INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Fiber Composites, LLC 401(K) Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of the Fiber Composites, LLC 401(K) Plan (the Plan), which comprise the Statements of Net Assets Available for Plan Benefits as of December 31, 2012 and 2011, and the related Statements of Changes in Net Assets Available for Plan Benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for Plan benefits of the Fiber Composites, LLC 401(K) Plan as of December 31, 2012 and 2011, and the changes in its net assets available for Plan benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

**FIBER COMPOSITES, LLC 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011**

1. Description of the Plan

The following description of the Fiber Composites, LLC 401(K) Plan (the Plan) is intended to provide only general information regarding the Plan. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a participant directed defined contribution plan covering all employees of Fiber Composites, LLC (the Company), who are twenty-one (21) years old or older and have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to contribute any percentage of their eligible compensation, not to exceed annual limitations as provided by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Also, rollover contributions to the Plan are permitted, subject to the restrictions of the Plan Agreement.

The Company contributes matching contributions equal to 25% of the first 8% of eligible compensation that a participant contributes to the Plan. Employer matching contributions are allocated to the accounts of the individuals who are participants in the Plan on the last day of the Plan's year for which such contributions are made and who meet the eligibility requirements as defined.

The Company also could have elected to contribute a discretionary profit-sharing contribution as determined by the Company's Board of Directors. Employer discretionary profit-sharing contributions are allocated to the accounts of the individuals who are participants in the Plan on the last day of the Plan's year for which such contributions are made and who meet the eligibility requirements as defined. Employer discretionary contributions are allocated based on the compensation of all eligible participating employees. No such contributions were made during 2012 or 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and losses. The allocation of earnings and losses is performed based on individual participant account balances. The benefit to which a participant is entitled is the benefit that can be provided for the participant's vested account.

**FIBER COMPOSITES, LLC 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011**

Vesting

Participants are immediately vested in their voluntary contributions plus the annual allocation of Plan earnings on those contributions, at the time of allocation. Participants become fully vested in the employer contributions and the annual allocation of Plan earnings on those contributions after five (5) years of service. Participants are partially vested in the employer contributions as follows: 25% after 2 years, 50% after 3 years, 75% after 4 years, and 100% after 5 years. Upon death, disability or attainment of normal retirement age, a participant will become fully vested in his/her account.

Participant Notes Receivable

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Note terms range from one to five years, or up to fifteen years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On retirement, death, disability or termination of service, a participant (or participant's beneficiary in the event of death) will receive a lump-sum amount equal to the value of his or her vested account. Hardship withdrawals from the Plan are permitted, subject to the limitations imposed by the Internal Revenue Code.

Forfeitures

Participants in the Plan who leave the employment of the Company before completing applicable vesting requirements forfeit the non-vested portion of the employer contributions to their accounts. At December 31, 2012 and 2011, forfeited non-vested accounts totaled \$7,149 and \$2,343, respectively. Forfeitures are used to reduce employer contributions for the Plan. For the year ended December 31, 2011, forfeitures in the amount of \$7,966 were used to reduce employer contributions. There were no forfeitures used to reduce employer contributions for the year ended December 31, 2012.

Plan Termination

The Company expects to continue the Plan indefinitely. However, the Company reserves the right to amend the Plan or contributions thereto, at any time and in any manner that it deems advisable, provided that no amendment shall have the effect of diverting Plan assets for purposes other than for the exclusive benefit of the Plan participants and any Plan termination would be subject to the provisions of ERISA. If the Plan is terminated, the participants would become fully vested and entitled to receive all amounts credited to their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

**FIBER COMPOSITES, LLC 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011**

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 3).

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation included in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balances and are secured by the balance in the respective participant's account. Interest income on participant notes receivable is recorded when it is earned. A receivable is considered past due if payment has not been received within stated terms. Delinquent notes receivable from participants are reclassified as distributions based on terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2012 and 2011.

Contributions

Participant and employer matching contributions are recorded weekly when the Company remits the payroll deductions for investment into the Plan. Employer discretionary profit-sharing contributions are recorded at the end of the year, if applicable.

Payment of Benefits

Benefits are recognized when paid to participants or their designated beneficiaries.

Administrative Expenses

Expenses incurred in the administration of the Plan are paid by the Company unless the Company directs that such expenses shall be paid by the Plan. Participant notes receivable set-up and maintenance fees are paid directly by the participants through a reduction in their account. Investment management and recordkeeping fees, if applicable, are paid by the Plan through revenue sharing as a reduction of investment income (net appreciation or depreciation) from the related investment fund.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options with various investment objectives. Investment securities are exposed to various risks such as interest risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

**FIBER COMPOSITES, LLC 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011**

Financial Instruments with a Concentration of Credit Risk

The Plan's investments are held by a single custodian. The Plan's exposure to credit risk is associated with the outside entity's non-performance of their fiduciary responsibilities relating to these amounts as specified in the agreements. Benefits provided by the Plan are not insured or guaranteed by the Pension Benefit Guaranty Corporation.

3. Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of fair value hierarchy and inputs to the valuation methodologies are described as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets the Plan has the ability to access.

Level 2 inputs are other than quoted prices in active markets that are observable either directly or indirectly for the asset. Such inputs are derived principally from or corroborated by observable market data by correlation or other means, over substantially the full contractual term of the asset, if applicable.

Level 3 inputs are unobservable and significant to the fair value measurement. Such inputs generally rely on the Plan's own assumptions about the assumptions that market participants would use in pricing the asset.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

Money market fund: The carrying amount of the money market fund is deemed to be a reasonable estimate of fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

FIBER COMPOSITES, LLC 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011

The Plan's level 1 investments at December 31, 2012 and 2011 are reported at fair value in the accompanying Statements of Net Assets Available for Plan Benefits as follows:

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011**

5. Income Tax Status

The Plan is a prototype plan sponsored by The Angell Pension Group, Inc. (Angell). Angell has obtained an opinion letter on the Plan stating that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the Code). Generally, the Plan Administrator and the Plan may rely on the opinion letter received by Angell as to the form of the Plan qualifying under the Code. The Plan has been amended since the letter was obtained. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

6. Differences from Form 5500

Differences between the Annual Return/Report of Employee Benefit Plan, Form 5500, and these financial statements are a result of different classifications between line items. Total Plan assets are in agreement.

7. Related Party Transactions

Plan investments are held and managed by American Funds Retirement Resources (American Funds), the custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Plan made direct payment to American Funds for administrative services of \$3,180 and \$1,105 for the years ended December 31, 2012 and 2011, respectively. Participant notes receivable also qualify as party-in-interest transactions.

8. Subsequent Events

The Plan Administrator has evaluated subsequent events through September 25, 2013, which is the date these financial statements were available to be issued. In April 2013, the Plan changed from American Funds as the custodian to Charles Schwab and the record keeper to Retirement Alliance.
