal Revenue Service stated that the prototype plan is qualified under section 401(a) of the Internal Revenue Code ("IRC"). Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust was tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

1. DESCRIPTION OF THE PLAN: (Continued)

CONTRIBUTIONS

Participants may elect, by submitting a written request to the Plan administrator, to have their wage compensation reduced by a designated dollar amount up to the maximum percentage allowable under the limitations of IRC Sections 415, 401(k), and 404. This deferred amount flows directly to the Plan. Participants' contributions may not be more than one hundred percent of their annual compensation. Employer matching contributions are discretionary. Employer's contributions for 2012 and 2011 totaled $377,640 and $355,495, respectively. Participants may change their rate of deferral monthly.

Participant contributions and employer matching contributions of certain highly compensated participants may be limited based on contribution nondiscrimination tests described in IRC Section 401(k) and 401(m).

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contributions, and allocations of the Company's contributions and Plan earnings. Allocations are based on each participant's earnings or individual investment balance as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants. These participants share in the earnings of the investments.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range up to 5 years except when used to purchase a primary residence.

The loans are secured by the balance in the participant's account and bear interest at rates available for similar loans from commercial lending institutions as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

1. DESCRIPTION OF THE PLAN: (Continued)

VESTING

Participants of the Plan are immediately fully vested in their voluntary contributions plus actual earnings thereon. Vesting in the Companies' contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after three years of credited service. In the event of a participant's death or disability, participants become fully vested in their accounts.

FORFEITED ACCOUNTS

Forfeited nonvested accounts totaled $6,917 at December 31, 2012, and $8,394 at December 31, 2011. These accounts will be used to reduce future employer contributions.

PAYMENTS OF BENEFITS

Amounts credited to an individual participant's account, if less than $5,000, are distributed as a lump sum upon termination of employment as soon as administratively feasible. Distributions may be deferred no later than April 1st of the year following the year in which the participant attains age 70½. In service distributions are permitted after age 59½.

In certain hardship situations, as described in the Plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to deferred account balances and may not include any interest earned thereon.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting. The Plan's investments are stated at their fair market value. Shares of registered investment companies are valued at their quoted market prices, which represent the net asset value of shares held by the Plan at year end. All purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends earned are recorded on the ex-dividend date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's funds are stated at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Ascensus as agent for Frontier Trust Company, based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred. Outstanding loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

EXPENSES

Certain custodian and administrative expenses are paid by the Plan. Other expenses are paid by the Plan's sponsor. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair market value of investments for such investments.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through August 22, 2013, which is the date the financial statements were available to be issued, requiring recording or disclosure in the financial statements for the period ended December 31, 2012.

3. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED):

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus as agent for Frontier Trust Company, the trustee of the plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2012, and 2011, and the supplemental Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2012; and the related investment activity reflected in the statements of changes in net assets available for benefits for the year ended December 31, 2012.

4. ASSETS HELD FOR INVESTMENT PURPOSES (UNAUDITED):

The following investments represent 5% or more of the net assets available for benefits as of December 31:

	2012	2011
Investments at fair value as determined by quoted market price:		
PIMCO Total Return Fund A	$ 1,165,296	$ 899,226
BlackRock Global Allocation Fund	717,217	646,586
Lord Abbett Fundamental Equity	849,078	793,765
Federated Capital Preservation	1,455,724	1,475,278
GM PIMCO Total Return Fund A	701,057	*

* Less that 5% of net assets

5. RELATED PARTY TRANSACTIONS:

During the years ended December 31, 2012 and 2011, there were no related-party transactions which are prohibited by ERISA and for which there are no statutory or administrative exemptions.

The Plan investments at year end include assets managed by Ascensus as agent for Frontier Trust Company. Ascensus as agent for Frontier Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in interest.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). In the event the Plan is terminated, each participant shall have a 100% vested interest in his or her account.

7. FAIR VALUE MEASUREMENTS:

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

7. FAIR VALUE MEASUREMENTS: (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarch is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common stocks, corporate bonds and U.S. government securities - Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds - Valued at the net assets value ("NAV") of shares held by the Plan at year end.

Common or collective trust - A trust maintained by a bank, trust company, or similar institution that is regulated, supervised, and subject to periodic examination by a state or federal agency for the collective investment and reinvestment of assets contributed thereto from employee benefit plans maintained by more than one employer or a controlled group of corporations.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. FAIR VALUE MEASUREMENTS: (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

7. FAIR VALUE MEASUREMENTS: (Continued)

CHANGES IN FAIR VALUE LEVELS

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Change in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2012, and 2011, there were no significant transfers in our out of levels 1, 2 or 3.
