NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

1. DESCRIPTION OF PLAN

The following description of the Redlee/SCS, Inc. (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed 12 months of service, are age 21 or older, and have completed 1,000 hours of service during the twelve month eligibility computation period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In 2012, the Company elected to change the Plan's custodian. As a result of the change in March 2012, all the Plan's assets were transferred to Great-West Life and Annuity Insurance Company ("Great-West").

Contributions

Each year, participants may contribute up to 100 percent of their annual compensation as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company's contributions are discretionary and determined annually by the board of directors. During 2012, the Company elected to contribute 50 percent of a participant's deferral limited to six percent of a participant's eligible compensation. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. In 2012, the Company did not contribute a discretionary profit sharing contribution. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and company matching contributions, as well as allocations of the Company's profit sharing contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan sponsor. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts total $1,913 and $781, respectively. These accounts will be used to reduce future employer contributions or to offset plan expenses. Also, in 2012, employer contributions were reduced by $781 from forfeited non-vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. At December 31, 2012, Great West reported to the Plan that the fully benefit-responsive investment contract's fair value represents contract value; thus no adjustment is considered necessary. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan sponsor deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other specific transaction fees are charged directly to the participant's account and are included in administrative expenses. Investment related and plan administration expenses are included in net appreciation of fair value of pooled separate accounts.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, plan management has evaluated subsequent events through September 17, 2013, the date the financial statements were available to be issued and determined there were no other items to disclose.

3. INVESTMENTS

The following investments were held by the Plan at December 31, 2012 and 2011. Investments representing five percent or more of the Plan's net assets have been separately stated:

4. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The custodians have certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate at December 31, 2012 and 2011 and for the year ended December 31, 2012.

	2012	2011
Pooled separate accounts	$ 2,713,943	$ 2,426,197
Guaranteed investment contract, contract value	152,318	128,958
Total investments	$ 2,866,261	$ 2,555,155

Net appreciation in fair value of pooled separate accounts	$ 294,230	
Interest, guaranteed investment contract	$ 2,460	
Interest from notes receivable from participants	$ 2,329	

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level l) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued daily utilizing the net asset value of the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the variable annuity contract.

Guaranteed investment contract – Valued daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,713,943	$ -	$ 2,713,943
Guaranteed investment contract	-	152,318	-	152,318
Total assets at fair value	$ -	$ 2,866,261	$ -	$ 2,866,261

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 2,426,197	$ -	$ -	$ 2,426,197
Guaranteed investment contract	128,958	-	-	128,958
Total assets at fair value	$ 2,555,155	$ -	$ -	$ 2,555,155

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan participates in a benefit responsive investment contract, the Key Guaranteed Portfolio Fund, with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. As stated previously, the guaranteed investment contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value which represents contract value in arriving at the net assets available for benefits. Contract value, as reported to the Plan by Great-West, represents contributions made

under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was $152,318. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents that are unacceptable to the issuer as defined by the investment contract, (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for an exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan sponsor does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Average yields:	2012
Based on actual earnings	1.45%
Based on interest rate credited to participants	1.45%

During 2011, the guaranteed investment contract held with John Hancock Life Insurance Company, the previous custodian, was not considered fully benefit responsive; thus contract value was considered fair value.

7. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Great-West. Great-West is the custodian and recordkeeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of pooled separate accounts. Fees paid by the Plan for

recordkeeping services are reflected in the Statement of Changes in Net Assets Available for Benefits as administrative expenses.

Plan transactions and records are administered by Pension Analysis Bureau Inc. ("PAB"). PAB is the third party administrator of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative services are reflected in the Statement of Changes in Net Assets Available for Benefits as administrative expenses. As stated previously, the Company absorbs a significant portion of the administrative expenses of the plan.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their employer contributions.

9. TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any uncertain position that more likely than not would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to examinations for years prior to 2009.

10. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

At December 31, 2012 and 2011, the value of the accounts held by participants who have separated from employment with the plan sponsor and have decided to continue to invest in the Plan total $155,595 and $322,250, respectively. For the year ended December 31, 2012, there

were no distributions requested but not paid to participants who have elected to withdraw from the Plan.

11. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
