PERRY HOMES, LLC 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Perry Homes, LLC 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The original Plan was adopted by Perry Homes, A Joint Venture and subsidiaries (the Employer) on January 1, 1994. The name of the Plan was changed to Perry Homes, LLC 401(k) Profit Sharing Plan during 2007 as a result of a change in the Employer's name. The Plan is a defined contribution plan covering all employees who are 21 years of age or older and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). An independent service organization serves as the recordkeeper of the Plan. Wilmington Trust is the trustee of the Plan (the Trustee). The Plan was restated retroactively effective January 1, 2008 and was further amended effective January 1, 2009. The provisions of the Plan are discussed below.

Contributions

Participants may contribute between 1 and 25 percent of pretax compensation per payroll period as defined in the Plan and shall not exceed the deferral limitations as specified in section 402(g) of the Internal Revenue Code (IRC). The annual deferral limitation was $17,000 and $16,500 for 2012 and 2011, respectively.

The Economic Growth and Tax Relief Reconciliation Act of 2001 includes a "catch up" provision for employee benefit plans. This provision became effective as of January 1, 2002, and allows employees who are 50 years old or older and who contributed the maximum amount allowed by law to their account to contribute an additional $5,500 for 2012 and 2011.

Effective January 1, 2009, the Plan was amended to incorporate changes in Plan provisions related to employer matching contributions and the use of forfeitures. Employer matching contributions shall be discretionary and forfeitures may be used to pay Plan administrative expenses before applying towards employer contributions. Participants who are employed on the last day of the Plan year and complete at least 1,000 hours of service during the Plan year are eligible to receive Employer matching contributions. For the 2012 Plan year, the Company matched 50% of employee deferrals up to a maximum of 50% of employee compensation not to exceed $1,000 per employee. There was no Employer matching contribution for the 2011 Plan year.

The Plan accepts rollover contributions transferred from other qualified retirement plans, subject to the applicable provisions of the Plan.

Plan assets are held in trust by the Trustee. Participants may direct the investment of their contributions among one or more of the funds offered under the Plan.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Participant Accounts

Each participant's account is credited with the participant's and the employer's contributions, if any, and an allocation of investment earnings and losses. Allocations are based on participant earnings or account balances, as defined. Contributions are deposited into a trust account, which is invested by the Trustee based on various investment options determined by each participant. A participant may change his or her investment options at any time via a telephone service or the Internet. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Employees are 100 percent vested at all times with respect to their contributions and earnings and losses thereon. Matching contributions, if any, and earnings and losses thereon vest based on their full years of active service with the Employer as follows (except that upon death, total permanent disability, or retirement at the age of 65, the employee becomes 100 percent vested):

Less than two years	0%
Two years but less than three years	20%
Three years but less than four years	40%
Four years but less than five years	60%
Five years but less than six years	80%
Six years or more	100%

For employer contribution vesting purposes, a year of service is defined as having worked at least 1,000 hours during the Plan year. All years of service are counted, regardless of whether or not they are continuous.

Payment of Benefits

On termination of service due to death, disability or retirement, or any other reason, a participant, or beneficiary in the case of death, may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or request a rollover into another qualified plan.

Forfeitures

Nonvested benefits of terminated participants are forfeited. Forfeitures are applied to pay Plan administrative costs before applying towards the Employer's matching contribution to the Plan, if any. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $11,267 and $44,731, respectively. Forfeitures totaling $45,597 and $43,763 were applied to pay Plan administrative expenses for the years ended December 31, 2012 and 2011 respectively.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Participant Loans

A participant may borrow up to the lesser of 50 percent of his or her total vested account balance, or $50,000. A participant may have only one loan outstanding at a time. The minimum loan amount is $1,000.

The interest rate charged on the loan is a reasonable rate of interest based on the prevailing interest rate charged on similar loans under like circumstances by professional lenders. The loans are secured by the balance in the participant's account. Loan repayments are made through payroll deductions. Each payment, including interest, is credited to the participant's account.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are based on information provided by the Trustee. Certain adjustments have been made to the information provided by the Trustee in order for the financial statements to conform to the accrual basis of accounting and accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For 2011, the GIC Portfolio Fund is a fully benefit-responsive investment contract. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis. There was no GIC Portfolio Fund option at December 31, 2012.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements and disclosures associated with the investments held by the Plan.

All investments in the Plan are participant-directed. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainty

The Plan invests in various investment securities. Such investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Payments of Benefits

Benefits are recorded when paid.

Participant Loans

Participant loans represent notes receivable from participants and are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded when earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Asset management fees and all other administrative costs are paid by the Plan. Loan fees are paid by the borrowing participant.

NOTE 3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE – UNAUDITED

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5. FAIR VALUE MEASUREMENTS

FASB Accounting Standard Codification (ASC) No. 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are unobservable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5. FAIR VALUE MEASUREMENTS – CONTINUED

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- *Common Collective Trust Funds*

  Common collective trust funds are valued at the fair values of the underlying assets of the funds, minus their liabilities, as determined by the funds' Trustee. Investment in the GIC Portfolio Fund, a common collective trust fund, is valued based on quoted prices, replacement cost, present value of projected future cash flows, contractually obligated payments, valuation models, etc. for underlying investment contracts, minus liabilities, as determined by the fund's Trustee.

- *Mutual Funds*

  Valued at the net asset value of shares held by the Plan at year end. Net asset value is calculated based on quoted market prices of portfolio securities. Investment in the Galliard Retirement Income Fund, a mutual fund, is valued based on quoted prices for similar securities, published net asset values, interest rates, credit risk, and others for underlying investments, minus liabilities, as determined by the fund's Trustee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. FAIR VALUE MEASUREMENTS – CONTINUED

The following table presents by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis, as of December 31, 2012:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are interests in common collective trust funds managed by the Trustee or an affiliate of the Trustee. Therefore, the Plan's investment transactions in these funds qualify as party-in-interest transactions. These transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the IRC.

NOTE 7. INCOME TAX STATUS

The Plan uses the third party administrator's (TPA) Prototype Non-Standardized Profit Sharing Plan with CODA (Prototype Plan). The Prototype Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7. INCOME TAX STATUS – CONTINUED

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested and the Plan's Trustee would distribute to each participant the amount certified by the Plan's Administrative Committee representing the balance of the participant's account.

NOTE 9. RECONCILIATION TO FORM 5500

The following table presents a reconciliation of net assets available for benefits per the Plan's financial statements to the Plan's Form 5500:

NOTE 10. SUBSEQUENT EVENTS

Effective June 15, 2013, the Plan was amended to change the date of an In-service Withdrawal from age 65 to age 59 ½. Upon the effective date, Plan Participants may receive a distribution from all contribution accounts prior to termination of employment provided they have attained age 59 ½.

Plan management has evaluated events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 30, 2013, which is the date the financial statements were available to be issued, and determined that except as provided above, no events have occurred subsequent to December 31, 2012 that warrant additional disclosure.
