NOTE 1: DESCRIPTION OF PLAN

The following description of the Macias Gini & O'Connell LLP 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1995 and restated with an effective date of June 19, 2012, to provide benefits for employees of Macias Gini & O'Connell LLP (the "Plan Sponsor") and the employees' beneficiaries. The Plan is a defined contribution plan covering all eligible employees who have attained the age of twenty-one (21) years and have completed ninety (90) days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Capital Bank and Trust Company is the custodian of the Plan assets as well as the Plan trustee.

Plan Year

The Plan year begins January 1 and ends December 31.

Contributions

The Plan allows for the following types of contributions:

- *Employee Salary Deferral 401(k) Contributions*
  The Plan includes an elective salary deferral arrangement pursuant to Section 401(k) of the Internal Revenue Code (the "Code"). Upon eligibility, employees are automatically enrolled into the Plan. The automatic enrollment contribution is 5%; however, participants may contribute from 1% to 100% of their regular wages subject to various nondiscrimination tests and limitations prescribed by the Code or they may choose to opt out of the automatic enrollment.

- *Discretionary Employer Matching Contributions*
  The Plan Sponsor may contribute a discretionary amount not to exceed a percentage of compensation for the plan year. The participant must be employed on the last day of the plan year with 1,000 hours of service to be eligible for the contribution. For the years ended December 31, 2012 and 2011, the Plan Sponsor elected to make a matching contribution equal to 50% of the first 5% of eligible compensation deferred by participants, not to exceed 2.5% of eligible compensation.

- *Discretionary Employer Profit Sharing Contributions*
  The Plan Sponsor may contribute a discretionary amount as a profit sharing contribution. The participant must be employed on the last day of the plan year with 1,000 hours of service to be eligible for the contribution. The Plan Sponsor made no profit sharing contributions during 2012 and 2011.

- *Qualified Non-Elective Contributions*
  The Plan Sponsor may make a discretionary QNEC to the Plan in order to correct a failed ADP or ACP Test. If made, the contribution is allocated pro rata to all non-highly compensated employees. The Plan Sponsor made no QNEC during 2012 and 2011.

- *Employee Rollover Contributions*
  Participants may make rollover contributions from another qualified plan.

NOTE 1: **DESCRIPTION OF PLAN (Continued)**

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions, rollover contributions, an allocation of Plan earnings, and an allocation of certain Plan expenses, as defined by the Plan document. The yield (interest, dividends, and net realized and unrealized gains and losses) on investments is allocated to each participant's account based on each participant's pro rata share of the total investments in the particular fund. The benefit to which a participant is entitled is limited to the benefit that can be provided from the participant's vested account.

Vesting

Participants are always 100% vested in their elective deferral, rollover, discretionary employer profit sharing, and QNEC contributions. Employer matching contributions and gains/losses credited thereon vest as follows:

Less than 2 years service	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

For vesting purposes, a year of service is equivalent to 1,000 hours of service during the Plan year.

Forfeitures

Forfeitures from non-vested portions of employer contributions may be used to reduce employer contributions. Forfeitures of $27,759 and $59,837 were used to reduce employer contributions paid in 2012 and 2011, respectively. Forfeiture amounts totaling $31,749 and $9,213 were available for the reduction of employer contributions at December 31, 2012 and 2011, respectively.

Retirement

Normal retirement age under the Plan is sixty-five (65) years of age.

Payment of Benefits

Participants may begin receiving benefits in the year following the attainment of age 59½. On termination of service due to death, disability or normal retirement, a participant may elect to receive a lump-sum amount or in partial withdrawals or installments over a period of time not to exceed the participant's or beneficiary's assumed life expectancies. Participants qualifying under "hardship" rules may elect to receive all or a portion of their vested account balance prior to termination or retirement. Refunds of excess contributions generally represent the distribution of certain assets to employees in order for the Plan to comply with nondiscrimination rules in the Code.

Participant Loans

The Plan does not allow participants to borrow against their accounts.

Administrative Expenses

Administrative expenses of the Plan are paid for by the Plan and/or Plan Sponsor. Expenses related to specific participant transactions are charged to the respective participant's account.

Reclassifications

Certain amounts in the 2011 financial statements have been reclassified to conform with the 2012 financial statement presentation.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES**

Basis of Accounting
The financial statements of the Plan are maintained on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment Valuation and Income Recognition
Investments in mutual funds, common collective trusts, and money market accounts are stated at fair value based on quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded in the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses in investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Income Taxes
The Plan has adopted a prototype plan which has obtained a favorable opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan is acceptable under Section 401 of the Code. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has determined that as of December 31, 2012 and 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

Estimates and Assumptions
The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 6: **FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) ASC 820 provides a framework for measuring fair value. That framework provides a three-tier hierarchy that prioritizes the inputs to valuation techniques used for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Level 1 Fair Value Measurements

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Underlying short term investments with quoted prices in active markets to preserve the value of the investment at $1.00 per share.

NOTE 6: **FAIR VALUE MEASUREMENTS (Continued)**

Level 2 Fair Value Measurements

Common collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2012 and 2011:

NOTE 7: **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8: **RISKS AND UNCERTAINTEES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts in the statement of net assets available for Plan benefits.

NOTE 9: **PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS**

Certain Plan investments are shares of mutual funds, common collective trusts and a money market fund that are managed by the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are recorded in net appreciation (depreciation) in fair value of investments. Fees for certain expenses related to the administration of the Plan were paid by the Plan and the Plan Sponsor. These qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

NOTE 10: **SUBSEQUENT EVENTS**

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 18, 2013, the date the financial statements were available to be issued, and management has determined that no subsequent events have occurred that should be disclosed.
