Litecontrol Corporation Profit-Sharing Thrift Plan
Plympton, Massachusetts

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Litecontrol Corporation Profit-Sharing Thrift Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Reliance Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

LITECONTROL CORPORATION PROFIT-SHARING THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF PLAN

The following description of the Litecontrol Profit-Sharing Thrift Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - Litecontrol Corporation (the "Company") established a profit-sharing thrift plan for the benefit of its employees on December 1, 1984. The Plan was restated in its entirety effective January 1, 2010 and was last amended on August 1, 2010. The Plan contains a salary reduction feature under Internal Revenue Code Section (IRC) 401(k). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is participant directed. Effective February 28, 2011, the Plan received a favorable determination letter as to the prototype's plan qualified status.

Eligibility - All eligible employees of the Company may elect to participate in the Plan on the first day of each calendar month after completion of one (1) year of service and attaining age twenty-one (21). A year of service is defined as completing 1,000 hours of service in a twelve-month period.

Participant contributions - Participants may contribute a percentage of their annual pre-tax compensation to the Plan subject to certain limitations allowable under Section 401(k) of the IRC. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct their contributions into various investment options offered by the Plan. The Plan currently offers fifty three (53) mutual funds, one (1) money market fund and one (1) guaranteed investment contract in a common collective trust fund as investment options for participants.

Employer contributions - Upon entering the Plan, each employee receives a \$100 initial contribution by the employer. In addition, the employer may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals. Each year, the employer will determine the formula for the discretionary matching contribution. Additional discretionary non-elective matching contributions may be contributed at the option of the Company. There were no discretionary employer matching or non-elective matching contributions for the year ended December 31, 2012.

(Continued)

1. DESCRIPTION OF PLAN (Continued)

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of the (a) Company's discretionary matching and non-elective matching contribution and (b) plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are, at all times, fully vested in both their employee and employer contributions, including any earnings thereon.

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or fifty percent (50%) of their account balance. The loans are secured by the balance in the participant's account. The loan's interest rate is set at 2 percent above the prime rate, as defined. Principal and interest is paid ratably through weekly and bi-weekly payroll deductions.

Payment of benefits - Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Benefit payments will be made as soon as administratively feasible in a single lump sum payment for terminated participants with an account balance below \$5,000. The plan allows for in service distributions to participants who have reached age 59 ½. Certain participants determined by the Plan administrator to be in a case of financial hardship may withdraw all or a portion of their participant contributions in accordance with the Plan agreement.

Forfeiture accounts - Forfeitures are created when a distribution payment to a participant or their beneficiary is not made due to their being unable to be located or deceased, and the value of their account does not exceed \$1,000. If a participant's deferred compensation together with any elective deferrals under another qualified plan cumulatively exceed the limitation imposed by Section 402(g) of the IRC for the taxable year, the excess amounts shall be treated as forfeitures. As of December 31, 2012, the Plan does not have any outstanding forfeiture accounts.

2. SUMMARY OF ACCOUNTING POLICIES

A summary of the Plan's accounting policies that affect the more significant elements of the financial statements is stated below.

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

(Continued)

2. SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for the fully benefit-responsive investment contract.

Use of estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. The Plan's trustees determine the Plan's valuation policies utilizing information provided by investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Except for administrative and investment advisory expenses associated with investments, all expenses associated with the administration of the Plan are paid by the Company at their discretion, with the exception of certain participant transaction fees charged to the accounts of participants initiating the transaction.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Cash equivalents - Cash equivalents include an investment in a money market fund. The investment is recorded at cost, plus accrued interest.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

3. FAIR VALUE MEASUREMENTS (Continued)

Guaranteed investment contract - Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (See Note 10). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the trustees evaluate a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate) (See Note 10).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Cash equivalents	\$ 164,657			\$ 164,657

Total assets at fair value	\$6,510,583		\$1,611,247	\$8,121,830

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012:

	<u>Guaranteed Investment Contract</u>
Balance, beginning of the year	\$1,611,247
Realized gains	1,241
Unrealized gains (losses) relating to instruments still held at the reporting date	(1,084)
Purchases	856
Sales	(253,211)
Balance, end of the year	<u>\$1,359,049</u>

The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date

\$ (1,084)

Unrealized gains (losses) from guaranteed investment contracts are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

3. FAIR VALUE MEASUREMENTS (Continued)

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed investment contract	\$1,359,049	Discounted Cash Flow	Re-bid rates for contract level wrap fees	0.08%-0.35%	0.24%

4. INVESTMENTS

The following investments represent five percent (5%) or more of the Plan's net assets available for benefits at December 31, 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Morley INVT Omnibus Instl CL, at contract value	\$1,332,192	\$1,568,599
DoubleLine Total Return Bond Fund	585,065	525,719
Dreyfus Bond Market Index Fund	472,542	

During 2012, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value as follows:

Guaranteed investment contract	\$ 15,948
Mutual funds	571,606
Net appreciation in fair value of investments	<u>\$587,554</u>

5. FINANCIAL INFORMATION CERTIFIED BY TRUSTEE

The following is a summary description of the unaudited information regarding the Plan, included in the Plan's financial statements, which was prepared by Reliance Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certification from the trustee that such information is complete and accurate as of December 31, 2012 and 2011, and for the year ended December 31, 2012.

- Statements of Net Assets Available for Benefits – all investment related items and amounts.
- Statement of Changes in Net Assets Available for Benefits – all investment related items and amounts.
- Schedule of Assets Held for Investment Purposes – all items and amounts.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain shares of mutual funds and a guaranteed investment contract are managed by Reliance Trust Company. Reliance Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the custodian for the year ended December 31, 2012 were \$1,541.

The plan administrator and certain employees of the Company, who are also participants of the Plan, perform administrative services at no cost to the Plan.

8. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 28, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to internally monitor tax positions taken by the Plan to determine whether any are uncertain. A tax position is taken if it is determined that the position will “more-likely-than-not” be sustained upon examination by a taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there were no uncertain positions taken or expected to be taken that would require the recognition of a liability or asset or disclosure in the financial statements. The Plan is not currently subject to audits for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2009.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan participates in a fully benefit-responsive stable value investment fund (the Fund) under the trusteeship of Union Bond & Trust Company. The Fund is a guaranteed investment contract (also known as a pooled fund).

(Continued)

**10. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY
(Continued)**

It is intended that the Fund's stable value investment contracts will maintain a minimum weighted average credit quality rating of A or better. The underlying fixed income securities must be rated investment grade and meet issuer diversification guidelines. The income return on the Fund is a blend of all the rates of the various investments purchased by the Fund. Income is accrued daily and reinvested in the Fund. This accrual of income is reflected in the Fund's unit price, which is priced daily and is not held constant. Units of the Fund may be purchased or redeemed daily. The contract value is determined by the trustee by consideration of such factors as the benefit responsiveness of the contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and likelihood of default by the issuer of an investment security. The fair value of conventional investment contracts is determined using a discounted cash flow methodology where individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contracts are generally valued as follows: domestic and foreign fixed income securities, and futures and options are valued at fair value based on market values obtained from independent pricing services, quotes by dealers who are market makers in these securities, or by a methodology approved by the trustee.

Commercial paper and other investment securities with less than 60 days to maturity when purchased are valued at amortized cost, which approximates fair value. Investments in regulated investment companies or collective investment trusts are valued at the net asset value per share/unit on the valuation date. Accrued interest on the underlying investments is added to the fair value of the investments for presentation purposes. The fair value of the wrap contracts is determined using the market approach discounting methodology, which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated yield curve as of year-end.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Union Bond & Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was \$1,359,049 and \$1,611,247, respectively.

Income is calculated daily and is automatically reinvested, which will change the net asset value of the units in the Fund. The amount of income is dependent on contract interest rates, contract maturities, and new investments in the Fund. The crediting interest rates of the contracts in this fund are predominately re-set on a monthly basis with a one-month look back for the portfolio statistics.

Units of participation in the Fund may be purchased daily by following the procedure established by the Plan. Redemption of units of the Fund may usually be made daily subject to certain limitations.

Certain events limit the ability of the Plan to transact at net asset value of the Fund. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at net asset value with participants, is probable.

	<u>2012</u>	<u>2011</u>
Average yields:		
Based on actual earnings	0.87%	1.37%
Based on interest rate credited to participants	1.42%	2.13%

11. ADMINISTRATIVE EXPENSES

Investment contract related expenses, participant transaction fees and other administrative and investment advisory expenses incurred by the Plan were \$70,320 for the year ended December 31, 2012.

12. SUBSEQUENT EVENTS

Effective January 1, 2013, the Plan document was formally amended to exclude all paid bonus amounts from the definition of eligible compensation.

The Plan has evaluated subsequent events through September 11, 2013, the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
