1. Description of Plan

The following description of the Evening Post Publishing Company and Affiliated Companies (collectively the "Company") Incentive Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all full time employees of the Company who have 90 days of service and are age twenty-one or older and for part time employees who have one year and 1,000 hours of consecutive service and are age twenty-one or older. The Retirement Committee of the Company controls and manages the operation and administration of the Plan. New York Life Insurance Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to 80% of their pretax compensation, as defined in the Plan document, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Company contributes 50% of the first 5% of compensation that a participant contributes to the Plan. Additional discretionary amounts may be contributed at the option of the Company's board of directors. No additional contributions were made for the year ended December 31, 2012. Contributions are subject to certain limitations.

Investment Options
Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds, pooled separate accounts, and common collective trust funds as investment options for participants.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, and Plan earnings (losses), and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after three years of credited service.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates of prime plus 1% as published in the Wall Street Journal. At December 31, 2012, outstanding loans bore interest rates ranging from 4.25% to 8.75%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Amounts contributed on a before-tax basis may only be withdrawn by in-service employees upon demonstration of financial hardship or disability.

Forfeitures
At December 31, 2012 and 2011 forfeited non-vested accounts totaled $69,787 and $11,850, respectively. These accounts will be used to reduce future Company contributions and then pay Plan expenses. During 2012, forfeitures of $15,191 were used to reduce Company contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates
The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with GAAP, the stable value fund held by a defined contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the stable value fund as well as the adjustment to the fully benefit-responsive stable value fund from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchase and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded when received. Other interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded upon distribution.

Administrative Expenses
The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Transfers
In June 2012, the Evening Post Publishing Company sold Bryan College Station Newspaper ("Bryan College"). This sale transferred the assets held by employees of Bryan College out of the Evening Post Publishing Company Incentive Savings Plan and into the acquirer's Plan. The transfer is presented on the Statement of Changes in Net Assets Available for Benefits as a transfer of assets out of the Company's Plan during 2012.

Subsequent Events
The Plan has evaluated subsequent events through September 19, 2013, the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2012	December 31, 2011
New York Life Anchor Account	$ 13,700,236	$ 13,491,944
Mainstay ICAP Select Equity I	12,611,146	11,758,162
Dodge and Cox International Stock Fund	5,383,130	5,078,592
Pimco Total Return Fund	4,101,316	3,648,907
AllianceBer 2010 Ret Strat Adv	-	5,665,606
Pimco Real Ret Income Ad	5,705,323	-

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual Funds	$ 3,923,196
Pooled Separate Account	285,937
Common Collective Trusts	88,901
	$ 4,298,034

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds.

Level 2 investment securities include common collective trust funds for which quoted prices are not available in active markets for identical instruments. Common collective trust funds are valued at the closing net asset value (NAV) of the units held by the Plan at year end based on information certified by the trustee.

Due to significant unobservable inputs included in the valuation model for the pooled separate account the resulting fair value of this security is classified as Level 3. The pooled separate account holds an investment in a guaranteed investment contract. Guaranteed investment contracts are reported at contract value which approximates fair value. Disclosure of unobservable inputs to fair value measurement has not been included for the GIC because quantitative unobservable inputs are not developed by the plan when measuring fair value and have not been made available to the plan by the insurance company (see Note 6).

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2012 and 2011.

	Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds				
Blend	$ 16,967,984	$ -	$ -	$ 16,967,984
Growth	15,392,944	-	-	15,392,944
Fixed Income	4,101,316	-	-	4,101,316

Total investments	$ 39,901,478	$ 786,402	$ 13,894,889	$ 54,582,769

	Fair Value as of December 31, 2011			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds				
Blend	$ 16,056,439	$ -	$ -	$ 16,056,439
Growth	13,795,416	-	-	13,795,416
Fixed Income	3,648,907	-	-	3,648,907
Value	3,187,911	-	-	3,187,911
Pooled separate account				
Stable value (a)	-	-	13,469,807	13,469,807
Common collective trusts				
Growth (b)	-	503,862	-	503,862
Total investments	$ 36,688,673	$ 503,862	$ 13,469,807	$ 50,662,342

(a) Represents an investment in a pooled separate account. The fund seeks to provide a low-risk stable investment, offering competitive yields and limited volatility, with guarantee of principal and accumulated interest. There are no unfunded commitments or redemption frequency restrictions. However, no direct transfers to competing like funds is permitted (See Note 6).

(b) Represents investment in a common collective trust consisting of securities in companies composing the Standard & Poors ("S&P") 500 Index. Equity index fund strategies seek to replicate the movements of an index specific financial market, such as the S&P 500 Index, regardless of market conditions. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

The Plan recognizes transfers between the levels as of the beginning of the reporting period. Gross transfers between the levels were not significant for the years ended December 31, 2012 and 2011.

The following table illustrates the activity of Level 3 assets measured at fair value on a recurring basis from December 31, 2011 to December 31, 2012:

	Pooled Separate Account
Fair value at December 31, 2011	$ 13,469,807
Purchases	1,964,447
Sales	(2,042,092)
Interest	285,937
Unrealized gains relating to instruments still held at the reporting date	216,790
Fair value at December 31, 2012	$ 13,894,889

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Unaudited Information Certified by Trustee

The accompanying financial statements include the following unaudited information as of December 31, 2012 and 2011 and for the year ended December 31, 2012 that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	2012	2011
Investments*	$ 54,388,116	$ 50,684,479
Notes receivable from participants	$ 875,813	$ 902,652
Net appreciation in fair value of investments	$ 4,298,034	
Dividend income	$ 911,732	
Interest income from notes receivable from participants	$ 38,622	

The certification mentioned above includes all investment information discussed in Notes 3 and 4.

*All investments are certified at fair value with the exception of the stable value fund, which is certified at contract value.

6. Investment Contract with Insurance Company (Pooled Separate Account)

The Plan has entered into a fully benefit-responsive investment contract with New York Life Insurance Company (the "NYLIM"). NYLIM maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is included in the financial statements at fair value and then adjusted to contract value. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by NYLIM, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	December 31,	
Average yields:	**2012**	**2011**
Based on actual earnings	2.42%	3.14%
Based on interest rate credited to participants	1.77%	2.64%

7. Exempt Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by New York Life Insurance Company. New York Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid to the trustee by the Plan for administrative services were $11,202 for the year ended December 31, 2012.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

9. Tax Status

The Internal Revenue Service (the "IRS") has determined and informed the Company by letter dated July 12, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (the "IRC"). Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying 2012 and 2011 financial statements to Schedule H of Form 5500:

12. Subsequent Events
