J. LOHR EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2012

(1) DESCRIPTION OF PLAN

The following description of the J. Lohr Employees Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by J. Lohr Winery Corporation in 2001. J. Lohr Vineyards, Inc. is also included as a participating employer in the Plan. The Plan is a defined contribution plan and profit-sharing plan with a 401(k) deferral feature. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan covers all employees who are age 20 or older and who have completed one year of service. Employees are credited with one year of service for each 12-month period in which they complete 1,000 hours of service.

Contributions

Each year, participants may elect to contribute up to 60% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans. The employers make a 3% nonelective safe-harbor contribution of annual eligible compensation to all eligible employees. Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers 35 mutual funds as investment options for participants in addition to an option to invest in a guaranteed interest contract with New York Life Insurance Company.

Participant Accounts

Each participant's account is credited with the participant's and his or her employer's contributions and allocation of Plan earnings. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested immediately in their voluntary contributions and employers' contributions plus actual earnings thereon.

Participant Withdrawals

Participants while still employed may request withdrawal of their own contributions to satisfy an immediate financial need. Loans are not permitted.

Payment of Benefits

On termination of service, death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's interest in his or her account.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through September 25, 2013, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Participants' Contributions Receivable

Participants' contributions receivable represent amounts withheld from participants' wages but not yet paid to the carrier.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenses

J. Lohr Winery Corporation pays substantially all expenses of the Plan.

(3) FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted market prices for identical assets. Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is measured using an income approach based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (2.25% at December 31, 2012) and discount rate of 2.35%.

For the asset with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Sponsor's chief financial officer and the Plan trustee. Those policies and procedures are reassessed at least annually to

(3) **FAIR VALUE MEASUREMENTS, CONTINUED**

determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The fair value hierarchy of the Plan's investments as of December 31, 2012 and December 31, 2011 are as follows:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2012			
Mutual funds	$ 17,123,637	17,123,637	-

Total investments at fair value	$ 21,975,069	17,123,637	4,851,432
December 31, 2011			
Mutual funds	$ 16,595,649	16,595,649	-

December 31, 2012

Total gains or losses included in changes in net assets available for benefits	113,187
Purchases, issues, sales, and settlements:	
Purchases	4,877,109
Sales	(138,864)
Ending balance	$ 4,851,432
The amount of total gains or losses for the year included in changes in net assets available for benefits attributable to the changes in unrealized gains or losses relating to assets held at the end of the reporting period	$ (41,600)

(3) FAIR VALUE MEASUREMENTS, CONTINUED

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2012, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 at the end of the reporting period. For the year ended December 31, 2012, there were no significant transfers into or out of Level 3.

(4) INVESTMENTS

The following are investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011:

	2012	2011
New York Life Guaranteed Interest Account, 4,809,832 shares	$ 4,809,832	-
Fidelity Freedom 2010 Fund, 69,703 and 64,354 shares, respectively	984,211	843,036
Fidelity Freedom 2020 Fund, 115,468 and 135,421 shares, respectively	1,652,352	1,776,727
Fidelity International Treasury Bond Index Advantage Fund, 111,892 shares	1,273,326	-
Fidelity Retirement Money Market Portfolio, 3,610,361 shares	-	3,610,361
PIMCO Total Return Admin Fund, 176,741 and 119,854 shares, respectively	1,986,570	1,302,814

(5) GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2012, the Plan entered into a fully benefit-responsive guaranteed investment contract with New York Life Insurance Company (NYLIC). NYLIC maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

(5) GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY, CONTINUED

Contract value, as reported to the Plan by NYLIC, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012, was $4,851,432. The crediting interest rate is based on an agreed-upon formula with the issuer, but it may not be less that 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with NYLIC. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2012
Average yields:	
Based on actual earnings	2.25%
Based on interest rate credited to participants	2.25%

(6) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(7) INFORMATION PREPARED AND CERTIFIED BY TRUSTEES

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustees.

	2012	2011
Investments at fair value - mutual funds	$ 17,123,637	16,595,549
Guaranteed investment contract with insurance company, at contract value	4,809,832	-
Other receivable	255	-
Investment income	1,896,034	-

(8) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2012 and 2011:

	2012	2011
Net assets available for benefits per financial statements	$ 21,973,696	16,631,187
Contributions receivable	(39,972)	(35,538)
Net assets available for benefits per Form 5500	$ 21,933,724	16,595,649

The following is a reconciliation of contributions per the financial statements for the year ended December 31, 2012 to Schedule H of Form 5500:

Contributions per the financial statements	$ 4,119,035
Contributions receivable at December 31, 2011	35,538
Less contributions receivable at December 31, 2012	(39,972)
Contributions per Schedule H of Form 5500	$ 4,114,601

(9) TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself. However, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(10) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012

(1) DESCRIPTION OF PLAN

The following description of the J. Lohr Employees Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by J. Lohr Winery Corporation in 2001. J. Lohr Vineyards, Inc. is also included as a participating employer in the Plan. The Plan is a defined contribution plan and profit-sharing plan with a 401(k) deferral feature. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan covers all employees who are age 20 or older and who have completed one year of service. Employees are credited with one year of service for each 12-month period in which they complete 1,000 hours of service.

Contributions

Each year, participants may elect to contribute up to 60% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans. The employers make a 3% nonelective safe-harbor contribution of annual eligible compensation to all eligible employees. Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers 35 mutual funds as investment options for participants in addition to an option to invest in a guaranteed interest contract with New York Life Insurance Company.

Participant Accounts

Each participant's account is credited with the participant's and his or her employer's contributions and allocation of Plan earnings. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested immediately in their voluntary contributions and employers' contributions plus actual earnings thereon.

Participant Withdrawals

Participants while still employed may request withdrawal of their own contributions to satisfy an immediate financial need. Loans are not permitted.

Payment of Benefits

On termination of service, death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's interest in his or her account.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through September 25, 2013, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Participants' Contributions Receivable

Participants' contributions receivable represent amounts withheld from participants' wages but not yet paid to the carrier.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenses

J. Lohr Winery Corporation pays substantially all expenses of the Plan.

(3) FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted market prices for identical assets. Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is measured using an income approach based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (2.25% at December 31, 2012) and discount rate of 2.35%.

For the asset with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Sponsor's chief financial officer and the Plan trustee. Those policies and procedures are reassessed at least annually to

determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

(3) FAIR VALUE MEASUREMENTS, CONTINUED

(5) GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2012, the Plan entered into a fully benefit-responsive guaranteed investment contract with New York Life Insurance Company (NYLIC). NYLIC maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

(5) GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY, CONTINUED

Contract value, as reported to the Plan by NYLIC, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012, was $4,851,432. The crediting interest rate is based on an agreed-upon formula with the issuer, but it may not be less that 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with NYLIC. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Based on actual earnings	2.25%

(6) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(9) TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself. However, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(10) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
