NOTE 1--DESCRIPTION OF PLAN

The following description of the National Football League Capital Accumulation Plan Chargers Football Company, LLC (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General : The Plan, which was adopted on April 1, 1987, is a defined contribution plan covering substantially all front office employees, other than players, of the Chargers Football Company, LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The authority to control and manage the operation and administration of the Plan ultimately lies with the National Football League Capital Accumulation Plan Administration Committee.

The Plan's investment assets, other than assets held in the PNC Government Money Market Fund #405, are included in the National Football League Reciprocal Trust, a common/collective trust (CCT), which was established and is maintained for the collective investment of contributions by plans of the National Football League member clubs and other league entities. The assets of the CCT are maintained by the custodian. The CCT has several investment funds where participants may direct their account balances.

Contributions : Participant salary reduction contributions: Participants may contribute up to 100% of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Such contributions are 100% vested and nonforfeitable. Participant contributions are subject to certain limitations.

Employer matching contributions: The Company makes matching contributions of 50% of each participant's contribution up to 2.5% of the participant's compensation. These employer matching contributions are subject to overall employer contribution limits and additions to individual participant account limits. Participants are immediately 100% vested in employer matching contributions.

Employer discretionary contributions: Effective January 1, 2011 the Plan was amended whereas the Company may make a discretionary contribution to the Plan. The employer discretionary contributions would be allocated to participants accounts in the same ratio as the participant's compensation bears to total compensation of eligible participants. These employer discretionary contributions are subject to limits stated in the plan document and to individual participant account limits. Each participant will be vested in employer discretionary contributions per the vesting schedule. The Company elected to make a discretionary contribution in the amount of $783,779 for the year ended December 31, 2012.

NOTE 1--DESCRIPTION OF PLAN (Continued)

Contributions (continued) : Participant rollover contributions: The Plan allows participants to make rollover contributions from a qualified plan. Such contributions are 100% vested and nonforfeitable.

Eligibility to participate : Substantially all front office employees, other than players, who have worked 500 hours in a twelve month period beginning on the date the employee completes one hour of service, are eligible for participation as of the next succeeding entry date.

Forfeitures : Forfeited nonvested accounts will be used to reduce future employer discretionary and matching contributions. During 2012, no forfeitures were applied. There are no unapplied previously forfeited amounts held by the Plan as of December 31, 2012 and 2011.

Participant accounts : All investments are directed by plan participants. Upon enrollment in the Plan, a participant directs contributions in any of the available investment options. Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's salary reduction and rollover contributions, employer matching contributions, employer discretionary contributions and an allocation of plan earnings. Allocations are based on participant's compensation or account balances, as defined by the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Payment of benefits : A participant's vested account balance becomes distributable upon termination of service due to retirement or death. Upon severance of employment for other than retirement or death, benefits are paid to employees based on the amount allocated to their account at the time of termination. Participants may defer receiving these benefits until their normal retirement age if their vested account balance exceeds $1,000.

Participants may also elect to withdraw in cash certain vested amounts within the deferred contribution account to the extent necessary to meet a financial hardship, in accordance with the regulations and rulings of the Internal Revenue Code. After a withdrawal, a stipulated period of time must lapse, as defined by the Plan, before a participant can make additional deferred contributions.

Vesting : Participants are immediately vested in their rollover, participant salary reduction contributions and employer matching contributions plus actual earnings thereon. Vesting in employer discretionary contributions are based on years of service for periods of prior or subsequent employment with any designated organization, as defined by the Plan.

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	60%
4	80%
5 or more	100%

NOTE 1--DESCRIPTION OF PLAN (Continued)

Vesting (continued) : For vesting purposes, a year of service is defined as a plan year in which an employee works at least 1,000 hours.

Participants become fully vested upon termination for reason of retirement or death, or if the Plan is terminated. Nonvested benefits are forfeited by participants upon termination for reasons other than normal retirement or death.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting : The financial statements of the Plan are presented on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. As the investment contracts through a common/collective trust held by the Plan have been determined not to be fully-benefit responsive, the Statements of Net Assets Available for Benefits presents the fair value of the common/collective trust funds. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

Administrative expenses : All administrative, accounting, legal and audit services of the Plan are provided by the Company at no cost, or paid by the Company.

Investment valuation and income recognition : Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits : Benefits are recorded when paid.

Reclassification : Certain prior year balances have been reclassified to agree to current year presentation.

Subsequent events : The Plan has evaluated subsequent events through September 20, 2013, the date the financial statements were available to be issued.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of estimates : The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTE 3--CERTIFIED INFORMATION

The following is a summary of the information regarding the Plan, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by PNC Bank, the custodian of the Plan, and furnished to the plan administrator. Net appreciation (depreciation) in fair value of investments	$ 1,635,962
Interest	113

NOTE 5--FAIR VALUE MEASUREMENTS

The fair value measurement authoritative accounting literature provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under the fair value measurement authoritative accounting literature and a description of the valuation methodologies used for assets measured at fair value are described below:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in inactive markets, (c) inputs other than quoted prices that are observable for the asset or liability or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Common/collective trust funds are valued at the NAV of units of a collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan held no level 3 assets as of December 31, 2012 and 2011.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5--FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

(a) Money market: Investments that invest in short term (12 months or less) debt issued by corporations or governments. Each money market mutual fund is usually high quality and returns interest in addition to principal when they mature.

(b) Fixed income: Investments that are intended to produce a predictable stream of income derived from ownership in corporate or government bonds and other fixed income instruments with varying maturities.

(c) General: Investments that invest in a mix of fixed income, domestic equity and international equity securities with a targeted allocation set by an investment committee.

(d) Index: Investments that provide participants with the ability to gain a broad exposure through a passive investment.

NOTE 5--FAIR VALUE MEASUREMENTS (Continued)

(e) International: Investments that invest primarily in companies located outside of its investors' country of residence.

(f) Large cap: Investments that invest in companies with a market capitalization greater than $10 billion at the time of purchase.

(g) Lifecycle: Investments diversified over a range of asset categories. Each Lifecycle fund has an allocation strategy for the underlying equity, fixed income and short term mutual funds based on the number of years until the funds reach their target retirement dates. Each fund with a target retirement date will gradually adopt a more conservative asset allocation as it approaches its target retirement date.

(h) Small/mid cap: Investments that invest in companies with a market capitalization of between $500 million and $10 billion at the time of purchase.

NOTE 6--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 7--TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 1, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Department of Labor (DOL) Employee Benefits Security Administration (EBSA). Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine income tax examinations by taxing jurisdictions; however, there are currently no income tax examinations for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8--PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are common/collective trusts and shares of mutual funds managed by PNC Bank. PNC Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
