NOTE 1. DESCRIPTION OF PLAN

The following description of the Harvey Gerstman Associates, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all employees of Harvey Gerstman Associates, Inc. and its affiliates, Quest Service Group, LLC and Gerstman, LLC (collectively, the "Company"), who are age 21 or older and have completed one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Participants may elect to defer, on a pretax basis, a portion of their gross annual salary, as defined in the Plan, subject to limits specified under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

Employer Contributions

The Company makes matching contributions and discretionary contributions to the Plan, subject to certain IRC limitations, as follows:

Matching Contributions - The Company may, at its discretion, contribute a matching contribution on behalf of each participant who makes an elective deferral for that Plan year. There were no matching contributions made for the Plan year ended December 31, 2012.

Discretionary Contribution - The Company may, at its discretion, contribute to the Plan based upon the achievement of its financial objectives. There were no discretionary contributions made for the Plan year ended December 31, 2012.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of the Company's discretionary contributions and Plan earnings, and is charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants may choose from several investment options offered by the Plan to which contributions on their behalf are directed.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company's matching contributions, discretionary Company contributions, and any earnings thereon based on years of continuous service according to the following schedule:

Years of Vesting Service	Vested Percentage
Less than 1	0%
1	33%
2	66%
3	100%

Payment of Benefits

The Plan provides that distributions upon reaching normal retirement age be made in a lump sum amount equal to the value of the participant's vested account balance.

Upon the death of a participant, the participant's vested contribution will be distributed to his or her beneficiary.

Upon termination, a participant shall be entitled to his or her vested interest in the amount credited to his or her account. A participant with a balance of less than $5,000 may receive a lump sum distribution without their consent. In addition, withdrawals are permitted when a participant reaches age 59½, or due to hardship within Internal Revenue Service ("IRS") guidelines.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

If a participant fails to make a loan payment when due under the terms of the loan, the participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Forfeitures

Forfeitures are allocated to participants in the same manner as the employer contributions to which they relate. For a Plan year in which no employer discretionary or matching contribution is being allocated, forfeitures may be used to offset administrative expenses of the Plan or may be allocated as a matching contribution regardless of the type of contribution forfeited. There were no forfeited amounts for the Plan year ended December 31, 2012.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Transfer of Assets Between Custodians

On November 1, 2012, the Plan changed custodians from Nationwide Trust Company, FSB ("Nationwide") to Fidelity Management Trust Company ("Fidelity") (collectively the "Custodians"). As a result, all participant account balances were transferred from investments held by Nationwide to investments held by Fidelity. In connection therewith, assets transferred to Fidelity consisted of mutual funds and a common collective trust aggregating $1,815,612, and loans to participants of $15,737.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements were prepared using the accrual basis of accounting.

Recently Adopted Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in* U.S. *GAAP and IFRSs*. ASU 2011-04 amends FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, providing a consistent definition and measurement of fair value, as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurement and expands the ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 was effective for the year beginning January 1, 2012. The adoption of ASU 2011-04 did not did not have a material effect on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the exdividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Company as provided for in the Plan agreement.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through September 3, 2013, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value, on a recurring basis, as of December 31, 2012 and 2011:

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

Common/collective trusts: are valued using a net asset value ("NAV"). The NAV of the common/collective trusts is based on the market values of the underlying securities in an active market. The beneficial interest of each participant is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4. NET ASSET VALUE PER SHARE

The following tables set forth additional information with respect to the Plan's investments with a reported NAV per share at December 31, 2012 and 2011:

	Fair Value Estimated Using Net Asset Value per Share December 31, 2012				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Collective trust (a)	$ 2,003	$ -	Daily	None	None

	Fair Value Estimated Using Net Asset Value per Share December 31, 2011				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Common collective trusts (b)	$ 1,800,624	$ -	Daily	None	None

The fair values of the investments have been estimated using the NAV of the investments.

(a) The fund seeks safety of principal and consistency of returns while attempting to maintain minimal volatility. The fund is primarily comprised of investment contracts, including guaranteed investment contracts ("GICs"), separate account GICs and security backed investment contracts.

(b) The common collective trusts invest in various mutual funds.

NOTE 5. RISKS AND UNCERTAINTIES

The Plan provides for investments in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6. TAX STATUS

The Plan uses a prototype plan document sponsored by Fidelity Management & Research Company that received an opinion letter from the IRS dated March 31, 2008, which states that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. The Plan's management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 7. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIANS

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included in the Plan's financial statements and supplemental schedule, that was prepared by, or derived from, information prepared by the Custodians, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodians that such information is complete and accurate.

* Investments did not represent 5% or more of the Plan's net assets available for benefits.

NOTE 8. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

During 2012 and 2011, certain Plan investments are mutual funds and units of common/collective trusts, respectively, managed by the Custodians of the Plan. These transactions qualify as party-in-interest transactions.

NOTE 9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 10. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

In December 2012, the Plan invested in the Wells Fargo Bank Stable Value Fund, which is a collective trust that invests in investment contracts and security-backed contracts. The Wells Fargo Bank Stable Value Fund maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charges for participant withdrawals and administrative expenses. The collective trust issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the collective trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective trust. The collective trust is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits, if material. Contract value, as reported to the Plan by the trustees, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. As of December 31, 2012, the contract value was estimated to be $2,003, which approximates fair value. The market value adjustment was not shown on the statements of net assets available for benefits, as the adjustment was deemed to be immaterial in relation to the total net assets available for benefits for the year ended December 31, 2012. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The average yield based on actual earnings for the contract for the year ended December 31, 2012 was 0.94%. The crediting interest rate to participants for the contracts as of December 31, 2012 was 1.95%. Wells Fargo Bank, N.A. makes this guarantee, and although Wells Fargo Bank, N.A. may credit a higher interest rate, the credited rate will never fall below the lifetime guaranteed minimum of 0.94%.

The collective trust does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
