Report of Independent Auditors

To the Plan Administrator and Participants of the
Global Industries Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Global Industries Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by T. Rowe Price Trust Company ("T. Rowe Price" or the "trustee") the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee held the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from T. Rowe Price as of December 31, 2012 and 2011 and for the years then ended that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

We were engaged for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of Assets Held at Year End as of December 31, 2012 and the supplemental Schedule of Delinquent Contributions for the Year Ended December 31, 2012, which are the responsibility of Plan management, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to and we do not express an opinion on these supplemental schedules.

On December 31, 2012 the Plan was merged into the Technip USA, Inc. 401(k) Profit Sharing Plan (the Technip Plan) and all participant balances were transferred into the Technip Plan.

Report on Form and Content In Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GLOBAL INDUSTRIES RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Global Industries Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan of Global Industries, Ltd. (the "Company") and its wholly-owned subsidiaries (collectively, the "Employer"). All employees are eligible to participate in the Plan through salary deferral contributions on their first day of employment. All employees commencing employment and who fail to enter into a salary deferral agreement are automatically enrolled in the Plan. All regular employees as defined by the Plan are eligible to receive Employer matching contributions on their first day of employment and will be eligible to receive the additional discretionary Employer contribution, which is determined by the Employer, as of the date the employee completes one year of service. Non-regular employees, as defined in the Plan, are eligible to participate in the Plan through salary deferral contributions and receive Employer contributions on the first business day of the second month following the month during which the individual completes one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Merger

Effective at the end of business on December 31, 2012, the Plan was merged into the Technip USA, Inc. 401(k) Profit Sharing Plan (the "Technip Plan"). In connection with the merger, all participant balances totaling \$59,050,528 were transferred into the Technip Plan, with participants in this Plan becoming participants in the Technip Plan. Future benefits related to this Plan will be paid from the assets held within the Technip Plan.

Administration

The Plan is administered by a committee ("Plan Committee") designated by the Company's Board of Directors. T. Rowe Price Trust Company ("Trustee") serves as the Plan's trustee, custodian and recordkeeper for the years ended December 31, 2012 and 2011.

Employee Contributions

Each year participants may contribute from 1% to 75% of their pre-tax annual compensation not to exceed the limitation set forth in Section 402(g) (\$17,000 and 16,500 in 2012 and 2011, respectively) of the Internal Revenue Code ("IRC"). Participants may make catch-up contributions, pre-tax contributions that exceed the annual elective deferral limit, during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions may not exceed \$5,500 during 2012 and 2011. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions

During 2012 and 2011, the Employer made matching contributions equal to 100% of the first 6% of Plan compensation contributed by the participant as a salary deferral contribution. Matching contributions may be made in the form of cash, Employer securities or any combination thereof. For the 2012 and 2011 Plan years, the Employer made matching cash contributions of \$2,976,716 and \$3,111,489, respectively, to the Plan. Employer matching contributions are funded into the Plan at the same time as related employee contributions, generally shortly after the withholding of employee contributions each pay period.

The Company may make a discretionary employer contribution. Each year, the Board of Directors of the Company determines whether discretionary employer contributions will be made and the amount of the contribution. Employer contributions are allocated to each eligible participant in the proportion that each eligible participant's allocation compensation, as defined by the Plan, bears to the total allocation compensation of all such active participants. The Company made no discretionary employer contributions to eligible participants during 2012 and 2011.

Participant Accounts

Each participant's account is credited with the participant's contributions and withdrawals, as applicable, and allocations of (a) the employers' contributions, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances as defined in the Plan document. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Discretionary Employer contributions and matching Employer contributions are vested 100% upon death, attainment of normal retirement age or disability but only if employed at death, normal retirement age, disability. After September 1, 2009 employees are 100% vested in Employer matching contributions and Employer discretionary matching and other discretionary contributions made after that date.

When a participant's employment is terminated for any other reason, a participant's interest in discretionary Employer contributions made on the participant's behalf vests in accordance with the following schedule:

Employer Contributions Related to Years Prior to 2008: *

<u>Years of Service</u>	<u>Percent Vested</u>
Less than 1 year	0%
1 year but less than 2 years	40%
2 years but less than 3 years	60%
3 years but less than 4 years	80%
4 years or more	100%

Employer Contributions Related to January 1, 2008 to September 1, 2009:

<u>Years of Service</u>	<u>Percent Vested</u>
Less than 1 year	0%
1 year but less than 2 years	25%
2 years but less than 3 years	50%
3 years but less than 4 years	75%
4 years or more	100%

Employer Contributions After September 1, 2009 and Following:

<u>Years of Service</u>	<u>Percent Vested</u>
Less than 1 year	100%

* A participant who, as of January 1, 2008, had at least three years of service with the Employer but was not fully vested, will be at least 80% vested in Employer matching contributions and discretionary Employer contributions relating to 2008 and following years.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions and the balance of the employer contributions not designated for stock purchases, if any, to various investment fund options.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable terms range from 1 to 5 years or higher for the purchase of a primary residence. The notes receivable are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest payments are made by means of payroll withholding according to the terms of the promissory note. Notes receivable from participants outstanding as of December 31, 2012 and 2011 totaled \$2,118,155 (just before the merger transfer) and \$2,141,122, respectively. Interest rates ranged from 4.25% to 8.93% during the years ended December 31, 2012 and 2011.

Payment of Benefits

Upon termination of employment due to death or retirement, a participant (or his/her designated beneficiary in the event of death) shall automatically receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, less any outstanding receivables, if any.

Forfeited Accounts

All employer contributions credited to a participant's account, but not vested, are forfeited by the participant upon termination. Such forfeited balances are used to reduce future employer contributions. As of December 31, 2012 and 2011, forfeited nonvested accounts totaled \$23,392 and \$609, respectively. During 2012 and 2011, forfeited nonvested amounts of \$19,386 and \$38,734, respectively, were used to reduce employer matching contributions.

Administrative Expenses

The Plan is responsible for payment of administrative fees; however, such fees may be paid by the Company, at its discretion. Fees paid by the Company are not reflected within these financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

GLOBAL INDUSTRIES RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS, Continued

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, commodity prices and general market conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Recent Accounting Pronouncements

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements ("ASU No. 2010-06"). ASU No. 2010-06 amends the disclosure requirements of ASC 820 and requires new disclosures regarding (a) transfers in and out of levels 1 and 2 and (b) activity in level 3 fair value measurements. ASU No. 2010-06 also provides amendments to ASC 820 that clarify existing disclosures regarding (a) level of disaggregation for each class of assets and liabilities and (b) disclosures about inputs and valuation techniques for fair value measurements that fall in either Levels 2 or 3. ASU No. 2010-06 is effective for periods ending after December 15, 2010 (except for the Level 3 roll forward which is effective January 1, 2011). The adoption of FASB ASU No. 2010-06 did not have a significant impact on the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, "Reporting Loans to Participants by Defined Contribution Pensions Plans." ASU 2010-25 changed the reporting of loans to participants. Prior to ASU 2010-25, loans to participants were reported as investments at fair value. ASU 2010-25 requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued, but unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010. The Plan adopted ASU 2010-25 in the 2010 financial statements, applied retrospectively for all periods presented. The adoption of ASU 2010-25 was not significant as the unpaid principal balance plus accrued interest of loans to participants approximated fair value.

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurements (Topic 820), to clarify the application of existing fair value measurements and disclosures, including the requirement to disclose quantitative information about the unobservable inputs used in a fair value measurement that is categorized within Level 3 of the fair value hierarchy. These amendments are effective for the Plan's 2012 financial statements. The adoption of these amendments did not have any material effect on the Plan's financial statements.

Investment Valuation and Revenue Recognition

The Plan's investments are stated at fair value. Investments in registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The Plan's interest in the common collective trust is based on the fair value of the collective trust's underlying investments as based on information reported by the investment advisor using the audited financial statement of the collective trust at year-end. Common stock is stated at fair value as determined by quoted market prices.

As described in ASC 962, *Defined Contribution Pension Plans* (formerly FSP AAG INV-1 and SOP 94-4-1, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans*), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying Statements of Net Assets Available for Benefits include a common collective trust, i.e., the Stable Value Fund, which is a fully benefit-responsive investment contract. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

GLOBAL INDUSTRIES RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS, Continued

Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent loans are treated as distributions based on the terms of the plan document. Related interest income is recognized under the accrual method.

Benefit Withdrawals

Benefit payments are recorded when paid.

Plan expenses

Plan expenses relate primarily to charges initiated by participants for loans and withdrawals and are charged to the account of initiating participants. Investment advisory fees are incurred by plan participants indirectly as such fees serve to reduce the carrying value of investments (and therefore are a component of net appreciation in the fair value of investments). The Plan administrator may also, and does, pay some administrative expenses on behalf of the Plan without reimbursement, and in such cases, those costs are not reflected in these financial statements.

3. Investments

The following individual investments each represent five percent or more of the Plan's net assets at December 31, 2012 (immediately prior to the transfer of Plan assets to the successor trustee of the Technip Plan) and 2011:

4. Fair Value Measurements

ASC Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2012 and 2011.

Registered investment companies (mutual funds): Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Common collective trust: Valued at fair value based on information reported in the audited financial statements of the collective trust at year-end.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments in Common Collective Trust Fund (Unaudited)

At December 31, 2012 (immediately prior to the transfer to the successor Technip Plan) and 2011, the Plan held investments with a contract value of \$9,492,185 and \$8,177,560, respectively, in the T. Rowe Price Stable Value Common Trust Fund, which had an annualized one day effective yield of 2.36% and a total return rate (spot crediting rate) of 2.45% at December 31, 2012. This fund had an annualized one day effective yield of 2.69% and a total return rate (spot crediting rate) of 2.97% at December 31, 2011. The crediting rate of the fund is typically reset on a quarterly basis, with the crediting rate being driven by the rates on contracts held by the fund and the discount rate (given prevailing market rates) that would generally result in the discounted cash flows approximating contract value. This fund is a diversified pool of investment contracts ("GICs") of varying maturity, size and yield. The fund also invests in short-term investments and may invest in separate account GICs, synthetic GICs, GIC alternatives and bank investment contracts. The fund also has purchased wrapper contracts which are designed to ensure that withdrawals can occur at contract value despite differences between fair value and contract value at the time due to differences in prevailing interest rates. The number of parties that issue wrapper contracts is limited and there can be no assurance that wrapper contracts will always be available in the future. All of the fund's investment contracts are fully benefit-responsive and are recorded at fair value. The value of these contracts and the T. Rowe Price Stable Value Common Trust Fund may be impacted by the current and future creditworthiness of the financial

institutions issuing the related investment contracts, wrappers and guarantees. The Plan must provide 30 days notice to this fund manager prior to the termination of this Plan investment option. Certain other events, deemed improbable of occurring by Plan management, could result in limitations on the ability of the Plan to transact at contract value.

6. Information Certified by the Plan's Trustee (Unaudited)

The Plan Committee has elected the limited scope audit method of annual reporting compliance permitted by 29 CFR 2520 103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA for the years ended December 31, 2012 and 2011. Accordingly, the Plan's trustee, T. Rowe Price Trust Company, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

GLOBAL INDUSTRIES RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS, Continued

7. Tax Status

The Plan is based on a prototype plan through Accudraft, Inc. The prototype plan obtained its latest determination letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their total account balance.

9. Party-in-Interest Transactions

During the year ended December 31, 2011 the Plan engaged in purchase and sales transactions for shares of the Company's common stock, as follows:

	<u>2011</u>
Balance at beginning of year	\$ 881,536
Sales of the Company's common stock	(973,311)
Change in value of the Company's common stock	<u>91,775</u>
Balance at end of year	<u>\$ 0</u>

Certain plan investments are in accounts managed by the Custodian and the Plan allows participants to borrow from their vested account balance. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

The Plan sponsor incurs and pays certain administrative expenses on behalf of the Plan without reimbursement from the Plan. Those expenses are not reflected in the Plan financial statements.

The Plan sponsor has determined that it had failed to timely remit employee contributions totaling \$2,314,723 to the Custodian by several days for a number of pay periods in 2012. This constitutes a series of delinquent contributions, which are prohibited transactions. The Plan sponsor has funded \$1,235 into the successor Technip Plan in 2013 on behalf of affected Plan participants in order to restore the lost earnings attributable to the funding delays.

The Plan sponsor determined that it had failed to timely and remit contributions for a period of time at the contribution rate elected by a participant in 2010. This constitutes a series of delinquent contributions, which are prohibited transactions. The Plan sponsor quantified the missed contributions and has funded \$4,431, as well as the \$4,229 of employer matching contributions, into the Plan on behalf of the participant. The Plan sponsor also computed the amount of lost earnings attributable to the delinquent contributions and funded that \$2,869 into the participant's account in the Plan to properly restore the balance. These amounts were funded to into the trust in February 2011. The Plan sponsor has adjusted the participant withholdings prospectively.
