Report on the Financial Statements

We have audited the accompanying financial statements of **A-C Electric Profit Sharing Plan** (the Plan), which comprise the statements of net assets available for benefits as of March 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended March 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of March 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended March 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of March 31, 2013 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

A-C ELECTRIC PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the A-C Electric ("Company") Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Investment directions: The Plan's investments are directed by the trustees of the Plan.

Contributions: Each year, the Company makes discretionary contributions to the Plan at the option of the Company's board of directors. Participant contributions are not allowed. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with an allocation of Plan earnings or loss, and charged with their individual life insurance premiums. Active participants' accounts are credited with an allocation of the Company's contribution and forfeitures of terminated participants' non-vested accounts. Allocation of the Company's contribution and forfeitures is based upon length of service and compensation, and allocation of earnings or loss is based upon account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Vesting is based on length of service. A participant is 100 percent vested after six years of credited service.

Payment of benefits: On termination of service a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in monthly or yearly amounts as determined by the participant.

Life insurance: The Plan allows the participants to purchase life insurance with the premiums to be paid from their accounts. The maximum amount of life insurance that can be purchased is equal to the lesser of one year's compensation or $60,000.

Forfeited accounts: At March 31, 2013 and 2012, forfeited non-vested accounts totaled $2,967 and $7,692, respectively. These accounts will be reallocated to active participants in the same manner as employer contributions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events through August 2, 2013, the date the financial statements were available to be issued.

Note 3. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2013	2012
Mutual funds		
Oakmark Equity & Income Fund	$ 3,064,997	$ 2,856,455
Bruce Fund	1,995,179	1,783,317
Guggenheim Mid Cap Value Class A	1,521,758	1,281,217
Cash value of life insurance	435,654	426,932
	$ 7,017,588	$ 6,347,921

During the year ended March 31, 2013 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $597,510 as follows:

Mutual funds	$ 567,931
Cash value of life insurance	29,579
	$ 597,510

Note 4. Fair Value Measurements

The Fair Value Measurements and Disclosures topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2013 or 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Cash value of life insurance: Valued based upon the amount that would be received upon surrender as reported by the insurance company.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2013 and 2012.

	Assets at Fair Value as of March 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
LargeCap blend	$ 3,064,997	$ -	$ -	$ 3,064,997
SmallCap blend	1,995,179	-	-	1,995,179
MidCap value	1,521,758	-	-	1,521,758
Cash value of life insurance	-	-	435,654	435,654
Total assets at fair value	$ 6,581,934	$ -	$ 435,654	$ 7,017,588

	Assets at Fair Value as of March 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
LargeCap blend	$ 2,856,455	$ -	$ -	$ 2,856,455
SmallCap blend	1,783,317	-	-	1,783,317
MidCap value	1,281,217	-	-	1,281,217
Cash value of life insurance	-	-	426,932	426,932
Total assets at fair value	$ 5,920,989	$ -	$ 426,932	$ 6,347,921

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended March 31, 2013:

	Cash value of life insurance
Balance, beginning of year	$ 426,932
Unrealized gains relating to instruments still held at the reporting date	29,579
Purchases, sales, issuances and settlements (net)	(20,857)
Balance, end of year	$ 435,654

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated July 7, 2010, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Franchise Tax Board. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
