HARVEST LAND CO-OP 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

DESCRIPTION OF PLAN

The following brief description of the Harvest Land Co-op 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General - The Plan is a defined contribution retirement plan established by Harvest Land Co-op, Inc. and its wholly-owned subsidiaries (the Sponsor). The Plan is intended to meet the requirements of a qualified plan under section 401(a) of the Internal Revenue Code. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - An employee shall be eligible to participate in the Plan on the entry date (if employed) coincident with the date of completion of 1,000 hours of service and 21 years of age or older. Eligible employees include all employees of the Sponsor except those with a job classification title "clerk/cashier".

Contributions - To participate in the Plan, an eligible employee must enter into a contribution agreement with the employer authorizing the employer to deduct and withhold from such employee's compensation a specified amount, or percentage thereof, and to contribute such amount to the employee's account in the Plan. In accordance with Section 401(k) of the Internal Revenue Code, all amounts withheld from compensation and contributed to a participant's account, up to the maximum allowed, shall be excluded from gross income of the participant for federal income tax purposes. A participant can make a separate election to defer up to 100% of any bonus they receive. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Sponsor matches 100% of each participant's first 3% of compensation contributed as elective deferrals for the Plan year, and 50% of each participant's deferral in excess of 3% of compensation not to exceed 5% of compensation. Participants direct these contributions among a choice of investment options.

Participants may rollover amounts representing distributions from other qualified defined benefit or contribution plans which are reported in the statement of changes in net assets available for benefits. Rollover contributions totaled \$221,403 for the year ended December 31, 2012. There were no rollover contributions for the year ended December 31, 2011.

Vesting - Participants are immediately vested in their elective deferrals, employer matching contributions and actual earnings thereon.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contribution, (b) Plan earnings, and (c) an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as provided in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants - Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their vested account balance up to a maximum of five years unless such loan is for the purpose of the participant's primary residence. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions. Participants may not have more than two outstanding loans at the same time.

HARVEST LAND CO-OP 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS - Continued

December 31, 2012 and 2011

DESCRIPTION OF PLAN - Continued

Payment of Benefits - Upon termination, participants may receive the vested portion of their account as a distribution in the form of installments or a lump sum payment. A participant's account shall be payable to him or her, or in the event of death, to a beneficiary, upon the earlier of disability, termination of employment or retirement date. Retirement date is upon attainment of age 65, and in-service distributions are available upon attainment of age 59 ½.

Administrative Fees and Expenses - A significant amount of the administrative fees and expenses incurred by the Plan are paid by the Sponsor.

Plan Amendments or Terminations - Even though it has not expressed any intent to do so, Harvest Land Co-op, Inc. and its wholly-owned subsidiaries reserves the right at any time to amend or terminate the Plan, subject to the provisions of ERISA, provided that no such amendment or termination shall have the effect of giving Harvest Land Co-op, Inc. and its wholly-owned subsidiaries any right, or of reducing the rights of any participant, in the funds then held by the custodian. No amendment to the Plan shall have the effect of eliminating or reducing a retirement benefit, or eliminating an optional form of benefit with respect to benefits attributable to service before the amendment.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared on the modified cash basis of accounting. As such, benefits and expenses are recorded when paid. Although the modified cash basis of accounting represents a departure from accounting principles generally accepted in the United States of America, it is an allowable method of accounting for employee benefit plans under the reporting requirements of ERISA. Following are the significant accounting policies adopted by the Plan and used in the preparation of these financial statements:

Investment Valuation - Investments are recorded at fair value based upon quoted market prices at year end. See footnote entitled FAIR VALUE MEASUREMENTS for additional information. Purchases and sales of securities are recorded on a settlement date basis which does not materially differ from a trade date basis. Cost of investments is determined using average cost and is used when determining realized gains and losses upon disposition.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed interest account through a group annuity contract. Contract value for this guaranteed interest account is based on the contributions, withdrawals and earnings of the trust as reported by Massachusetts Mutual Life Insurance Company ("Mass Mutual"). The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. Certain events limit the ability of the Plan to transact at contract value with the issuer. However, management of the Plan does not believe that such events are probable of occurring.

Notes Receivable from Participants - Notes receivable from participants are valued at their unpaid principal balance.

Contributions - Contributions are recorded as earned on the accrual basis when withheld from the participant's earnings and when contributions are allocated by the Sponsor.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Payment of Benefits - Benefits are recorded when paid.

Use of Estimates - The preparation of the financial statements in conformity with the modified cash basis of accounting requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on the Plan Administrator's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Risks and Uncertainties - The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - Subsequent events were evaluated through August 13, 2013, which is the date the financial statements were available to be issued.

INCOME TAX STATUS

The Plan is based on a prototype plan which has received a favorable opinion letter from the Internal Revenue Service that the prototype plan is designed to qualify as being exempt from Federal income taxes. The Plan Administrator has not separately applied for a determination letter from the Internal Revenue Service. However, the Plan Administrator believes that the Plan was designed and is currently being operated as a tax-exempt plan in compliance with the applicable requirements of the Internal Revenue Code and, therefore, no income taxes have been provided.

The Plan complies with ASC 740-10 related to uncertain tax positions. This standard prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken on a tax return. Plan administration is not aware of any tax positions taken by the Plan that it considers to be uncertain. Tax returns for the years ended 2009, 2010 and 2011 are open and subject to examination by the Internal Revenue Service.

PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by the Plan's custodian (Mass Mutual), as is customary in retirement plans. Michigan Pension Group serves as the Plan's third party administrator. Balestra, Harr & Scherer, CPAs serves as the Plan's auditors. Transactions with these parties qualify as party-in-interest transactions.

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee received compensation from the Plan. Certain administrative expenses of the Plan are paid directly by the Sponsor and are not charged to the Plan.

REPORTABLE TRANSACTIONS

The Plan's assets are participant-directed, and thus, the schedule of reportable transactions is not required.

INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following investment-related information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the Plan's custodian, Mass Mutual, as of December 31, 2012 and 2011 and for the years then ended:

	<u>2012</u>	<u>2011</u>
Mutual funds (at fair value)	\$ 14,362,721	\$ 13,437,252
Guaranteed interest account	7,103,475	5,512,759
Participant loans	553,695	641,269
Dividend and interest income	190,654	169,779
Net unrealized and realized gains and losses in value of investments	1,758,705	(187,532)
Administrative fees	6,370	6,609

INVESTMENTS

Investments of the Plan consist of various mutual funds maintained by Mass Mutual. The fair value of investments in the following funds exceeded 5% of the Plan's net assets available for benefits at December 31, 2012:

PIMCO Total Return	Dow Jones Target 2025
Wellington Select Fundamental Value	Dow Jones Target 2035
Guaranteed Interest Account	

The net realized and unrealized gain (loss) by investment class (including gains and losses on investments bought and sold, as well as held during the year) for the years ended December 31, 2012 and 2011 were as follows:

	<u>2012</u>	<u>2011</u>
Mutual funds:		
Equity funds	\$ 1,104,079	\$ (211,695)
Fixed income funds	178,507	(1,532)
Common collective trusts:		
Guaranteed investment contract	<u>476,119</u>	<u>25,695</u>
Net realized and unrealized gain (loss)	<u>\$ 1,758,705</u>	<u>\$ (187,532)</u>

The Plan has a benefit-responsive investment contract (Guaranteed Interest Account) with Mass Mutual Retirement Services (MMRS), whereas MMRS maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate, which is adjusted quarterly, was 2.61% and 2.69% for the years ended December 31, 2012 and 2011, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

NOTES TO FINANCIAL STATEMENTS - Continued

INVESTMENTS - Continued

As described in SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Sponsor or other Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity dates.

RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The differences between the audited financial statements and the information on the Form 5500 related to the classification or timing of recording of certain transactions. There were differences between contributions, investment income and administrative fees, all of which were insignificant individually and in the aggregate.

FAIR VALUE MEASUREMENTS

The Plan complies with ASC 820 *Fair Value Measurements and Disclosures* to account for and report fair value. ASC 820 provides a single definition of fair value, a framework for measuring fair value and expanded disclosures concerning fair value. It also defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Fair value of certain assets and liabilities are determined based on the fair value hierarchy established in the standard, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The standard describes three levels within its hierarchy that may be used to measure fair value which are:

Level 1 - Values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

HARVEST LAND CO-OP 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS - Continued

December 31, 2012 and 2011

FAIR VALUE MEASUREMENTS - Continued

Level 2 - Values are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Values are generated from unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities. These unobservable inputs would reflect management's estimates of assumptions that market participants would use in pricing related assets or liabilities. Valuation techniques might include the use of pricing models, discounted cash flow models or similar techniques.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

		Fair Value Measurements Using:

FAIR VALUE MEASUREMENTS - Continued

Following is a reconciliation of the fair value of the Level 3 assets for the years ended December 31, 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Balance, beginning of year	\$ 5,512,759	\$ 4,921,841
Purchases	558,041	565,685
Sales	(449,267)	(820,401)
Transfers	1,005,823	819,939
Net appreciation	<u>476,119</u>	<u>25,695</u>
Balance, end of year	<u>\$ 7,103,475</u>	<u>\$ 5,512,759</u>

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
