(1) Description of Plan

The Orlando Magic 401(k) Retirement Plan (the Plan) was originally established effective July 1, 1990 and was amended and restated effective June 20, 2012, at which time the Plan's name was changed from RDV Sports, Inc. 401(k) to Orlando Magic 401(k) Retirement Plan.

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution retirement plan covering all full-time employees of Orlando Magic, Ltd. (the Sponsor or Employer) who have completed at least one year of service during which they completed at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Participants may elect to make before-tax contributions up to limits established by the Internal Revenue Code (IRC) into any combination of investment funds offered by Transamerica Life Insurance and Annuity Company, the custodian. Each plan year, the Sponsor may make matching contributions as it deems advisable equal to a specified percentage of each eligible participants' elective deferral. For 2012 and 2011, the Sponsor contributed 50% match of participants' contributions up to 6% of their qualified compensation.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution(s) and an allocation(s) of sponsor matching contributions and plan earnings. Allocations are based on participant earnings or account balances, as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in sponsor contributions and earnings thereon is based on years of service.

Vesting rights accrue as follows:

Years of service	Vested percentage
Less than:	
1	—%
2	20
3	40
4	60
5	100

(Continued)

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms are usually a maximum of five years except for the purchase or construction of a primary residence, which may be more than five years. The loans are secured by the balance in the participant's account and bear interest as of the date the loan is granted. Interest rates are commensurate with those used by the local commercial lenders for loans granted under similar circumstances.

(f) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum equal to the value of the participant's vested interest in his or her account, or in installment payments as requested by the participant.

(g) Forfeitures

Any sponsor matching contributions and earnings thereon credited to an employee's account that have not vested upon that employee's termination are used to first pay plan administrative costs and then to reduce future employer matching contributions. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $8,460 and $201, respectively. During 2012 and 2011, forfeitures of $188 and $0, respectively, were used to pay plan administrative costs. During 2012 and 2011, forfeitures of $16,577 and $39,426, respectively, were used to reduce future employer matching contributions.

(h) Hardship Withdrawals

Subject to certain limits set by the Plan, hardship withdrawals will be considered for participants for certain medical expenses, to pay the costs related to the purchase of a principal residence, payment of tuition and related educational fees for the next twelve months of post secondary education, and payments to prevent eviction from a principal residence. Hardship withdrawals may be made once in a twelve-month period and will be paid as soon as practical following receipt of all information necessary to make payment. Participants will be suspended from making Elective Contributions to this Plan or any other qualified or nonqualified plan(s) of their Employer for six months following the hardship withdrawal. The withdrawal may not exceed the amount necessary to meet the need but may include amounts necessary to pay federal, state or local income taxes and penalties resulting from the withdrawal. The withdrawal may be subject to both the additional 10% Federal tax penalty described below and ordinary income tax.

Hardship withdrawals may be made only if there are no other resources available to meet the financial need, including loans from this Plan (if provided under the Plan) or any other plan(s) maintained by the Employer. Hardship withdrawals may not be rolled over to another qualified employer plan or an Individual Retirement Account.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investments and Investment Income

The Plan's investments in mutual funds are stated at fair value. The Plan's investment in the Transamerica Stable Value Fund, a common collective fund that invests primarily in the assets in the general account of Transamerica Life Insurance Company and Transamerica Financial Life Insurance Company. The cash reserve account's sole purpose is to pay the Plan's expenses.

All investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan's investments include funds that invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's financial statements and schedule.

(c) Notes Receivable from Participants

Participant loans are recorded at amortized cost.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Use of Estimates

The preparation of the financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of additions to and deductions from those net assets during the reporting period. Actual results could differ from these estimates.

(f) Application of New Accounting Standards

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement* (Topic 820), *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS.* Many of the amendments in this update change the wording used in the existing guidance to better align U.S. generally accepted accounting principles with International Financial Reporting Standards and to clarify the FASB's intent on various aspects of the fair value guidance. This update expands the disclosures about fair value measurements by requiring the following disclosures:

- All transfers between Level 1 and Level 2 of the fair value hierarchy. Previous guidance required disclosure of significant transfers between Level 1 and Level 2, this update is effective for us in fiscal 2013 and should be applied prospectively. Other than requiring additional disclosures, adoption of this new guidance will not have a significant impact on our financial statements.
- For fair value measurements categorized within Level 3 of the fair value hierarchy:

(a) Quantitative information about significant unobservable inputs for all Level 3 measurements;

(b) The valuation processes used by the entity; and

(c) Qualitative discussion about the sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs, if any.

- An entity's use of a nonfinancial asset in a way that differs from the asset's highest and best use when that asset is measured at fair value in the statement of financial position or when its fair value is disclosed on the basis of its highest and best use.
- The categorization by level of the fair value hierarchy for items that are not measured at fair value in the statement of financial position but for which the fair value is required to be disclosed (e.g., a financial instrument that is measured at amortized cost in the statement of financial position but for which fair value is disclosed in accordance with ASC Topic 825, *Financial Instruments*).

Other accounting standards that have been issued by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the financial statements upon adoption.

(3) Financial Information Certified by Plan's Custodian and Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and disclosure under ERISA.

During 2012 and 2011, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,012,248 and depreciated in value by $(273,274), respectively.

Dividend and interest income amounted to $201,307 and $123,792 for 2012 and 2011, respectively.

(5) Income Tax Status

The Sponsor has adopted a Transamerica Financial Life Insurance Company volume submitter plan that received a favorable opinion letter from the IRS dated March 31, 2008. The Plan has been amended since receiving the opinion letter. However, the Sponsor and its counsel believe the Plan is designed and currently being operated in compliance with the applicable requirements of the Code and that, therefore, the Plan is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(6) Plan Termination

The Orlando Magic, Ltd. has established the Plan with the intent to maintain it indefinitely, but maintains the right, at any time, to discontinue contributions and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants will become 100% vested in their accounts.

(Continued)

(7) Risks and Uncertainties

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, disruptions in the financial markets, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

(8) Party in Interest

Certain plan investments are units or shares of mutual funds managed by Transamerica Life Insurance and Annuity Company (the Plan Custodian) and Transamerica Retirement Solutions Corporation (the Plan Recordkeeper). These transactions qualify as party-in-interest transactions.

(9) Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements required under other accounting pronouncements, but does not change existing guidance as to whether or not an instrument is carried at fair value. The fair value of our financial instruments is based on the closing market prices of the instruments when applicable, or alternatively, valuations utilizing market data and other observable inputs, inclusive of the risk of nonperformance. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of observable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at quoted market prices on the last business day of the plan year, which represents the net asset value (NAV) of shares held by the Plan at year-end.

Stable value fund: The fair value of the Plan's investment is based on the net asset value calculated by its issuer utilizing quoted market prices, most recent bid prices in the principal market in which the securities are normally traded, pricing services and dealer quotes.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. The following tables set forth by level within the fair value hierarchy the inputs used to value the investment assets measured at fair value as of December 31, 2012 and 2011:
