NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Southern Erectors, Inc. Employees' Profit Sharing Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering employees of Southern Erectors, Inc. (the "Company") who have attained age 18 and completed 12 months and 1,000 hours of service. Entry dates are January 1 and July 1 of each year. The Plan was established January 1, 1978 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan. The Board of Trustees determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors.

Contributions:

Each year, participants may contribute a percentage of their gross annual compensation, subject to certain limitations. Participants who have attained age 50 by year-end may make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For each plan year, the Company may contribute to the Plan an amount of matching contributions determined by the Company in its sole discretion. The Company may choose not to make matching contributions for a particular plan year. Any matching contributions made by the Company will be allocated to participant accounts based on the employees' elective deferrals. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors and are invested in the same funds elected by each individual participant.

Participant Accounts:

Each participant's account is credited with the participant's contributions and the Company's matching contributions, and allocations of the Company's profit sharing contributions and Plan earnings, and charged with withdrawals, administrative expenses, and an allocation of Plan losses. Allocations are based upon participant's earnings, deferrals, or account balances, as defined. Participants may choose to invest their accounts in one or more funds established by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting:

Participants are immediately 100% vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. A participant is 100% vested after six years of credited service. There is no vesting until after the completion of two years. Participants become 100% vested in Company contributions upon disability or death.

Notes Receivable from Participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans under $2,000 are repaid within a period of 3 years. All other loans are to be repaid within 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear a fixed rate of interest at the New York prime rate reported in the Wall Street Journal on the 14th of each month, plus 1%. Principal and interest is paid ratably through monthly payroll deductions.

Forfeitures:

Forfeitures of terminated participants' non-vested accounts are used to offset future employer contributions. Employer contributions were reduced by $1,478 in 2012 from forfeited non-vested accounts. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $8,919 and $5,699, respectively.

Payment of Benefits:

Upon termination of service due to death, disability, or retirement, an eligible participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account, a direct rollover of Plan benefits to the participant's individual retirement arrangement or to another employer plan, or may receive annual installment payments. For termination of service due to other reasons, a participant may receive the value of the vested interest in the participant's account as a lump-sum distribution.

Entities Under Common Control:

During 1995, the Company became a member of a controlled group as defined in Internal Revenue Code Section 414(b) with Southern Environmental, Inc. Consequently, Southern Erectors, Inc. and Southern Environmental, Inc. must be treated as one employer when applying the participation and discrimination rules.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate a permitted transaction under the terms of the plan. The statements of net assets available for plan benefits present the fair value of the investment contracts associated with the group annuity contracts. The contract values approximate fair values as of December 31, 2012 and 2011; therefore, no adjustment of the fully benefit-responsive investment contracts from fair value to contract value was required. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Investments that have no quoted market price are stated at estimated fair value. See Note 3 for discussion of fair value measurements. The Board of Trustees determines the Plan's valuation policies utilizing information provided by the custodian.

Purchases and sales of investments are accounted for on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan. Interest income on notes receivable from participants is recorded when it is earned.

Excess Contributions:

Excess contributions are distributed to the participants and employer no later than 2½ months after the end of the Plan year to satisfy the relevant nondiscrimination provisions of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits:

Benefits are recorded when paid.

Administrative Expenses:

Administrative expenses are shared by the Plan and the Company.

Subsequent Events:

Subsequent events were evaluated through September 6, 2013, which is the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The guidance establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset.

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of relevant observable inputs and minimize the use of unobservable inputs when measuring fair value. Three levels of inputs may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for financial instruments measured at fair value:

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end. Mutual funds are held in a separate account managed by Hartford Life Insurance Company ("Hartford").

Group annuity contracts: Valued at contract value, as described in Note 4.

The following tables present the financial instruments carried at fair value as of December 31, 2012 and 2011:

	Level 1	Level 2	Level 3	Total

NOTE 4 - INVESTMENTS

The Plan's investments are held in a trust fund. The following table presents the fair values of the Plan's investments that represent five percent or more of the Plan's net assets available for benefits.

	2012	2011
Mutual funds -		
Hartford Target Retirement 2010 R4	$ 1,895,647	$ 1,738,101

During the year ended December 31, 2012, the Plan's investments in mutual funds (including gains and losses on investments bought, sold, and held during the year) appreciated in value by $399,328.

NOTE 4 - INVESTMENTS (Continued)

Group Annuity Contracts:

The Plan's investments include two benefit-responsive group annuity contracts with Hartford: Hartford Fixed Account and Hartford Lifetime Income. Hartford maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer of the group annuity contracts is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the group annuity contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the annuity contracts. The group annuity contracts are presented on the face of the statements of net assets available for benefits at fair value, which approximates contract value. Contract value, as reported to the Plan by Hartford, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rates are based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events, such as the premature termination of the contracts by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Hartford. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The average yield and crediting interest rates for the group annuity contracts were approximately 4% for the year ended December 31, 2012.

Hartford Fixed Account is an investment option that credits participants with interest at a rate declared for each quarter, which may not be less than 3%.

Hartford Lifetime Income is a fixed deferred annuity which was added as an investment option in March 2012. Participants can purchase income shares that provide $10 of guaranteed monthly income for life upon retirement, with the flexibility to cash-out at any time prior to commencing income payments. The cash-out value is equal to the lesser of net contributions accumulated at 3% interest or the current purchase price of income shares. The cost of each income share varies with the participant's age, mortality tables and current interest rates, and is predicated on retirement at age 65. The amount of income from each unit can increase if the participant retires later or can decrease if the participant retires earlier. Income shares may only be purchased by participants up until the required minimum distribution age, generally by age 70½.

NOTE 4 - INVESTMENTS (Continued)

Group Annuity Contracts (Continued):

To protect the guaranteed income benefits accrued by participants, Hartford Lifetime Income is excluded from certain transactions, including rebalancing, systematic withdrawals, hardship withdrawals and loans. However, the cash-out value of the income shares is factored in when determining the available loan amount. Participants always have the right to change from their Hartford Lifetime Income option to another Plan investment option where they can access their cash-out value. Once a distribution event occurs with respect to a participant, he or she may request a distribution of their Hartford Lifetime Income annuity from the Plan via an annuity transfer. This qualified plan distributed annuity is a non-taxable in-kind distribution that removes Hartford Lifetime Income as a Plan asset. Hartford will issue an income annuity certificate to the participant (as the annuitant) at the time of distribution, reflecting the amount of their guaranteed income and instructions on how to contact Hartford when they are ready to initiate their income payments.

The income shares are portable, which means that a participant can retain the shares and the guaranteed income they provide if he or she changes employers, or the Plan sponsor changes providers or recordkeepers. Upon contract discontinuance, no future contributions, reallocations or rollovers are permitted to be allocated to purchase additional income shares. The income shares held by participants at the time of discontinuance remain under the Plan until the participants (or their beneficiaries) meet a distributable event or elect to liquidate income shares. Participants who meet a distributable event will receive a distribution of their income shares from the Plan as a nontaxable qualified plan distributed annuity. Participant holdings in Hartford Lifetime Income will continue to be administered as an asset of the Plan. Hartford will continue to administer the Hartford Lifetime Income shares and provide ongoing tax reporting and recordkeeping services.

NOTE 5 - INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED INFORMATION)

Hartford, the custodian of the Plan, holds the Plan's investment assets and executes transactions therein. Financial information relating to the Plan's assets as of December 31, 2012 and 2011, and for the year ended December 31, 2012, is included in the accompanying financial statements and is based on information provided by the custodian. This information, which has not been audited by independent auditors, is summarized below:

	2012	2011
Assets:		
Mutual funds	$ 5,620,481	$ 4,958,718
Group annuity contracts	343,164	402,764
Notes receivable from participants	169,614	156,650
	$ 6,133,259	$ 5,518,132
Changes in Net Assets:		
Net appreciation in fair value of investments	$ 399,328	
Interest and dividends	270,523	
Interest income on notes receivable from participants	5,421	
	$ 675,272	

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are managed by Hartford. Hartford is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The fair value of investments held by Hartford at December 31, 2012 and 2011, totaled $5,963,645 and $5,361,482, respectively.

NOTE 7 - INCOME TAX STATUS

The Plan obtained its latest determination letter on July 6, 2010, in which the Internal Revenue Service stated that the Plan and related trust, as then designated, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC") and is, therefore, not subject to tax under present income tax laws. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements. With few exceptions, the Plan is no longer subject to examination by tax authorities for years before 2009.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA, by delivering written notice of such termination to Hartford. A complete discontinuance of the Company's contributions to the Plan shall constitute a termination. Upon any termination (full or partial) or complete discontinuance of contributions, all amounts credited to the affected participants' accounts shall become 100% vested.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - SUBSEQUENT EVENTS

Effective January 1, 2013, Massachusetts Mutual Life Insurance Company ("MassMutual") acquired the Retirement Plans Group of The Hartford Financial Service Group, Inc., and became the custodian of the Plan. MassMutual has been appointed by Hartford to provide all administrative services necessary to support the insurance contracts issued by Hartford in connection with the Retirement Plans Group business.
